The young are often accused of being thoughtless rash and unwilling to be advised That the former of these charges is in a great measure just is not denied Indeed what else could be expected They are thoughtless for they are yet almost strangers to the world and its cares and perplexities They are forward and sometimes rash but this generally arises from that buoyancy of spirits which health and vigor impart True it is to be corrected let the cause be what it may but we shall correct with more caution and probably with greater success when we understand its origin That youth are unwilling to be advised as a general rule appears to me untrue At least I have not found it so When the feeling does exist I believe it often arises from parental mismanagement or from an unfortunate method of advising The infant seeks to grasp the burning lamp the parent endeavors to dissuade him from it At length he grasps it and suffers the consequences Finally however if the parent manages him properly he learns to follow his advice and obey his indications in order to avoid pain Such at least is the natural result of rational management And the habit of seeking parental counsel once formed is not easily eradicated It is true that temptation and forgetfulness may lead some of the young occasionally to grasp the lamp even after they are told better but the consequent suffering generally restores them to their reason It is only when the parent neglects or refuses to give advice and for a long time manifests little or no sympathy with his child that the habit of filial reliance and confidence is destroyed In fact there are very few children indeed however improperly managed who do not in early life acquire a degree of this confiding inquiring counsel seeking disposition *The Young Man's Guide* William A. The Young Man's Guide William Alcott, 2017-04-18 The Young Man's Guide Most persons as they grow old forget that they have ever been young themselves This greatly disqualifies them for social enjoyment It was wisely said He who would pass the latter part of his life with honor and decency must when he is young consider that he shall one day be old and when he is old remember that he has once been young But if forgetfulness on this point disqualifies a person for self enjoyment how much more for that which is social The Young Man's Guide book has a beautiful glossy cover and a blank page for the dedication
