The World In Reverse:

Logics of Worlds Alain Badiou, 2019-01-24 Logics of Worlds is the sequel to Alain Badiou's masterpiece Being and Event Tackling the questions that had been left open by Being and Event and answering many of his critics in the process Badiou supplements his pioneering treatment of multiple being with a daring and complex theory of the worlds in which truths and subjects make their mark what he calls a materialist dialectic Drawing on his most ambitious philosophical predecessors Leibniz Kant Hegel Kierkegaard Lacan Deleuze Badiou ends this important later work with an impassioned call to live for an Idea

The Riddle of Humanity Rudolf Steiner, 2025-10-20 In these foundational lectures Rudolf Steiner presents a bold and spiritually alive understanding of human evolution and our deep connection to the cosmos Far more than a philosophical inquiry this work is a challenge to the assumptions of materialism and an appeal to reawaken to our spiritual tasks Speaking to members of the Anthroposophical Society Steiner explores the dual nature of the human being cosmic and earthly and the subtle interplay between past incarnations and the transformation of the body He offers profound insights into the evolution of the senses the creative power of aesthetics and how human life is interwoven with cosmic forces Through vivid metaphysical descriptions and rigorous esoteric thought Steiner outlines how the soul evolves across lifetimes shaped not only by earthly experiences but by celestial rhythms and spiritual laws He emphasizes the vital role of inner development meditation moral striving and self knowledge as the pathway to freedom and true understanding These lectures lay a groundwork for Steiner's spiritual science offering a clear alternative to the mechanistic worldview and inviting readers to rediscover the riches of human life through spiritual awareness The new edition of these lectures features an introduction by Margaret Jonas editorial notes and an index Trans by J F Logan Intro by M Jonas Fifteen lectures July Sept 1916 Dornach GA 170

ways in which specific media approaches and aesthetic practices influence people's ideas about and awareness of migratory experiences in a globalized world. Finally, it delineates how historical perspectives help us compare epistemological approaches to migration in the nineteenth, twentieth, and early twenty-first centuries and how these approaches affect the way critics and the public responded to and thought about different forms of forced migration. Bringing together renowned scholars working across disciplines, it investigates the possibilities and limitations that different media present when it comes to reflecting on, communicating and imagining experiences of migration and how these representations in turn create ways of knowing and understanding migration.

Coins of England and the United Kingdom 2020 Emma Howard, 2020-03-19 This historic reference work for British coins is still the only catalogue to feature every major coin type from Celtic to the present day arranged in chronological order and divided into metals under each reign then into coinages, denominations and varieties. Under Elizabeth II the decimal issues are separated from the pre-decimal coinages with all decimal coinage since 1968 listed in a separate volume available as an independent publication for the first time in 2020.

Coins of England & The United Kingdom (2019) Emma Howard, 2018-12-10 This historic reference work for British coins is still the only catalogue to feature every major coin type from Celtic to the present day arranged in chronological order and divided into metals under each reign then into coinages, denominations and varieties. Under Elizabeth II the decimal issues are separated from the pre-decimal coinages with all decimal coinage since 1968 listed in a separate volume. The catalog includes up-to-date values for every coin, a beginner's guide to coin collecting, numismatic terms explained, and historical information about each British coin from our earliest Celtic coins, Roman, Anglo-Saxon, and Norman coins, the coins of the Plantagenet Kings, the Houses of Lancaster and York, the Tudors and Stuarts, to the more modern Milled coinage minted for the first time in 1561 during the reign of Elizabeth I. From the earliest of times, coins have been used by states or monarchs to communicate with people. Coins of England is therefore not only a reference book for collectors but a fascinating snapshot of British history illuminating its economics, technology, art, politics, and religion. As always, the content has been updated and improved throughout by the editors.

Infrastructures of Apocalypse Jessica Hurley, 2020-10-13 A new approach to the vast nuclear infrastructure and the apocalypses it produces, focusing on Black, queer, Indigenous, and Asian American literatures. Since 1945, America has spent more resources on nuclear technology than any other national project. Although it requires a massive infrastructure that touches society on myriad levels, nuclear technology has typically been discussed in a limited, top-down fashion that clusters around powerful men. In *Infrastructures of Apocalypse*, Jessica Hurley

turns this conventional wisdom on its head offering a new approach that focuses on neglected authors and Black queer Indigenous and Asian American perspectives Exchanging the usual white male nuclear canon for authors that include James Baldwin Leslie Marmon Silko and Ruth Ozeki Infrastructures of Apocalypse delivers a fresh literary history of post 1945 America that focuses on apocalypse from below Here Hurley critiques the racialized urban spaces of civil defense and reads nuclear waste as a colonial weapon Uniting these diverse lines of inquiry is Hurley s belief that apocalyptic thinking is not the opposite of engagement but rather a productive way of imagining radically new forms of engagement Infrastructures of Apocalypse offers futurelessness as a place from which we can construct a livable world It fills a blind spot in scholarship on American literature of the nuclear age while also offering provocative surprising new readings of such well known works as Atlas Shrugged Infinite Jest and Angels in America Infrastructures of Apocalypse is a revelation for readers interested in nuclear issues decolonial literature speculative fiction and American studies
