The Wpa Guide To 1930s New Jersey American Guide:

The WPA Guide to New Jersey Federal Writers' Project, 2013-10-31 During the 1930s in the United States the Works Progress Administration developed the Federal Writers Project to support writers and artists while making a national effort to document the country's shared history and culture The American Guide series consists of individual guides to each of the states Little known authors many of whom would later become celebrated literary figures were commissioned to write these important books John Steinbeck Saul Bellow Zora Neale Hurston and Ralph Ellison are among the more than 6 000 writers editors historians and researchers who documented this celebration of local histories Photographs drawings driving tours detailed descriptions of towns and rich cultural details exhibit each state's unique flavor The Granite State has a rich history and varied landscape beautifully presented in the WPA Guide to New Hampshire The driving tours highlight the White Mountains Lake Winnepesaukee and the coast near Portsmouth This New Hampshire guide also has traditional photographs of churches landscapes and colonial houses which give readers a feel for life in New England in the early 20th century

WPA Guide to 1930s New Jersey U.S. WORK PROJECTS ADMINISTRATION. WRITERS' PROGRAM., 1986 The WPA Guide to 1930's New Jersey, 1986 War on Crime revises the history of the New Deal transformation and suggests a new model for political history one which recognizes that cultural phenomena and the political realm produce between them an idea of the state The war on crime was fought with guns and pens movies and legislation radio and government hearings All of these methods illuminate this period of state transformation and perceptions of that emergent state in the years of the first New Deal The creation of G men and gangsters as cultural heroes in this period not only explores the Depression era obsession with crime and celebrity but it also lends insight on how citizens understood a nation undergoing large political and social changes Anxieties about crime today have become a familiar route for the creation of new government agencies and the extension of state authority It is important to remember the original war on crime in the 1930s and the opportunities it afforded to New Dealers and established bureaucrats like J Edgar Hoover as scholars grapple with the ways states assert influence over populations local authority and party politics while they pursue goals such as reducing popular violence and protecting private property *American Guides* Wendy Griswold, 2016-08-26 In the midst of the Great Depression Americans were nearly universally literate and they were hungry for the written word Magazines novels and newspapers littered the floors of parlors and tenements alike With an eye to this market and as a response to devastating unemployment Roosevelt's Works Progress Administration created the Federal Writers Project The Project's mission was simple jobs But as Wendy Griswold shows in the lively and persuasive *American Guides* the Project had a profound and unintended cultural impact that went far beyond the writers' paychecks Griswold's subject here is the Project's *American Guides* an impressively produced series that set out not only to direct travelers on which routes to take and what to see throughout the country but also to celebrate the distinctive characteristics of each individual state Griswold finds that the series unintentionally

diversified American literary culture's cast of characters promoting women minority and rural writers while it also institutionalized the innovative idea that American culture comes in state shaped boxes Griswold's story alters our customary ideas about cultural change as a gradual process revealing how diversity is often the result of politically strategic decisions and bureaucratic logic as well as of the conflicts between snobbish metropolitan intellectuals and stubborn locals American Guides reveals the significance of cultural federalism and the indelible impact that the Federal Writers Project continues to have on the American literary landscape

Driving While Black: African American Travel and the Road to Civil Rights Gretchen Sorin, 2020-02-11 Bloomberg Best Nonfiction Books of 2020 A tour de force The basis of a major PBS documentary by Ric Burns this excellent history The New Yorker reveals how the automobile fundamentally changed African American life Driving While Black demonstrates that the car the ultimate symbol of independence and possibility has always held particular importance for African Americans allowing black families to evade the dangers presented by an entrenched racist society and to enjoy in some measure the freedom of the open road Melding new archival research with her family's story Gretchen Sorin recovers a lost history demonstrating how when combined with

black travel guides including the famous Green Book the automobile encouraged a new way of resisting oppression *Guide to America; a Treasury of Information about Its States, Cities, Parks, and Historical Points of Interest*, 1947 *The 1929 Bunion Derby* Charles B. Kastner, 2014-03-31 On March 31 1929 seventy seven men began an epic 3 554 mile footrace across America that pushed their bodies to the breaking point Nicknamed the Bunion Derby by the press this was the second and last of two trans America footraces held in the late 1920s The men averaged forty six gut busting miles a day during seventy eight days of nonstop racing that took them from New York City to Los Angeles Among this group two brilliant runners Johnny Salo of Passaic New Jersey and Pete Gavuzzi of England emerged to battle for the 25 000 first prize along the mostly unpaved roads of 1929 America with each man pushing the other to go faster as the lead switched back and forth between them To pay the prize money race director Charley Pyle cobbled together a traveling vaudeville company complete with dancing debutantes an all girl band wearing pilot outfits and blackface comedians all housed under the massive show tent that Pyle hoped would pack in audiences Kastner s engrossing account often told from the perspective of the participants evokes the remarkable physical challenge the runners experienced and clearly bolsters the argument that the last Bunion Derby was the greatest long distance footrace of all time [Bunion Derby: The Last Great Race Across America](#), 1900

Crossing Broadway Robert W. Snyder, 2014-12-18 Robert W Snyder s *Crossing Broadway* tells how disparate groups overcame their mutual suspicions to rehabilitate housing build new schools restore parks and work with the police to bring safety to streets racked by crime and fear It shows how a neighborhood once nicknamed Frankfurt on the Hudson for its large population of German Jews became Quisqueya Heights the home of the nation s largest Dominican community The story of Washington Heights illuminates New York City s long passage from the Great Depression and World War II through the urban crisis to the globalization and economic inequality of the twenty first century Washington Heights residents played crucial roles in saving their neighborhood but its future as a home for working class and middle class people is by no means assured The growing gap between rich and poor in contemporary New York puts new pressure on the Heights as more affluent newcomers move into buildings that once sustained generations of wage earners and the owners of small businesses *Crossing Broadway* is based on historical research reporting and oral histories Its narrative is powered by the stories of real people whose lives illuminate what was won and lost in northern Manhattan s journey from the past to the present A tribute to a great American neighborhood this book shows how residents learned to cross Broadway over the decades a boundary that has separated black and white Jews and Irish Dominican born and American born and make common cause in pursuit of one of the most precious rights the right to make a home and build a better life in New York City *Modernism for the Masses* Jody Patterson, 2020-11-17 A mural renaissance swept the United States in the 1930s propelled by the New Deal Federal Art Project and the popularity of Mexican muralism Perhaps nowhere more than in New York City murals became a

crucial site for the development of abstract painting Artists such as Stuart Davis Arshile Gorky Willem de Kooning and Lee Krasner created ambitious works for the Williamsburg Housing Project Floyd Bennett Field Airport and the 1939 World s Fair Modernism for the Masses examines the public murals realized and unrealized of these and other abstract painters and the aesthetic controversy political influence and ideological warfare that surrounded them Jody Patterson transforms standard narratives of modernism by reasserting the significance of the 1930s and explores the reasons for the omission of the mural s history from chronicles of American art Beautifully illustrated with the artists murals and little known archival photographs this book recovers the radical idea that modernist art was a vital part of everyday life **Resorts & Recreation** ,1995

Boardwalk of Dreams Bryant Simon,2004-07-29 Boardwalk of Dreams traces the transformation of public space in Atlantic City during the 20th century addressing the themes of tourism racial identity class mobility urban renewal and the various roles of vacationers residents and business figures in shaping this urban landscape **Superstorm 1950** David A. Call,2023-01-15 In November 1950 the greatest storm of the twentieth century crippled the eastern United States affecting more than 100 million people Sometimes referred to as the Great Appalachian or Thanksgiving storm this was no ordinary weather event Its giant size and multiple record setting hazards including snow ice flooding wind and cold temperatures were cataclysmic This superstorm was the most costly weather related disaster when it occurred Only two other storms that affected the US mainland since then both hurricanes have exceeded its death toll The weather records it established remain benchmarks of extreme weather to this day Superstorm 1950 examines the immediate impact of the storm covering not just meteorology but also its wide ranging social impacts which varied by race class and gender The repercussions continue to affect us today in obvious areas like weather forecasting and in surprising areas like Ohio State football and government tax policy Because superstorms are not as familiar as hurricanes or tornadoes they can be overlooked in terms of weather related disasters This is a mistake Vulnerability to weather disasters is increasing and a similar storm today would likely be the most expensive weather disaster ever in the United States Superstorm 1950 serves not only as a riveting account of one of the greatest disasters in US history but also provides a premonition of what may come if global climate change is not confronted *Fieldworks* Lytle Shaw,2013-01-22 Fieldworks offers a historical account of the social rhetorical and material attempts to ground art and poetry in the physicality of a site Arguing that place oriented inquiries allowed poets and artists to develop new experimental models of historiography and ethnography Lytle Shaw draws out the shifting terms of this practice from World War II to the present through a series of illuminating case studies Beginning with the alternate national genealogies unearthed by William Carlos Williams in Paterson and Charles Olson in Gloucester Shaw demonstrates how subsequent poets sought to ground such inquiries in concrete social formations to in effect live the poetics of place Gary Snyder in his back to the land familial compound Kitkitdizze Amiri Baraka in a black nationalist community in Newark Robert Creeley and the poets of Bolinas California in the capacious now of their poet run town Turning to the work of Robert

Smithson who called one of his essays an appendix to Paterson and who in turn has exerted a major influence on poets since the 1970s Shaw then traces the emergence of site specific art in relation both to the poetics of place and to the larger linguistic turn in the humanities considering poets including Clark Coolidge Bernadette Mayer and Lisa Robertson By putting the poetics of place into dialog with site specificity in art Shaw demonstrates how poets and artists became experimental explicators not just of concrete locations and their histories but of the discourses used to interpret sites more broadly It is this dual sense of fieldwork that organizes Shaw s groundbreaking history of site specific poetry
