Guide to Byzantine Historical Writing Leonora Neville, 2018-05-17 This handy reference guide makes it easier to access and understand histories written in Greek between 600 and 1480 CE. Covering classicizing histories that continued ancient Greek traditions of historiography, sweeping fast-paced chronicle-type histories and dozens of idiosyncratic historical texts, it distills the results of complex multi-lingual specialist scholarship into clear explanations of the basic information needed to approach each medieval Greek history. It provides a sound basis for further research on each text by describing what we know about the time of composition, content covered by the history, authorship, extant manuscripts, previous editions and translations, and basic bibliography. Even-handed explanations of scholarly debates give readers the information they need to assess controversies independently. A comprehensive introduction orients students and non-specialists to the traditions and methods of Byzantine historical writing. It will prove an invaluable timesaver for Byzantinists and an essential entry point for classicists, western medievalists, and students.

[A Companion to Byzantine Chronicles](#), 2024-12-23 A Byzantine chronicle is a retelling of history usually beginning with the creation of the world, written in simple language and enriched by colourful anecdotes or tantalizing details on political intrigues. Though extremely popular in the Middle Ages, these texts were long disregarded by scholars due to their historical unreliability and lack of originality. Now, however, they are increasingly appreciated for the insights they provide into Byzantine ideology and the complex interaction of reading and writing in Byzantium. This volume highlights and contributes to the radical re-evaluation of this long neglected genre of medieval literature. Contributors are Raimondo Tocci, William Adler, Thomas M. Banchich, Albrecht Berger, Richard W. Burgess, John Burke, R. K. Forrai, Christian Gastgeber, Martin Hinterberger, Marek Jankowiak, Ralph Johannes, Lilie Athanasios Markopoulos, Mischa Meier, Federico Montinaro, Diether Roderich Reinsch, Fabian Schulz, Roger Scott, Paul Tuffin, Staffan Wahlgren, and Varvara Zharkaya.

A Companion to the Intellectual Life of the Palaeologan Period, 2022-11-14 What was happening in Byzantium as the Turks drew ever closer to Constantinople and an interest in classical Greek studies had been rekindled in the West? What was the role of the Byzantine scholars in an Empire facing multiple political and economic problems and what were the matters that engaged them? What was the importance of teachers, libraries, and monasteries to the so-called Palaeologan Renaissance and what the significance of the theological disputes? These questions and more are addressed in the twelve essays authored by international experts of this Companion, which advances our understanding of the intellectual milieu, trends, and achievements of the Palaeologan period.
