inspections of consuls and how they managed their consulates were introduced and the separate Consular Service and Diplomatic Service were merged to form the Foreign Service The first appointments to Britain were made in 1790 with James Maury becoming the first operational consul in the country at Liverpool At one point there was a network of up to ninety US consular offices throughout the UK stretching from the Orkney Islands to the Channel Islands Nowadays there is only the consular section in the embassy and the consulates general in Edinburgh and Belfast The Papers of James Madison: 1 November 1803-31 March 1804 James Madison,1986 *I Have Avenged America* Julia Gaffield,2025-06-17 A moving and humane portrait of the abolitionist revolutionary Jean Jacques Dessalines who led Haiti s fight for independence from French colonial rule My name has become a horror to all those who want slavery declared Jean Jacques Dessalines as he announced the independence of Haiti the most radical nation state during the Age of Revolution and the first country ever to permanently outlaw slavery Enslaved for the first thirty years of his life Dessalines c 1758 1806 joined the revolution that abolished slavery within the French colony Then he became a general in the colonial army of the new French Republic When it was discovered that France once again supported slavery Dessalines declared war on his former allies Fighting under the slogan Liberty or Death his army forced the French to evacuate in late 1803 At the start of the new year Dessalines declared independence from France and became the leader of a free Haiti A hero to Haitians for centuries Dessalines is portrayed abroad as barbarous and violent Yet this caricature derives not from facts as Julia Gaffield demonstrates with extensive new research but from the fears of contemporary enslavers Showcasing the man behind the myths Gaffield reveals Dessalines s deep suffering warm friendships and unwavering commitment to destroying slavery racism and colonialism and his bold insistence on his people s right to liberty and equality **Millions for Defense** Frederick Leiner,2014-07-15 The title of this book comes from a toast popular with Americans in the late 1790s millions for defense not a cent for tribute Americans were incensed by demands for bribes from French diplomats and by France s galling seizures of U S merchant ships and as they teetered toward open war were disturbed by their country s lack of warships Provoked to action private U S citizens decided to help build a navy Merchants from Newburyport Massachusetts took the lead by opening a subscription to fund a 20 gun warship to be built in ninety days and they persuaded Congress to pass a statute that gave them government stock bearing 6 percent interest in exchange for their money Their example set off a chain reaction down the coast More than a thousand subscribers in the port towns pledged money and began to build nine warships with little government oversight Among the subscription ships were the Philadelphia later lost on the rocks at Tripoli Essex the first American warship to round the Cape of Good Hope and Boston which captured the French corvette Le Berceau This book is the first to explore in depth the subject of subscribing for warships Frederick Leiner explains how the idea materialized who the subscribers and shipbuilders were how the ships were built and what contributions these ships made to the Quasi War against France Along the way he also offers significant insights into the politics of what is arguably the most critical period in American history **Historical**

Nichols, 2022-08-16 Debate over the meaning and purpose of the grand experiment called the United States has existed since its inception Alexander

Hamilton and James Madison worked closely together to achieve the ratification of the Constitution which both considered essential for the survival of the United States. However, within just a few years of the Constitution's ratification, they became bitter political enemies as the pair disagreed about what the United States should be like under the new Constitution, specifically how to interpret the Constitution. They both worked to create and support *Defining the Republic: Early Conflicts over the Constitution*, documents through presentation of their own words that these two essential early Americans simply had different expectations all along. Expectations that went unexamined during the frenetic times in which the Constitution was written, debated, and ratified. It is to their differences that Americans today can look in order to better understand the history of the United States as well as current debates over politics and life in general in the country. Hamilton and Madison helped to create **Books on Early American History and Culture, 1986-1990** Raymond D. Irwin, 2001-03-30. A companion volume to *Books on Early American History and Culture* 1991-1995, this work covers scholarship on early American history including North America and the Caribbean from 1492 to 1815. This annotated bibliography surveys over 1,000 monographs, essay collections, exhibition catalogs, and reference works published between 1986 and 1990. In thirty-two thematic sections, the book covers such topics as colonization, rural life, and agriculture and religion. This useful guide organizes the recent explosion of scholarly literature on pre-colonial, colonial, and early Republican America. **Murder at Montpelier** Douglas Brent Chambers, 2005 **The Papers of James Madison: 16 May-31 October 1803** James Madison, 1986 **The Papers of Thomas Jefferson, Volume 37** Thomas Jefferson, 2018-06-05. This volume opens on 4 March 1802, the first anniversary of Thomas Jefferson's inauguration as the nation's third president, and closes on 30 June. In March, a delegation of Seneca Indians comes to Washington to discuss their tribe's concerns, and Jefferson names a commissioner to handle a land sale by Oneida Indians to the state of New York. In April, the Senate ratifies a treaty with the Choctaw nation for a wagon road across their lands. Jefferson worries about an increasingly dictatorial France taking back control of New Orleans, prompting him to the intemperate remark that he would marry America's fortunes to the British fleet. Charles Willson Peale sends him sketches of the skull of a prehistoric bison found in Kentucky. During the closing and very frustrating weeks of Congress, he distracts himself with a cipher devised by Robert Patterson. He prepares lists of books to be purchased for the recently established Library of Congress and also obtains many titles for his own collection. Even while he is in Washington, occupied with matters of state, Jefferson has been keeping close watch on the renovations at Monticello. In May, he has Antonio Giannini plant several varieties of grapes in the southwest vineyard, and he orders groceries, molasses, dry Lisbon wine, and cider to be shipped to Monticello in time for his arrival. He looks forward with impatience to the moment he can embrace his family once more.
