The War for the Seas Evan Mawdsley, 2019-09-24 This impeccable myth busting study of WWII maritime operations sheds new light on the conflict with sharp analysis and an international perspective The Sunday Times UK Command of the oceans was crucial to winning World War II By the start of 1942 Nazi Germany had conquered mainland Europe and Imperial Japan had overrun Southeast Asia and much of the Pacific How could Britain and distant America prevail in what had become a war of continents In this definitive account Evan Mawdsley traces events at sea from the first U boat operations in 1939 to the surrender of Japan He argues that the Allied counterattack involved not just decisive sea battles but a long struggle to control shipping arteries and move armies across the sea

Tirpitz Niklas Zetterling,Michael Tamelander,2009-12-19 The authors of Bismarck deliver a very good account of the Tirpitz and of the naval war in the North Atlantic and Norwegian waters during World War II NYMAS Review After the Royal Navy s bloody high seas campaign to kill the mighty Bismarck the Allies were left with an uncomfortable truth the German behemoth had a twin sister Slightly larger than her sibling the Tirpitz was equally capable of destroying any other battleship afloat as well as wreaking havoc on Allied troop and supply convoys For the next three and a half years the Allies launched a variety of attacks to remove Germany s last serious surface threat hidden within fjords along the Norwegian coast Trying an indirect approach the British launched one of the war s most daring commando raids at St Nazaire in order to knock out the last drydock in Europe capable of servicing the Tirpitz Of over six hundred commandos and sailors in the raid more than half were lost during an all night battle that succeeded at least in knocking out the drydock It was not until November 1944 that the Tirpitz finally succumbed to British aircraft armed with ten thousand pound Tallboy bombs the ship capsizing at last with the loss of one thousand sailors In this book military historians Niklas Zetterling and Michael Tamelander authors of Bismarck The Final Days of Germany s Greatest Battleship illuminate the strategic implications and dramatic battles surrounding the Tirpitz a ship that may have had greater influence on the course of World War II than her more famous sister A riveting story keeps the reader engaged Nautilus A Maritime Journal of Literature History and Culture **Air War in the Pacific: The Journal of General George Kenney, Commander of the Fifth U.S. Air Force** George C. Kenney,2018-09-18 Air War in the Pacific details the development and ultimate supremacy of the US Air Force during World

War 2 Written from the perspective of General George C Kenney the man in charge the book is a candid insider s account of how America turned the tables on the Japanese in the Pacific through a combination of strategy tactics and superior air technology All Hands ,1947 *Battleship Commander* Paul L Stillwell,2021-10-15 This is the first ever biography of Vice Admiral Willis A Lee Jr who served a key role during World War II in the Pacific Recognizing the achievements and legacy of one of the war s top combat admirals has been long overdue until now *Battleship Commander* explores Lee s life from boyhood in Kentucky through his eventual service as commander of the fast battleships from 1942 to 1945 Paul Stillwell draws on more than 150 first person accounts from those who knew and served with Lee from boyhood until the time of his death Said to be down to earth modest forgiving friendly and with a wry sense of humor Lee eschewed the media and to the extent possible left administrative details to others Stillwell relates the sequential building of a successful career illustrating Admiral Lee s focus on operational tactical and strategic concerns During his service in the Navy Department from 1939 to 1942 Lee prepared the U S Navy for war at sea and was involved in inspecting designs for battleships cruisers aircraft carriers and destroyers He sent observers to Britain to report on Royal Navy operations during the war against Germany and made plans to send an action team to mainland China to observe conditions for possible later Allied landings there Putting his focus on the need to equip U S warships with radar and antiaircraft guns Lee was one of the few flag officers of his generation who understood the tactical advantage of radar especially during night battles In 1942 Willis Lee became commander of the first division of fast battleships to operate in the Pacific During that service he commanded Task Force 64 which achieved a tide turning victory in a night battle near Guadalcanal in November 1942 Lee missed two major opportunities for surface actions against the Japanese In June 1944 in the Marianas campaign he declined to engage because his ships were not trained adequately to operate together in surface battles In October 1944 Admiral William Halsey s bungled decisions denied Lee s ships an opportunity for combat Continuing his career of service near the end of the war Lee in the summer of 1945 directed anti kamikaze research efforts in Casco Bay Maine While Lee s wartime successes and failures make for compelling reading what is here in this biography is a balanced look at the man and officer **Liberty's War** Herman E. Melton,2017-08-15 In the dark days of World War II merchant mariners made heroic contributions to the eventual Allied victory and suffered tremendous casualties in so doing Among these were the engineers who toiled deep in the bowels of the ship and suffered appalling casualties After the war engineering personnel were unlikely to talk about their experiences let alone write them down These modest and self effacing men were more comfortable in a world of turbines and pistons so they seldom brought their stories forward *Liberty s War* sets out to explore the experiences of one such engineer Herman Melton from his time as a cadet at the U S Merchant Marine Academy through his experiences at sea as a third assistant engineer Melton s story is representative of the thousands of Merchant Marine engineers who served on board Liberty ships during the war Like many young Americans he sought to do his part and in 1942 he obtained an appointment to

the newly created U S Merchant Marine Academy at Kings Point New York After graduating from the academy in 1944 he shipped out to the Pacific Theatre surviving the sinking of his Liberty ship the SS Antoine Saugrain and its top secret cargo
