History of Hair in the Age of Empire Sarah Heaton, 2020-12-10 Hair or lack of it is one the most significant identifiers of individuals in any society In Antiquity the power of hair to send a series of social messages was no different This volume covers nearly a thousand years of history from Archaic Greece to the end of the Roman Empire concentrating on what is now Europe North Africa and the Near East Among the key issues identified by its authors is the recognition that in any given society male and female hair tend to be opposites when male hair is generally short women s is long that hair is a marker of age and stage of life children and young people have longer less confined hairstyles adult hair is far more controlled hair can be used to identify the other in terms of race and ethnicity but also those who stand outside social norms such as witches and mad women The chapters in A Cultural History of Hair in Antiquity cover the following topics religion and ritualized belief self and society fashion and adornment production and practice health and hygiene gender and sexuality race and ethnicity class and social status and cultural representations Motherhood, Respectability and Baby-Farming in Victorian and

Edwardian London Joshua Stuart-Bennett, 2022-11-10 Motherhood Respectability and Baby Farming in Victorian and Edwardian London explores a largely obscured marketplace of motherhood that provided ways for women to manage the stigma of illegitimacy and their respectable identities within Victorian and Edwardian society It focuses on the extent of women s dirty work when maternal problem management was fundamental to the general maintenance of respectability and by extension to Empire and Civilisation Despite its intrigue history has struggled to understand and represent an uncomfortable but significant artefact of Western modernising society baby farming During a period when ideologies of respectability and civilisation arguably mattered most the right kind of parenthood especially motherhood became paramount As the wrong offspring could jeopardise a woman s chances of being respectable a wholesale informal and somewhat clandestine marketplace emerged that catered to various maternal difficulties Within this marketplace a pregnancy or

newborn child who may have compromised a woman's respectability could be disposed of through different means for a fee. From the Victorian period to the present, the commercialised maternal practices associated with baby farming have become firmly established within collective consciousness as being synonymous with child murder, female pathology and infanticide for hire. This book provides a revised far more complex and nuanced narrative history which reveals all that was associated with baby farming, including all possible outcomes to be entirely natural, rational and even necessary products of their time. An understandable outcome of the period's civilising offensive, *Motherhood, Respectability and Baby Farming in Victorian and Edwardian London* will be of great interest to students and scholars of criminology, sociology, history and gender studies.

Timely Cash Ugo Gentilini, 2024-10-31 Every country provides some form of direct cash transfer to people in need and this provision of money reaches hundreds of millions of people worldwide. But these provisions are often accompanied by heated debates on whether and how such assistance should be provided. Seeking a way to better understand the current global debates on cash transfers, *Timely Cash* provides a historical overview of the concept. It explores the 2,500-year history of cash transfers to trace the origins of cash transfer programmes, tracks how they have evolved over time and spread across the world, and considers the longstanding debates that surround them. By connecting these historical perspectives with the present day, identifying reoccurring patterns and codifying diversity in experiences, Ugo Gentilini illuminates the roots of modern cash transfer dilemmas and reveals the surprising lessons the past can offer for these contemporary debates. The Victorian Baby in Print Tamara S. Wagner, 2020-10-15 *The Victorian Baby in Print: Infancy, Infant Care and Nineteenth Century Popular Culture* explores the representation of babyhood in Victorian Britain. The first study to focus exclusively on the baby in nineteenth-century literature and culture, this critical analysis discusses the changing roles of an iconic figure. A close look at the wide-ranging portrayal of infants and infant care not only reveals how divergent and often contradictory Victorian attitudes to infancy really were, but also challenges persistent clichés surrounding the literary baby that emerged or were consolidated at the time and which are largely still with us. Drawing on a variety of texts, including novels by Charles Dickens, Wilkie Collins, Mary Elizabeth Braddon, Mrs Henry Wood and Charlotte Yonge, as well as parenting magazines of the time, childrearing manuals and advertisements, this study analyses how their representations of infancy and infant care utilised and shaped an iconography that has become definitional of the Victorian age itself. The familiar clichés surrounding the Victorian baby have had a lasting impact on the way we see both the Victorians and babies, and a critical reconsideration might also prompt a self-critical reconsideration of the still burgeoning market for infant care advice today. *Pauper Voices, Public Opinion and Workhouse Reform in Mid-Victorian England* Peter Jones, Steven King, 2020-08-08 This book represents the first attempt to identify and describe a workhouse reform movement in mid to late nineteenth-century England, beyond the obvious candidates of the Workhouse Visiting Society and the voices of popular critics such as Charles Dickens and Florence Nightingale. It is a subject on which the existing workhouse literature is largely silent, and this book

therefore fills a considerable gap in our understanding of contemporary attitudes towards institutional welfare Although many scholars have touched on the more obvious strands of workhouse criticism noted above few have gone beyond these to explore the possibility that a concerted movement existed that sought to place pressure on those with responsibility for workhouse administration and to influence the trajectory of workhouse policy
