Developing Multilingual Writing Hiroe Kobayashi, Carol Rinnert, 2023-02-14 With millions of people becoming multilingual writers in the globalized digital world this book helps to empower writers to connect with their readers and project their identities effectively across languages social contexts and genres In a series of closely related studies that build on each other we look comprehensively at how writers develop their ability to construct meaning for different audiences in multiple languages. This book which draws on various approaches including a social view of writing multicompetence adaptive transfer complex systems theory motivation and translanguaging contributes to on going efforts to integrate differing approaches to multilingual writing research. This book focuses on how writer agency control over text construction audience awareness ability to meet expectations of prospective readers and writer identity projection of image of the writer in the text progress as multilingual writers gain more experience across languages. The within writer cross sectional text analysis. Chapters 2.5 examines 185 essays written in Japanese and English by eight groups of writers from novice to advanced N 103 supplemented by insights from these writers reflections. We explore how they employ three kinds of text features discourse types metadiscourse and self representation which relate to their developing agency audience and writer identity in their text construction and propose a new model for writer voice construction based on those features. The four case studies Chapters 6.9 focus on five university students and six professionals to examine closely how individual writers agency audience and identity are interrelated in their text construction in two or three languages and diverse genres including academic and

creative writing The combined studies provide new insights into multilingual writing development by revealing the close interrelationship among these three principal aspects of writing across languages They also demonstrate the writers multi directional use of dynamic transfer reuse and reshaping for L1 L2 and L3 text construction and the use of mixed languages L1 L2 or L1 L3 translanguaging for composing processes in addition to the creative power of multilingual writers One significant contribution of this book is to provide models of innovative ways to analyze text and new directions for writing research that go beyond complexity accuracy and fluency Categories and detailed examples of text features used for writer voice construction e g specific characteristics of Personal Emergent and Mature Voice are helpful for writing teachers and for developing writers to improve ways of conveying their own intended writer identity to the reader The studies break new ground by extending our analysis of L2 writing to the same writers L1 and L3 writing and multiple genres Against the Tide of Modernity Michael Löwy, Robert Sayre, 2002-01-01 A translation from the French of Michael Lowy and Robert Sayre's attempt to unify discussion of the diverse manifestations of of Romanicism **Examining Text and Authorship in Translation** Caroline Summers, 2017-02-23 This book the first in depth study of authorship in translation explores how authorial identity is translated in the literary text In a detailed exploration of the writing of East German author Christa Wolf in English translation it examines how the work of translators publishers readers and reviewers reframes the writer's identity for a new reading public This detailed study of Wolf an author with a complex and contested public profile intervenes in wide ranging contemporary debates on globalised literary culture by examining how the fragmented identity of the international author is contested by different stakeholders in the construction of a world literature The book is interdisciplinary in its approach representing new work in Translation Studies and German Studies that is also of interest and relevance to scholars of literature in other languages Writing in Red Thomas W. Goldstein, 2017 In the German Democratic Republic words and ideas mattered both for legitimizing and criticizing the regime No wonder then that the ruling SED party created a Writers Union to mold what writers publicly wrote and said Its chief task was ideological creating a socialist and antifascist culture But it was also supposed to advance its members professional interests and enable them to act as public intellectuals with a say in the direction of socialism Many writers demanded that it pursue this second function as well which brought it into conflict with the SED This book explores how the union became a site for the contestation of writers roles in GDR society with consequences well beyond the literary community Union leaders pressured by the SED or the secret police usually acquiesced in enforcing regime demands but by the 1980s many authors had adapted to the rules of the game exploiting their union membership to insulate themselves from reprisal for their carefully worded critiques and in so doing beginning to break down limitations on public speech The book explores how and why in the 1970s the Writers Union helped normalize relations between writers and state yet over the course of the 1980s inadvertently aided the expansion of permissible speech ultimately helping destabilize the East German system Thomas W Goldstein is Assistant

James T. Farrell and Baseball Charles DeMotte,2019-12-01 James T Farrell and Baseball is a social history of baseball on Chicago s South Side drawing on the writings of novelist James T Farrell along with historical sources Charles DeMotte shows how baseball in the early decades of the twentieth century developed on all levels and in all areas of Chicago America s second largest city at the time and how that growth intertwined with Farrell s development as a fan and a writer who used baseball as one of the major themes of his work DeMotte goes beyond Farrell s literary focus to tell a larger story about

baseball on Chicago's South Side during this time when Charles Comiskey's White Sox won two World Series and were part of a rich baseball culture that was widely played at the amateur semipro and black ball levels DeMotte highlights the 1919 20 Black Sox fix and scandal which traumatized not only Farrell and Chicago but also baseball and the broader culture By tying Farrell's fictional and nonfictional works to Chicago's vibrant baseball history this book fills an important gap in the history of baseball during the Deadball Era Romantic Poetry Angela Esterhammer, 2002-01-01 Romantic Poetry encompasses twenty seven new essays by prominent scholars on the influences and interrelations among Romantic movements throughout Europe and the Americas It provides an expansive overview of eighteenth and nineteenth century poetry in the European languages The essays take account of interrelated currents in American Argentinian Brazilian Bulgarian Canadian Caribbean Chilean Colombian Croatian Czech Danish English Estonian Finnish French German Greek Hungarian Irish Italian Mexican Norwegian Peruvian Polish Romanian Russian Serbian Slovak Spanish Swedish and Uruguayan literature Contributors adopt different models for comparative study tracing a theme or motif through several literatures developing innovative models of transnational influence studying the role of Romantic poetry in socio political developments or focusing on an issue that appears most prominently in one national literature yet is illuminated by the international context This collaborative volume provides an invaluable resource for students of comparative literature and Romanticism SPECIAL OFFER 30% discount for a complete set order 5 vols The Romanticism series in the Comparative History of Literatures in European Languages is the result of a remarkable international collaboration The editorial team coordinated the efforts of over 100 experts from more than two dozen countries to produce five independently conceived yet interrelated volumes that show not only how Romanticism developed and spread in its principal European homelands and throughout the New World but also the ways in which the affected literatures in reaction to Romanticism have redefined themselves on into Modernism A glance at the index of each volume quickly reveals the extraordinary richness of the series total contents Romantic Irony sets the broader experimental parameters of comparison by concentrating on the myriad expressions of irony as one of the major impulses in the Romantic philosophical and artistic revolution and by combining cross cultural and interdisciplinary studies with special attention also to literatures in less widely diffused language streams Romantic Drama traces creative innovations that deeply altered the understanding of genre at large fed popular imagination through vehicles like the opera and laid the foundations for a modernist theater of the absurd Romantic Poetry demonstrates deep patterns and a sharing of crucial themes of the revolutionary age which underlie the lyrical expression that flourished in so many languages and environments Nonfictional Romantic Prose assists us in coping with the vast array of writings from the personal and intimate sphere to modes of public discourse including Romanticism's own self commentary in theoretical statements on the arts society life the sciences and more Nor are the discursive dimensions of imaginative literature neglected in the closing volume Romantic Prose Fiction where the basic Romantic themes and story types the romance novel novella short story and other narrative forms are

considered throughout Europe and the New World This enormous realm is seen not just in terms of Romantic theorizing but in the light of the impact of Romantic ideas and narration on later generations As an aid to readers the introduction to Romantic Prose Fiction explains the relationships among the volumes in the series and carries a listing of their tables of contents in an appendix No other series exists comparable to these volumes which treat the entirety of Romanticism as a cultural happening across the whole breadth of the Old and New Worlds and thus render a complex picture of European spiritual strivings in the late eighteenth and the nineteenth centuries a heritage still very close to our age
