French Novels and the Victorians Juliette Atkinson, 2017-07-27 Despite the warnings of critics and moral leaders French novels were

widespread in Victorian culture How did Victorian readers gain access to them How were the novels supposed immorality debated and challenged And how far did the influx of French novels raise questions and anxieties about the literary and commercial value of the English novel Reality Simulation in Science Fiction Literature, Film and Television Heather

Duerre Humann,2019-08-27 In recent decades science fiction in both print and visual media has produced an outpouring of story lines that feature forms of simulated reality These depictions appear with such frequency that fictional portrayals of simulated worlds have become a popular sci fi trope one that prompts timeless questions about the nature of reality while also tapping into contemporary debates about emerging technologies In combination with tech driven tensions this study shows that our collective sense of living in politically uncertain times also propels the popularity of these story lines Because of the kinds of questions they raise and the cultural anxieties they provoke these fictional representations provide a window into contemporary culture and demonstrate how we are reassessing our own reality **The Plagiarism Allegation in**

English Literature from Butler to Sterne R. Terry,2010-09-22 Contributing to the growth in plagiarism studies this timely new book highlights the impact of the allegation of plagiarism on the working lives of some of the major writers of the period and considers plagiarism in relation to the emergence of literary copyright and the aesthetic of originality **Everything**

and Less Mark McGurl,2021-10-19 National Book Critics Circle Award Finalist Best Book of Fall Esquire and a Most Anticipated Book of 2021 Lit Hub What Has Happened to Fiction in the Age of Platform Capitalism Since it was first launched in 1994 Amazon has changed the world of literature The Everything Store has not just transformed how we buy books it has affected what we buy and even what we read In Everything and Less acclaimed critic Mark McGurl explores this new world where writing is no longer categorized as high or lowbrow literature or popular fiction Charting a course spanning from Henry James to E L James McGurl shows that contemporary writing has less to do with writing per se than with the manner of its distribution This consumerist logic if you like this you might also like has reorganized the fiction universe so that literary prize winners sit alongside fantasy romance fan fiction and the infinite list of hybrid genres and self published works This is an innovation to be cautiously celebrated Amazon s platform is not just a retail juggernaut but an aesthetic experiment driven by an unseen algorithm rivaling in the depths of its effects any major cultural shift in history Here all fiction is genre fiction and the niches range from the categories of crime and science fiction to the more refined interests of Adult Baby Diaper Lover erotica Everything and Less is a hilarious and insightful map of both the commanding heights and sordid depths of fiction past and present that opens up an arresting conversation about why it is we read and write fiction in the first place Novel Subjects Leah A. Milne,2021-07-01 How does contemporary literature contend with the power and responsibility of authorship particularly when considering marginalized groups How have the works of multiethnic authors challenged the notion that writing and authorship are neutral or universal In Novel Subjects Leah Milne offers a new way to look at multicultural literature by focusing on scenes of writing in contemporary works by authors with marginalized

identities These scenes she argues establish authorship as a form of radical self care a term we owe to Audre Lorde who defines self care as self preservation and an act of political warfare In engaging in this battle the works discussed in this study confront limitations on ethnicity and nationality wrought by the institutionalization of multiculturalism They also focus on identities whose mere presence on the cultural landscape is often perceived as vindictive or willful Analyzing recent texts by Carmen Maria Machado Louise Erdrich Ruth Ozeki Toni Morrison and more Milne connects works across cultures and nationalities in search of reasons for this recent trend of depicting writers as characters in multicultural texts Her exploration uncovers fiction that embrace unacceptable or marginalized modes of storytelling such as plagiarism historical revisions jokes and lies as well as inauthentic invisible and unexceptional subjects These works ultimately reveal a shared goal of expanding the borders of belonging in ethnic and cultural groups and thus add to the ever evolving conversations surrounding both multicultural literature and self care

Novel Arguments Richard Walsh, 1995-09-29 Novel arguments argues that innovative fiction by which is meant writing that has been variously labeled postmodern metafictional experimental extends our ways of thinking about the world and rejects the critical consensus that under the rubrics of postmodernism and metafiction homogenizes this fiction as autonomous and self absorbed Play self consciousness and immanence supposed symptoms of innovative fiction's autonomy are here reconsidered as integral to its means of engagement The book advances a concept of the argument of fiction as a construct wedding structure and content into a highly evolved and expressive experimental form Close readings of five important innovative novels by Donald Barthelme Ishmael Reed Robert Coover Walter Abish and Kathy Acker show how they articulate matters of substance social engagement and ideological currency by virtue of the act of innovation Walsh deftly argues for a new understanding of fictional cognition at the theoretical level and in an act of great critical creativity discards altogether the flattening totalities of received postmodern formulations
