The Death Penalty Roger Hood, Carolyn Hoyle, 2015-01-08 The fifth edition of this highly praised study charts and explains the progress that

continues to be made towards the goal of worldwide abolition of the death penalty. The majority of nations have now abolished the death penalty and the number of executions has dropped in almost all countries where abolition has not yet taken place. Emphasising the impact of international human rights principles and evidence of abuse, the authors examine how this has fuelled challenges to the death penalty and they analyse and appraise the likely obstacles, political and cultural, to further abolition. They discuss the cruel realities of the death penalty and the failure of international standards always to ensure fair trials and to avoid arbitrariness, discrimination and conviction of the innocent, all violations of the right to life. They provide further evidence of the lack of a general deterrent effect, shed new light on the influence and limits of public opinion and argue that substituting for the death penalty life imprisonment without parole raises many similar human rights concerns. This edition provides a strong intellectual and evidential basis for regarding capital punishment as undeniably cruel, inhuman and degrading. Widely relied upon and fully updated to reflect the current state of affairs worldwide, this is an invaluable resource for all those who study the death penalty and work towards its removal as an international goal.

The Elgar Companion to Capital Punishment and Society Benjamin Fleury-Steiner, Austin D. Sarat, 2024-09-06. A global range of philosophers, social scientists, legal experts, political theorists and historians critically analyse the trajectory of the death penalty in both retentionist and abolitionist countries, underscoring how state killing remains a crucial issue worldwide.

Killing Justice in the Lone Star State Michael O'Brien, 2021-06-15. Killing Justice in the Lone Star State is a reality check on active Death Row cases and some post-execution ones. The book offers a fresh perspective for campaigners and reformers, which ranges across theory, policy and practice. It also explains the much criticised Texas law of parties. A must read, an excellent new book by Mike O'Brien. A powerful critique, a critical comparative analysis of USA/UK human rights standards. Packed with cases, a compelling case for abolition. Dr Michael Naughton, Bristol University. Empowering the Innocent Project. Many organizations are engaged in a race to prevent the execution of death sentenced prisoners in Texas and elsewhere in the USA. Some men and women on Death Row claim to be completely innocent, as described in this book. Michael O'Brien, who was himself wrongly convicted of murder, dissects cases with the eye of someone who has spent years watching how miscarriages of justice happen and why. He explains how practitioners and others are in denial and tunnel vision helps to sustain politicians' livelihoods and profits that depend on a conveyor belt from the courts to the execution chamber. He describes a killing process aided by bias, discrimination, prejudice, unfair trials, supposed expert evidence and closed minds. This is just one hallmark of a country obsessed with guns, violence and the ultimate penalty. Texas is the most punitive place within one of the harshest penal systems in the world. But no legal system should take away human lives, especially one tarnished by defects of the kind the author sets out in this book.

Bessette,2017-03-15 The Catholic Church has in recent decades been associated with opposition to the death penalty It was not always so This timely work recovers and calls for a revival of the Catholic tradition of support for capital punishment Drawing upon a wealth of philosophical scriptural theological and social scientific arguments the authors show that it is the perennial and irreformable teaching of the Church that capital punishment can in principle be legitimate not only to protect society from immediate physical danger but also for purposes such as retributive justice and deterrence They show that the recent statements of churchmen in opposition to the death penalty are merely prudential judgments with which faithful Catholics are not obliged to agree They also show that the prudential grounds for opposition to capital punishment offered by Catholics and others in recent years are without force The extreme statements made by some Catholics in opposition to the death penalty do grave harm to the Church by falsely suggesting a rupture in her traditional teaching thereby inadvertently casting doubt on the reliability of the Magisterium And they do grave harm to society by removing a key component of any system of criminal justice which can protect the lives of the innocent inculcate a horror of murder and affirm the dignity of human beings as free and rational creatures who must be held responsible for their actions **By Man Shall His Blood Be Shed** is a challenge to contemporary Catholics to move beyond simple minded sloganeering to a serious engagement with scripture tradition natural law and the actual social scientific evidence and a faithful exercise of the hermeneutic of continuity called for by Pope Benedict XVI **Until I Could Be Sure** George H. George Ryan declared a moratorium on executions the first such action by any governor in the history of the United States Despite a long history as a death penalty proponent Ryan was emotionally moved after allowing an execution in 1999 He was also profoundly disturbed by the state s history 12 men had been executed and 13 had been exonerated since the return of the death penalty in Illinois in 1977 More had been proven innocent than had been executed Three years later in 2003 Ryan pardoned four death row inmates based on their actual innocence and then commuted the death sentences of 167 men and women This was the largest death row commutation in U S history At that time 12 states and the District of Columbia barred the death penalty His actions breathed new life into the movement to abolish the death penalty in the United States Over the next 15 years Illinois and seven other states would abolish the death penalty New Jersey Maryland New Mexico Connecticut Delaware New York and Washington Today the push to reform the criminal justice system has never been stronger in America a nation that incarcerates more men and women than any other country in the world and also wrongfully convicts

hundreds of men and women Although the number of executions carried out every year continues to drop in the U S the death penalty still exists in 31 states Moreover in some non death penalty states factions seek to reinstate it Until I Could Be Sure How I Stopped the Death Penalty in Illinois is in his own words the story of George Ryan s journey from death penalty proponent to death penalty opponent His story continues to resonate today He defied the political winds and endured the fury and agony of the families of the victims and the condemned as well as politicians prosecutors and law enforcement It is a story of courage and faith It is a timely reminder of the heroic acts of a Republican Governor who was moved by conscience his faith and a disturbing factual record of death row exonerations **Courting Death** Carol S.
