Theology And The Political The New Debate Series Sic 5:

Theology and the Political Creston Davis, John Milbank, Slavoj Žižek, 2005-06-17 A reassertion of the importance of theology to political action that goes beyond both liberal democratic theory and neoconservatism *Crisis and Change* Jan-Olav Henriksen, Torgeir Kjørtén, 2012-03-15 A common basis for the project on which this volume is based is that one cannot understand religion and ethics without paying attention to the different contexts in and by means of which these cultural elements are expressed This approach makes both religion and ethics liquid and allows us to see them as based on specific contingencies rather than as expressions of some essential features The changing societal and cultural conditions in late modern Western societies pose new challenges for established religion theology and ethics Not only does religion itself appear to be in some kind of crisis but also many of the established ways of understanding and doing religion theology and ethics appear obsolete inadequate or dated Against such a backdrop the articles in the present volume represent attempts to rethink theology and religion with regard to these late modern conditions The volume is the result of a joint undertaking of two research groups one based in both Finland and the other in Oslo Norway which have since 2006 focused on exploring the contextual character of theology in understanding both Christian belief and Christian ethics The challenge of the idea that Christianity appears in new ways and in new contexts and of investigating what that means is pursued in various ways

Paul, Philosophy, and the Theopolitical Vision Douglas Harink, 2010-02-12 The apostle Paul was a man of many journeys We are usually familiar with the geographical ones he made in his own time This volume traces others Paul's journeys in our time as he is co-opted or invited to travel sometimes as abused slave sometimes as trusted guide with modern and recent Continental philosophers and political theorists Kierkegaard Nietzsche Heidegger and Benjamin Taubes Badiou Žižek and Agamben Paul journeys here among the philosophers In these essays you are invited to travel with them into the regions of philosophy hermeneutics political theory and theology You will certainly hear the philosophers speak But Paul will not remain silent Above the sounds of the journey his voice comes through loud and clear **Orthodoxy, Process and Product**

Mathijs Lamberigts, Lieven Boeve, Terrence Merrigan, 2009 From 2002-2008 three research groups from the departments of systematic theology and church history at the Faculty of Theology KU Leuven joined forces in an interdisciplinary project entitled Orthodoxy Process and Product The aim of the project was a church historical and systematic theological study of the determination of truth in church and theology The present volume contains contributions from all senior members of the project research group The contributions are the result of a research conference in 2006 in which both the question of the nature of truth as such and the process of determination of theological truth was approached from many different angles Thus questions from philosophy systematic theology and history of church and theology are discussed including such themes as the implications of various philosophical theories of truth for theology the question of religious pluralism and its ramifications for theological truth claims theological truth claims in the thought of Gregory of Nyssa Augustine John Driedo

and at the Second Vatican Council In addition the meta question of the relationship between the historical and the systematic aspects of theological truth and the way in which the historical and systematic theological disciplines interact play an important role in this volume Ethnic Diversity, National Unity Theodoros A. Teklu, 2021-01-29 Although asserting one's ethnic identity is not morally wrong the manner in which one ethnic group construes or relates to the ethnic other's can obliterate the bond of togetherness and create the insecurity of life Ethiopia which is home to anthropologically diverse ethnolinguistic groups exhibits a proclivity to ethnic based hostilities and conflicts As a result of such hostilities Ethiopia has suffered recurrent small and large scale deaths and in the last half decade only millions have been internally displaced and live in dire conditions In dialogue with perspectives from a wide range of disciplines such as history law sociology philosophy theology and political thought this multi authored book aims at generating Christian moral resources for peaceful multiethnic togetherness This interdisciplinary engagement is meant to buttress the task of interpreting ethnic diversity and national unity within both contemporary and historical Ethiopia and articulating a Christian moral response to the crisis of togetherness ensuing from the malpractices of affirming ethnic identity and enacting national unity **Justice, Unity, and the Hidden Christ** Matthew John Paul Tan, 2014-01-07 Does social justice promote Christian unity With reference to paragraph 12 of Unitatis Redintegratio Vatican II's declaration on ecumenism this book argues that an emphasis on justice and unity without proper consideration of social context actually risks obscuring a clear public declaration of Christ by having Christians uncritically accept the presumptions that underpin the sociopolitical status quo This constitutes a failure in Christian interpretation the crux of which is a failure in ecclesiology Matthew John Paul Tan suggests the beginnings of a corrective with reference to works by Pope Benedict XVI theologians such as Graham Ward and postmodern theorists like Michel Foucault Ultimately Tan invites the reader to begin considering how answering this seemingly simple question will implicate not only theology but also philosophy and political theory as well as considering the need for the church to engage in a bolder confessional politics in place of the politics of the public square often favored by Christian and non Christian commentators *The Image of the Hero II in Literature, Media, and Society* Society for the Interdisciplinary Study of Social Imagery. Conference, 2010 *Public Debate in the Civil War Era* David Zarefsky, 2023-08-01 Public debate and discussion was overshadowed by the slavery controversy during the period of the U S Civil War Slavery was attacked defended amplified and mitigated This happened in the halls of Congress the courts the political debate the public platform and the lecture hall This volume examines the issues speakers and venues for this controversy between 1850 and 1877 It combines exploration of the broad contours of controversy with careful analysis of specific speakers and texts On the Idea of Potency Emanuele Castrucci, 2016-08-04 Sweeping through the history of Western philosophy of law Emanuele Castrucci deals with the metaphysical idea of potency as defined by Spinoza and Nietzsche upsetting entrenched theories of jurisprudence From classical Greek philosophy to Jewish biblical exegesis via Christianity from Aristotle's Metaphysics to its

Arabic interpretations from the genesis of natural law theory Augustine Aquinas Duns Scotus Ockham to Kant and Enlightenment natural law theory to Carl Schmitt Castrucci shows how philosophical rationalism has failed to contain absolute power in a juridical sense

The Slaveholding Republic the late Don E. Fehrenbacher, 2002-12-19 Many leading historians have

argued that the Constitution of the United States was a proslavery document But in *The Slaveholding Republic* one of America's most eminent historians refutes this claim in a landmark history that stretches from the Continental Congress to the Presidency of Abraham Lincoln Fehrenbacher shows that the Constitution itself was more or less neutral on the issue of slavery and that in the antebellum period the idea that the Constitution protected slavery was hotly debated many Northerners would concede only that slavery was protected by state law not by federal law Nevertheless he also reveals that U S policy abroad and in the territories was consistently proslavery Fehrenbacher makes clear why Lincoln's election was such a shock to the South and shows how Lincoln's approach to emancipation which seems exceedingly cautious by modern standards quickly evolved into a Republican revolution that ended the anomaly of the United States as a slaveholding republic

Inconsistencies in Greek and Roman Religion. 1, Ter Unus H. S. Versnel, 1990 This is the first of a two volume collection of studies in inconsistencies in Greek and Roman religion Their common aim is to argue for the historical relevance of various types of ambiguity and dissonance The first volume focuses on the central paradoxes in ancient henotheism The term henotheism a modern formation after the stereotyped acclamation EIS O QEOS one is the god common to early Christianity and contemporaneous paganism denotes the specific devotion to one particular god without denying the existence of or even cultic attention to other gods After its prime in the twenties and thirties of this century the term fell into disuse Nonetheless the notion of henotheism represents one of the most remarkable and significant shifts in Graeco Roman religion and hence deserves fresh reconsideration

Religion as Resistance Eileen Ryan, 2018-01-02 When Italian forces landed on the shores of Libya in 1911 many in Italy hailed it as an opportunity to embrace a Catholic national identity through imperial expansion After decades of acrimony between an intransigent Church and the Italian state enthusiasm for the imperial adventure helped incorporate Catholic interests in a new era of mass politics Others among Italian imperialists military officers and civil administrators were more concerned with the challenges of governing a Muslim society one in which the Sufi brotherhood of the Sanusiyya seemed dominant Eileen Ryan illustrates what Italian imperialists thought would be the best methods to govern in Muslim North Africa and in turn highlights the contentious connection between religious and political authority in Italy Telling this story requires an unraveling of the history of the Sanusiyya During the fall of Qaddafi Libyan protestors took up the flag of the Libyan Kingdom of Idris al Sanusi signaling an opportunity to reexamine Libya's colonial past After decades of historiography discounting the influence of Sanusi elites in Libyan nationalism the end of this regime opened up the possibility of reinterpreting the importance of religion resistance and Sanusi elites in Libya's colonial history Religion as Resistance provides new perspectives on the history of collaboration between the Italian state and Idris al Sanusi and questions the dichotomy between resistance and collaboration in the colonial world
