product and more *Secret Scrolls* Robert M. Price,2010-12-27 *Secret Scrolls* is the very first examination of some forty novels in which someone discovers a new gospel Sometimes it turns out to be a hoax will it be debunked before it can work its mischief If it proves genuine will it be brought to light Or will corrupt church officials manage to prevent it The book evaluates what each author has to say about historical Jesus scholarship or New Testament research in general Sometimes the authors have done their homework other times they haven't bothered and they wind up dishing up crazy rewrites of history and outlandish theories These novels deal with abiding issues of faith even without some new discovery As soon as one engages in biblical apologetics one has stepped onto the marshy ground of probabilistic arguments an entirely different epistemology that automatically replaces simple faith And so one comes to hold one's religious convictions more tentatively having become genuinely vulnerable to new evidence One may not remain a believer for long On the other hand one invites fanaticism if one's faith is dangerously predicated on the assurance that no new discovery will send one back to the drawing board *Secret Scrolls* assesses what each author imagines it would take to derail and debunk Christianity How mighty a blow must be dealt before the religion would fall Dan Brown's notion that a married Jesus would debunk the Nicene Creed is laughable As Wilbert Francis Howard once argued in his brief and fascinating history of New Testament research there is a genuine romance of New Testament scholarship and many of us are delighted to have the adventure continue in the speculative imaginations of capable novelists These books can both entertain and educate and so will *Secret Scrolls* **The Way of Strategy** William A. This volume contains thirty-eight studies devoted to the Septuagint, written by an internationally recognized expert on that version and its relation to the Hebrew Bible. The author's experience on these topics is based on more than three decades of work within the Hebrew University Bible Project, the Computer Assisted Tools for Septuagint Studies project, and annual courses on the Septuagint given at the Hebrew University. These studies, originally published between 1971 and 1997, deal with the following subjects: general topics, lexicography, translation technique, and exegesis; the Septuagint and textual and literary criticism of the Hebrew Bible; and the revisions of the Septuagint. All the studies included in this monograph have been revised, expanded, or shortened in some cases considerably, and they integrate studies which appeared subsequent to the original monographs.

Scribal Practices and Approaches Reflected in the Texts Found in the Judean Desert, Revised Second Edition Emanuel Tov, 2025-10-03. This monograph revises the first edition of this book (2004), which is long overdue. Many segments needed revision due in large part to the veritable flood of studies published in the wake of the first edition. In other cases, the author changed his mind in his continued study of the scrolls, improved by the new images of the Leon Levy Dead Sea Scrolls Digital Library. Hyperlinks to this library are now added to most references to the scrolls. This book covers many aspects of a handbook for those who study the scrolls, material culture, and edit scroll fragments. **Textual Criticism of the Hebrew Bible, Qumran, Septuagint** Emanuel Tov, 2015-02-17. Thirty-three revised and updated essays on the textual criticism of the
