Skrabec, Jr., 2015-06-14 American business has always had deep roots in community For over a century the country looked to philanthropic industrialists to finance hospitals parks libraries civic programs community welfare and disaster aid Worker centered capitalists saw the workplace as an extension of the community and poured millions into schools job training and adult education Often criticized as welfare capitalism this system was unique in the world Lesser known capitalists like Peter Cooper and George Westinghouse led the movement in the mid to late 1800s Westinghouse in particular focused on good wages and benefits Robber barons like George Pullman and Andrew Carnegie would later succeed in corrupting the higher benefits of worker centered capitalism This is the story of those accomplished Americans who sought to balance the accumulation of wealth with communal responsibility A Shot in the Dark: A History of the U.S. Army Asymmetric Warfare Group Paul J. Cook, 2024-05-14 This book presents the U S Army Asymmetric Warfare Group AWG as an example of successful change by the Army in wartime It argues that creating the AWG required senior leaders to create a vision differing from the Army s self conceptualization change bureaucratic processes to turn the vision into an actual unit and then place the new unit in the hands of uniquely qualified leaders to build and sustain it In doing this it considers the forces influencing change within the Army and argues the two most significant are its self conceptualization and institutional bureaucracy The work explores three major subject areas that provide historical context The first is the Army's institutional history from the early 1950s through 2001 This period begins with the Army seeking to validate its place in America's national security strategy and ends with the Army trying to chart a path into the post Cold War future The Army s history is largely one of asymmetric warfare The work thus examines several campaigns that offered lessons for subsequent wars Some lessons the Army took to heart others it ignored As the AWG was a direct outgrowth of the failures and frustrations the Army experienced in Afghanistan and Iraq the book examines these campaigns and identifies the specific

problems that led senior Army leaders to create the AWG Finally the work chronicles the AWG s creation in 2006 growth and re assignment from the Army staff to a fully fledged organization subordinate to the U S Army Training and Doctrine Command in 2011 to its deactivation This action resulted not from the unit s failure to adapt to a post insurgency Army focusing on modernization Rather it resulted from the Army failing to realize that while the AWG was a product of counterinsurgency it provided the capability to support the Army during a period of great strategic and institutional The Age of Astonishment Bill Morris, 2022-04-05 An acclaimed journalist and novelist makes history personal painting a rich and vivid portrait of the time when America become modern by tracing the life of one man who lived through it It all began with a black and white family snapshot of a distinguished elderly gentleman with a fine head of spun sugar hair He was wearing round tortoise shell glasses a three piece suit and an expression of delight mixed with terror for on his right knee he was balancing a swaddled infant with a bewildered look The baby is Bill morris the man is his father s father John Morris That photo taken in November 1952 the month the United States detonated the first hydrogen bomb a weapon a thousand times more powerful than the atom bombs that incinerated Hiroshima and Nagasaki Three years later John Morris died at the age of 92 Bill has no memories of the man but even as a boy he found himself marveling at the changes John must have witnessed and experienced in his long lifetime He was born into a slave owning Virginia family during the Civil War and he died at the peak of the Cold War At the time of his birth the dominant technologies were the steam engine and the telegraph He grew up in a world lit by kerosene and candles he traveled by foot and horseback and wagon and drank water hauled from a well He would live through Reconstruction women's suffrage Prohibition the Great Depression two world wars the Korean War and the advent of nuclear weapons Though he was from a slave owning family he changed his views as he grew into adulthood and would unhappily witnessed the horrors of Jim Crow and work against it Fluent in German he would witness Hitler's rise to power just one of the unimaginable occurrences of his time that suddenly became all too real Deep in the Bible Belt John was agnostic perhaps even atheist and held remarkably progressive beliefs on race relations child rearing women's rights and religious freedom.
