Walker, 2014-08-28 *Testing Fresh Expressions* investigates whether fresh expressions of church really do what is claimed for them by the fresh expressions movement and in particular whether their unique approach helps to reverse trends of decline experienced by traditional churches Part 1 examines those claims and untangles their sociological and theological assumptions From a careful study of factors underlying attendance decline and growth Part 2 argues that long term decline can be resisted only if churches are better able to attract children the non churched or both Part 3 tests the comparative ability of a group of growing parish churches and a group of fresh expressions to resist trends of decline and discovers some intriguing social dynamics common to both groups Part 4 argues that fresh expressions do not fulfil the unique role often claimed for them but that they do have the capacity to help reinvigorate the whole church      **Testing Fresh Expressions**

John Walker, 2016-04-01 *Testing Fresh Expressions* investigates whether fresh expressions of church really do what is claimed for them by the fresh expressions movement and in particular whether their unique approach helps to reverse trends of decline experienced by traditional churches Part 1 examines those claims and untangles their sociological and theological assumptions From a careful study of factors underlying attendance decline and growth Part 2 argues that long term decline can be resisted only if churches are better able to attract children the non churched or both Part 3 tests the comparative ability of a group of growing parish churches and a group of fresh expressions to resist trends of decline and discovers some intriguing social dynamics common to both groups Part 4 argues that fresh expressions do not fulfil the unique role often claimed for them but that they do have the capacity to help reinvigorate the whole church      *Towards a Theology of Church Growth* David Goodhew, 2016-03-03 Concern about church growth and decline is widespread and contentious yet theological reflection on church growth is scarce Reflecting on the Bible dogmatic theology and church history this book situates the numerical growth of the church within wider Christian theology Leading international scholars including Alister McGrath Benedicta Ward and C Kevin Rowe contribute a spectrum of voices from evangelical charismatic liberal and anglo catholic perspectives All contributors unite around the importance of seeking church growth provided this is situated within a

nuanced theological framework This book offers a critique of decline theology which has been influential amongst theologians and churches and which assumes church growth is impossible and or unnecessary The contributors provide rich resources from scripture doctrine and tradition to underpin action to promote church growth and to stimulate further theological reflection on the subject The Archbishop of Canterbury provides the Foreword      **Liquid Ecclesiology** Pete Ward, 2017-06-06 In *Liquid Ecclesiology* Pete Ward explores the theological contours of the turn to ethnography in the study of the Christian Church His approach rests on a theology of culture that holds in tension and paradox the expression of the Church and divine presence This theological framework is then developed through an extended qualitative empirical case study examining the communicative practices of the contemporary evangelical Church The case study examines how the evangelical Gospel through expression has become marginalised in the everyday life of communities being replaced by a new more individual and personalised theology seen in worship songs The final section of the book returns to the debates around ethnographic forms of theology and the question of normativity This book will be of interest to all those engaged in empirical and theological work as well as those researching the contemporary Church and evangelicalism      *The Anglican Imagination* Robert Boak Slocum, 2016-03-03 The variety and depth of Anglican theology is best engaged through personal encounter with its many sources the theologians and theological witnesses themselves Anglican theology is often worked out in personal terms that provide a synthesis between reflection on the truths of faith and the particular contexts of culture and life This book presents modern Anglican theology through a unique gallery This theological gallery includes a portrait or sketch of ten Anglican writers DuBose Farrer Stringfellow Brooks Kemper DeKoven McCord Adams Polkinghorne Gore and Macquarrie Theological description interpretation and application are included for each with the presentations differing as widely as the theologians and theological witnesses themselves Drawing together understandings and experiences of faith this will be an invaluable resource for students of Anglican theology and anyone who seeks to understand the distinctive perspectives and contributions of Anglicanism relative to living faith and daily life      Giving the Church Michael Moynagh, 2024-05-30 The nucleus of the church's vocation is to join the Spirit in giving communion in Christ to others in the form of new Christian communities for the benefit of the world But can the church be a welcome gift In *Giving the Church* leading ecclesiologist Michael Moynagh draws together recent thinking from the worlds of ecclesiology and missiology with significant sociological work on the idea of gift to provide a much needed theological rationale for some of the key missiological and ecclesiological movements in today's church Part 1 reworks some of the big themes in ecclesiology from this giving perspective the nature of the church the four marks the visible hidden church and inclusion exclusion Part 2 meanwhile draws on the extensive literature on gifts to offer an ethical framework for giving the church to others and uses this framework to provide fresh readings of liberationist herald and eucharistic models of the church It concludes by arguing that giving the church away can be a route to making the church a more attractive gift      *Disclosing Church* Clare

Watkins,2020-03-05 From 2006 to 2011 researchers at Heythrop College and the Oxford Centre for ecclesiology and Practical Theology OxCEPT Ripon College Cuddesdon worked on a theological and action research project Action Research Church and Society ARCS 2010 saw the publication of Talking About God in Practice Theological Action research and Practical Theology SCM which presented in an accessible way the work of ARCS and its developing methodology This turned out to be a landmark study in the praxis of Anglican and Catholic ecclesiology in the UK showing how theology in these differing contexts interacted with the way in which clergy and congregations lived out their religious convictions This book is a direct follow up to that significant work authored by one of the original researchers providing a systematic analysis of the impact of the theological action research methodology and its implications for a contemporary ecclesiology The book presents an ecclesiology generated from church practice drawing on scholarship in the field as well as the results of the theological action research undertaken It achieves this by including real scenarios alongside the academic discourse This combination allows the author to tease out the complex relationship between the theory and the reality of church Addressing the need for a more developed theological and methodological account of the ARCS project this is a book that will be of interest to scholars interested not only Western lived religion but ecclesiology and theology more generally too
