Thai Spa Book The Natural Asian Way To Health And Beauty:

Thai Spa Book Chami Jotisalikorn, 2012-10-16 Based on traditional Thai herbal lore the secrets of this country's ancient healing therapies are offered for the first time in this Thai guide to health and beauty. Feel good therapies and natural healing are the lifestyle mantras of the new millennium. Asia leads the way in the back to nature market, reviving many of its ancient techniques and treatments that have been handed down from one generation of women to the next. *Thai Spa Book* focuses specifically on stress busting therapies from Thailand, running the gamut from the many types of Thai massage and meditation to full beauty treatments, facials, relaxing baths and scrubs, healthy tonics and much more. These therapies are offered with recipes or instructions or both, which are easy to follow. Practical tips are given to recreate these health and beauty recipes at home and specific treatments are outlined for specific ailments. All are designed to soothe, nurture and calm. With superb full color photography using many of Thailand's top supermodels, the book was shot entirely on location in some of Thailand's super deluxe spas.

Natural spa Margaret Riley, 2013-03-01 *Natural spa* is a multi purpose resource for spa professionals and consumers alike. Each part of the book presents an array of ingredients found in nature that are nowadays in use in the most famous spa around the world. The ingredients are organized by different treatments so that to guide the readers through the discovery of possibilities in their next spa visit. This volume gathered the material in an easy to read, easy to understand and user friendly format.

Cleanliness and Culture C. (Kees) van Dijk, Jean Gelman Taylor, 2011-01-01 Recent years have shown an increase in interest in the study of cleanliness from a historical and sociological perspective. Many of such studies on bathing and washing, on keeping the body and the streets clean and on filth and the combat of dirt, focus on Europe. In *Cleanliness and Culture*, attention shifts to the tropics, to Indonesia in colonial times as well as in the present. Subjects range from the use of soap and the washing of clothes as a pretext to claim superiority of race and class to how references to being clean played a role in a campaign against European homosexuals in the Netherlands Indies at the end of the 1930s. Other topics are eerie skin diseases and the sanitary measures to eliminate them and how misconceptions about lack of hygiene as the cause of illness hampered the finding of a cure. Attention is also drawn to differences in attitude towards performing personal body functions outdoors and retreating to the privacy of the bathroom to traditional bathing ritual and to the modern tropical Spa culture as a manifestation of a New Asian lifestyle. With contributions by Bart Barendregt, Marieke Bloembergen, Kees van Dijk, Mary Somers Heidhues, David Henley, George Quinn and Jean Gelman Taylor.

Green Consumption Bart Barendregt, Rivke Jaffe, 2020-05-15 Green lifestyles and ethical consumption have become increasingly popular strategies in moving towards environmentally friendly societies and combating global poverty. Where previously environmentalists saw excess consumption as central to the problem, green consumerism now places consumption at the heart of the solution. However, ethical and sustainable consumption are also important forms of central to the creation and maintenance of class distinction. *Green Consumption* scrutinizes the emergent phenomenon of what this book terms eco

chic a combination of lifestyle politics environmentalism spirituality beauty and health Eco chic connects ethical sustainable and elite consumption It is increasingly part of the identity kit of certain sections of society who seek to combine taste and style with care for personal wellness and the environment This book deals with eco chic as a set of activities an ideological framework and a popular marketing strategy offering a critical examination of its manifestations in both the global North and South The diverse case studies presented in this book range from Basque sheep cheese production and Ghanaian Afro chic hairstyles to Asian tropical spa culture and Dutch fair trade jewellery initiatives The authors assess the ways in which eco chic with its apparent paradox of consumption and idealism can make a genuine contribution to solving some of the most pressing problems of our time
