

Test & Evaluation Management Guide

Foreword

This 3rd edition of the Test and Evaluation Management Guide (TEMG) was updated with the cooperation and support of the Deputy Assistant Secretary of Defense for Developmental Test and Evaluation (DADEDT&E), the Director of Operational Test and Evaluation (DOT&E), the President of the Defense Acquisition University (DAU), and the DoD Component test and evaluation (T&E) representatives. The TEMG is one of many technical management educational guides developed for use by DoD. Although some Service-specific documents are included as illustrative examples, the TEMG, like all DoD products, is written primarily from a Department of Defense (DoD) perspective, i.e., not Service specific.

The TEMG is intended primarily for use in courses at DoD and secondarily as a general desk reference for program and project management, and T&E personnel. It is written for current and potential acquisition management personnel and assumes some familiarity with basic terms, definitions, and processes as employed by the DoD acquisition process. The TEMG is designed to assist Government and industry personnel in developing their management responsibilities relative to the T&E support of defense systems and technical learning during DoD acquisition.

The objective of a well-managed T&E program is to provide timely and accurate information to decision makers and program managers (PMs). The TEMG was developed to assist the acquisition community in developing a better understanding of what the defense system and non-defending user and when to place T&E events so that they are efficient and effective.

Although the TEMG includes some references to DoD policies, it is not a policy document and should not be viewed as such. The latest version of the DoD DDG series, as well as the Defense Acquisition Handbook (DAH) Chapter 8, Test and Evaluations, should be consulted for specific policies and DoD recommended practices.

References to Military Handbooks (MH), HCSMs appear throughout the TEMG. However, these handbooks are for guidance only and cannot stand as a regulation.

For additional learning materials about DoD T&E, consult the DAU Website (www.dau.mil) for reviewing T&E continuous learning modules and attending T&E courses, and go to the DAU Acquisition Community Connection, T&E Community of Practice (CoP) website at www.dau.dau.mil/tae.

Comments, updates, changes, and/or comments to this guide structure provided to Office of the DADEDT&E, T&E Competency and Development Directorate and to DoD.

Chapter 1 – T&E Policy Structure and Oversight Mechanisms

1.1 Introduction

This chapter provides an introduction to the policy and organizations that govern the conduct of T&E activities within the DoD and describes organizational regulation of T&E activities for compliance by DoD. It outlines the responsibilities of DoD test organizations at the Office of the Secretary of Defense (OSD), and Service levels and describes related T&E policy.

1.2 Congress

Congress requires the DoD to submit the following reports that include information on T&E:

- **Selected Acquisition Report (SAR).** This report consists of cost, schedule, and performance data. The SAR describes Acquisition Category (ACAT) program characteristics required and outlines significant progress and problems encountered. It also lists completed and needs identified during testing. The program manager (PM) uses the Consolidated Acquisition Reporting System software to prepare the SAR.
- **DOT&E Annual Report.** This report is provided to the DOT&E by the Secretary of Defense (Secretary) and his committees on Armed Services, National Security, and Appropriations. The report provides a narrative and statistical summary of all operational test and evaluation (OT&E) and related issues, initiatives, other interest areas, activities, and assessments in the previous

Test And Evaluation Management Guide
