Thanks to David Wells for this carefully researched and meticulously detailed manual. As a massage therapist and yoga instructor, the work has become an important daily practice for me, and one that I share with my clients. The exercises help me to prepare my body for the day, identify limitations and restrictions in my body, and balance my energy. The self-massage practice gives me a soothing way to treat those issues and heal myself. I use Thai Yoga to relieve tension, headaches, reduce neck and shoulder tension, and pain, improve a chronic back injury by mobilizing the low back and hips, and releasing the accompanying muscles with self-massage. I also find the practice to reduce stress and increase energy. Most important, Thai Yoga is really fun and feels good. I recommend this practice for everybody. Jennifer Vanderburg LMT. Thai Yoga Joint Mobilization is part of my personal daily practice and something I recommend to all my clients for keeping joints open and in full function. It can be practiced standing or seated, making it accessible to people at any level of health. Jill Strong Harman LMT Founder Director Yin Thai Somatics. Thai Yoga has done more to free me from pain than anything else I've ever tried. For most of my adult life, I endured crippling back, neck, and joint pain due to several injuries. Now, after a year and a half of daily practice of the joint mobilization exercises, I have virtually no pain, and every muscle feels energized. I have gone from almost disabled to fully functional and can work and play like I did when I was a young man. I am self-sufficient and master of my physical health for the first time in my adult life. It has literally given me my life back. James Galusha.

yoga massage or Thai Nuad Boran is an ancient Thai therapeutic modality. It is a bodywork technique that integrates acupressure, traditional massage, and yoga. The underlying principle of this practice is that energy traverses the body via distinct pathways known as sen or meridians, and by manipulating these energy lines, one can achieve enhanced physical and mental health. Crucial components of Thai massage consist of a sequence of passive poses resembling those found in yoga, which are incorporated into Thai massage in order to increase range of motion, flexibility, and relaxation. Utilizing their palms, thumbs, elbows, knees, and feet, the therapist applies acupressure to specific points along the energy lines of the body. This is comparable to acupuncture in principle but it does not involve the insertion of needles. Joint mobilization: Thai massage incorporates joint manipulation and mobilization techniques which enhance flexibility and alignment. Thai massage aims to achieve an energetic equilibrium within the body by stimulating a harmonious passage along its numerous energy pathways. Breath awareness and mindfulness: During the session, both the practitioner and the recipient employ deep breathing and mindfulness techniques which serve to augment the overall therapeutic encounter. The mat is typically laid out on the floor during Thai massage, and the recipient remains completely clothed. The massage is frequently characterized as an interactive and dynamic form of bodywork in which both the therapist and the recipient collaborate to attain the intended results. An overall sense of well-being and relaxation, as well as improved circulation, increased vitality, and enhanced flexibility, may be among the benefits of Thai massage. It is imperative to acknowledge that although Thai massage can provide advantages for a considerable number of people, it may not be appropriate for all, particularly those who have specific medical conditions. It is recommended that individuals prior to undergoing any type of massage therapy, including Thai massage, consult with a healthcare professional.
