The World Ecotourism Summit Final Report:

The World Ecotourism Summit ,2002 The World Ecotourism Summit was held in Canada in May 2002 the principal event to mark the year 2002 as the International Year of Ecotourism Its objective was to bring together governments international agencies NGOs tourism enterprises representatives of local and indigenous communities academic institutions and individuals with an interest in ecotourism in order to share experiences and identify some agreed principles and priorities for the future development and management of ecotourism This report reviews key issues debated and conclusions reached at the Summit and its preparatory process as well including the text of the Quebec Declaration on Ecotourism

Ecotourism, NGOs and Development Jim Butcher,2007-03-12 This topical book examines the advocacy of tourism as sustainable development in a range of NGOs and within the general literature It offers a timely critique of key assumptions underlying ecotourism s status as sustainable development Final Report ,2002 This report contains the summaries of the debates held and conclusions reached at the World Ecotourism Summit and its preparatory process as well as the Quebec Declaration on Ecotourism *Quality Assurance and Certification in Ecotourism* Rosemary Black,Alice Crabtree,2007 This book explores solutions to the problems of inconsistency and even exploitation of the term ecotourism through examples case studies and a discussion of quality control and certification The first part of the book chapters 2 8 moves the reader through the spectrum of quality assurance tools from what are perceived to be the least rigorous and effective awards of excellence and codes of conduct to more formal credible and effective methods certification and accreditation with a brief foray into using indicators to measure and monitor effectiveness The second part chapters 9 23 looks at a range of ecotourism stakeholders perspectives with an emphasis in one way or another on various industry certification programmes A concluding chapter explores the challenges and issues for quality in ecotourism The book has a glossary and a subject index

Proceedings of the XIII International Symposium SymOrg 2012: Innovative Management and Business Performance ,2012-06-03 *International Handbook on Ecotourism* Roy Ballantyne,Jan Packer,2013-01-01 Roy and Jan have assembled a timely snapshot of our current understanding of ecotourism both as a concept worthy of scientific inquiry and as an increasingly significant segment of global commerce and industry A terrific piece of work Sam Ham University of Idaho US In the 30 or so year since it became established in the tourism literature and in tourism practice ecotourism has attracted as many proponents as opponents This Handbook now brings together some of the leading scholars worldwide in this field to explore the current position of this form of tourism In doing so it offers serious critiques it explores meanings and paradoxes it offers best practices and it looks to the future It is the Handbook for one of tourism s fastest growing and controversial sectors David Airey University of Surrey UK This is a most welcome and needed book With a very strong editorial team and contributing authors the Handbook covers all the key issues of ecotourism It cuts through the confusion surrounding the much misunderstood concept of ecotourism clearly dealing with definitions concepts and research issues The Handbook is

particularly welcome for its focus on the visitor experience a strength of the editors and for clearly linking the theory of ecotourism with practice in the field Christopher Cooper Oxford Brookes University UK This Handbook brings together contributions from over forty international experts in the field of ecotourism It provides a critical review and discussion of current issues and concepts it challenges readers to consider the boundaries of what ecotourism is and could be The Handbook provides practical information regarding the business of ecotourism insights into ecotourist behaviour and visitor experiences and reflections on the practice of ecotourism in a range of different contexts The Handbook is designed to be a valuable reference book for tourism scholars and researchers

Ecotourism and Conservation in the Americas Amanda Stronza, William H. Durham, 2008 Using several case studies regional overviews and thematic analyses this book evaluates the pros and cons of ecotourism for communities and ecosystems Focusing on the Americas it draws perspectives from private tour operators non governmental conservation and development organizations local and indigenous communities and tourism researchers

Rise Of The Global South, The: Philosophical, Geopolitical And Economic Trends Of The 21st Century Justin Dargin, 2013-05-27 This book provides a broad and in depth introduction to the geopolitical economic and trade changes wrought with the increasing influence of the countries of the Global South in international affairs The global role of the developing countries came to the forefront in 1974 when the United Nations General Assembly promulgated The New International Economic Order Since then the countries of the Global South particularly China India Brazil Saudi Arabia South Africa and Qatar made an indelible impact upon the world s economic architecture However their true influence became starkly illustrated during the onset of the 2000s when several seismic events occurred The September Eleventh terrorist attacks with the resultant debilitating wars in Iraq and Afghanistan extreme world commodity price increases and the global financial crisis of 2007 2008 all served to wrench the epicenter of global influence increasingly southward While the developed countries of the Global North became mired in economic stagnation with problems associated with the global financial crisis their collective influence waned Since then the world has been attempting to accommodate somewhat unevenly the rising geopolitical and economic clout of the Global South This book presents a collection of scholarly articles that taken together functions as a primer on the workings of the immense global changes at the beginning of the twenty first century

Tourism and the Millennium Development Goals Jarkko Saarinen, Christian M. Rogerson, Haretsebe Manwa, 2013-10-31 In 2000 United Nations adopted the Millennium Development Goals UN MDGs committing the member nations to a new global partnership to reduce extreme poverty and setting out a series of specific targets with a deadline of 2015 Related to the UN MDGs tourism is increasingly seen as a promising tool for poverty reduction ensuring environmental sustainability and developing a global partnership for development for example Thus the industry has become an important policy tool for community and regional development in many developing countries and the expectations for tourism and its social and economic outcomes have evolved to a high level However there are still many

challenges to overcome in the relationship between tourism industry development and poverty reduction This book aims to discuss the promises challenges and outcomes of tourism in development with a specific aim of drawing together research related to tourism and UN MDGs The papers discuss what lessons can be learnt and conclusions drawn from the utilisation of tourism for development and poverty reduction What emerges from this collection is a set of interesting results and notions which both support and challenge the connections between tourism and development and the new role of tourism in global development This book is an extended version of a special issue published in Current Issues in Tourism

Ecotourism in Sub-Saharan Africa Kenneth Backman, Ian E. Munanura, 2017-07-14 Since its first mention in the academic literature ecotourism has been endorsed by NGOs and governments as the most environmentally sound and locally beneficial method of tourist development Over the last thirty years sub Saharan Africa has adopted ecotourism as the primary focus for tourism development research into this has demonstrated mixed results In this publication we seek to explore the actual outcomes for African countries that have developed their tourism policy around the principals and values of ecotourism The sheer scope and magnitude of the task means that a complete evaluation of ecotourism in Africa is impossible Instead included here are spot assessments of various aspects of ecotourism related to conservation policy development environment governance community and indigenous peoples in southern Africa The studies cover a wide array of countries including Botswana Kenya Tanzania Uganda Ghana Zimbabwe and South Africa Though this is only the beginning of a needed long term evaluation of the positives and negatives of ecotourism it provides a starting point from which to move forward This book was originally published as a special issue of the Journal of Ecotourism

The Rise of the Global South Justin Dargin, 2013 This book provides a broad and in depth introduction to the geopolitical economic and trade changes wrought with the increasing influence of the countries of the Global South in international affairs Since the introduction of the United Nations General Assembly's New International Economic Order the countries of the Global South particularly China India Brazil Saudi Arabia South Africa and Qatar made an indelible impact upon the world's economic architecture

Routledge Handbook of Ecotourism David A. Fennell, 2021-09-21 This handbook presents a timely broad ranging and provocative overview of the essential nature of ecotourism The chapters will both advance the existing central themes of ecotourism and provide challenging and divergent observations that will thrust ecotourism into new areas of research policy and practice The volume is arranged around four key themes sustainability ethics and identity change conflict and consumption and environment and learning with a total of 28 chapters The first section focuses on sustainability as a core ecotourism criterion with a primary focus on some of the macro sustainability issues that have an impact on ecotourism Foremost among these topics is the linkage to the UN's Sustainable Development Goals which have relevance to ecotourism as one of the greenest or most responsible forms of tourism The chapters in the second section provide a range of different topics that pull ecotourism research into new directions including a chapter on enriching indigenous ecotourism through culturally sensitive

universalism The third section includes chapters on topics ranging from persons with disabilities as a neglected body of research in ecotourism to ecotourism as a form of luxury consumption The final section emphasises the link between ecotourism and learning about the natural world including a deeply theoretical chapter on rewilding Europe With contributions from authors around the world this handbook gives a global platform to local voices in both developed and emerging country contexts The multidisciplinary and international Routledge Handbook of Ecotourism will be of great interest to researchers students and practitioners working in tourism and sustainability International Wildlife Management John L. Koprowski, Paul R. Krausman, 2019-09-10 A call for wildlife conservationists to transcend the boundaries of locality share best practices and unite with a common voice to influence global policy Habitat loss disease management predator human conflict illegal trade these are among the many conservation challenges faced by wildlife experts around the world But how wildlife professionals approach these issues has historically been geographically fragmented By providing a broad perspective on issues faced by wildlife on an international scale the authors of International Wildlife Management make vital connections drawing attention to underlying causes and strategies for mitigation that may look surprisingly similar from Montana to Zimbabwe Bringing together wildlife professionals from around the globe to discuss shared challenges International Wildlife Management examines widespread patterns of wildlife loss covers key conservation strategies including species reintroduction community engagement and wildlife commerce explores the urgent concerns of climate change habitat loss and fragmentation invasive species and poaching reviews major organizations involved in wildlife management at an international level highlighting examples of cooperation among groups and nations in effective wildlife management efforts features stories of success and struggle from authors across 17 countries on 6 continents This timely and thorough overview thinks big by assessing threats to wildlife on a global scale Wild creatures don't recognize artificial geographic borders This useful compendium demonstrates that researchers and scientists should follow their lead

Bibliographie Mensuelle United Nations Library (Geneva, Switzerland), 2003-07 **Ecotourism as a Tool for Sustainable Rural Community Development and Natural Resources Management in the Tonle Sap Biosphere Reserve** Neth Baromey, 2008 **Ecotourism and Cultural Production** V. Davidov, 2013-11-19 Ecotourism is a unique facet of globalization promising the possibility of reconciling the juggernaut of development with ecological cultural conservation Davidov offers a comparative analysis of the issue using a case study of indigenous Kichwa people of Ecuador and their interactions with globalization and transnational systems Handbook of Research on Environmental Education Strategies for Addressing Climate Change and Sustainability Karmaoui, Ahmed, Ben Salem, Abdelkrim, Anees, Mohd Talha, 2021-02-19 Due to the increasing trend of international interest in education for climate change and the environment there has been an increase of research in the area There is a current question on what the best methods and tools are for integrating climate change education and sustainability into school programs These educational methods can create the

development of effective responses attitudes and behaviors to adapt to climate change Empirical and conceptual models must be explored to help those interested in learning and teaching environmental education and climate change and adding it to modern school curriculum The Handbook of Research on Environmental Education Strategies for Addressing Climate Change and Sustainability produces innovative approaches methods and ideas in education for climate change environment strategies and sustainability along with the development of curriculum and strategies for sustainable development goals The chapters encompass multiple disciplines such as geology geography remote sensing geographic information systems environmental science and environmental engineering This book is ideal for in service and preservice teachers administrators teacher educators practitioners stakeholders researchers academicians and students interested in educational strategies and curriculum for climate change and sustainability Critical Issues in Ecotourism James Higham,2007-06-07 Critical Issues in Ecotourism seeks to shake the current stagnant literature on the subject of ecotourism out of a state of complacency Drawing upon emerging insights provided by pre eminent scholars in the field it identifies and comprehensively addresses current critical issues Accessible to both academic and non academic audiences it provides the reader with the following A critical direct and hard hitting analysis of the real issues that apply to the field of ecotourism Contributions from prominent international scholars that address issues of relevance to a diverse and international readership Dissemination of the scholarly works of social and natural science addressing this field A collection of works by outstanding international scholars in a comprehensively planned and integrated book Incorporating rigorous scientific insights in specialised fields of research for example identifying and protecting critical habitats where tourists engage with endangered species Critical Issues in Ecotourism is an important and ground breaking contribution set to expose the increasingly mythologized field of ecotourism **Tourism Development** Peter M. Burns,Marina Novelli,2008 Making an empirical contribution to the understanding of tourism as a development mechanism in poor regions and countries this book looks at the successes and paradoxes of tourism in this role and considers why tourism as a catalyst for economic development can be a controversial device It offers a perspective on theoretical frameworks and uses international case studies covering both social and economic aspects The book is relevant to both tourism practitioners and academics It consists of 16 chapters in addition to an introduction and has a subject index Documentation Update: January to September 2004 ,
