Fisher Frey's answer to close and critical reading No doubt since the cave paintings of prehistoric times humans have asked questions to make sense of the message So what could possibly be new about posing questions about text Plenty and with TDQ Doug Fisher and Nancy Frey reveal it all After one quick read you will have learned all the very best ways to use text dependent questions as scaffolds during close reading and the big understandings they can yield especially when executed the Fisher and Frey way But that's just for starters Fisher and Frey also include illustrative video recommended texts and questions examples from across content areas and an online professional learning guide making the two volumes of TDQ a potent professional development tool across all of K 12 The genius of TDQ is the way Fisher and Frey break down the process into four cognitive pathways that help teachers organize the journey through a text and frame an extended discussion around it Step by step this approach ensures that in every close reading lesson students are guided to consider explicit and implied meanings and deeply analyze and appreciate various aspects of a text especially those that may be challenging or confusing Here's how the four inter related processes play out with every why and every how answered What does the text say general understandings and key details How does the text work vocabulary structure and author's craft What does the text mean logical inferences and intertextual connections What does the text inspire you to do write investigate present debate The cool thing These questions ignite students engagement and discussion because they strategically lead students to a place of understanding where explicit and implied meanings and interpretations can be debated Far from being overly literal or teacher led the questioning framework Fisher and Frey advance enhances the quality of student talk and idea generation All in all there's no better resource to cultivate students capacity for independent reading and incisive thinking Longtime collaborators and recipients of numerous teaching and leadership awards DOUGLAS FISHER and NANCY FREY are Professors of Educational Leadership at San Diego State University as well as teacher leaders at Health Sciences High Middle College

A Practical Guide to Exemplary Professional Development Schools Michael Cosenza, JoAnne Ferrara, Diane W. Gómez, 2024-03-01. Professional Development Schools are complex and comprehensive school-university partnerships focusing on professional development of new teachers and veteran teachers while providing high-quality education to P-12 students. The chapters of this book contain the stories of 8 highly successful and nationally recognized professional development schools. Each story provides the reader with practical ideas, procedures, and policies that can be implemented by the reader to begin new partnerships or help improve and sustain existing partnerships. Each chapter discusses the rich clinical preparation combined with progressive experiences in PDSs that have made the partnership successful. The diverse authors from several different states describe their efforts to forge PDS partnerships to develop and deliver high-quality teacher preparations, practical experiences for teacher candidates, and simultaneously provide professional development for experienced practitioners. The book will be a valuable resource to school and university faculty and administrators as they transition to a partnering model of clinical preparation for teacher candidates; it will help stakeholders decide if their schools and institutions are ready to commit to a partnership and highlight the benefits they stand to gain. The book also realistically addresses challenges in a way the reader can prepare for to reduce obstacles in establishing and sustaining PDSs.
