Jewish Workers and the Labour Movement Karin Hofmeester, 2017-05-15 During the late nineteenth century many Jewish workers and intellectuals considered their integration into the general labour movement as a good way to counter the double disadvantage they suffered in society as Jews and workers Whilst in Amsterdam this process encountered few obstacles it was more problematical in London and Paris Through a detailed examination of the collaborative efforts of Jewish labour in these three cities Jewish Workers and the Labour Movement reveals the multi layered and unique position of Jewish workers in the labour market It shows how various factors such as economic change political upheaval state intervention and anti Semitism all affected the pace of integration and draws conclusions that highlight the similarities as well as the differences between the efforts of Jewish workers to improve their lot in France Britain and Holland *The Shaping of Automation* Dirk de Wit, 1994 **Nederland en de Europese eenwording** P. industriële geschiedenis Nele Bracke, 2000 *The Strictures of Inheritance* Jan Luiten van Zanden, Arthur van Riel, 2021-04-13 A major feat of research and synthesis this book presents the first comprehensive history of the Dutch economy in the nineteenth century an important but poorly understood piece of European economic history Based on a detailed reconstruction of extensive economic data the authors account for demise of the Dutch economy's golden age After showing how institutional factors combined to make the Dutch economy a victim of its own success the book traces its subsequent emergence as a modern industrial economy Between 1780 and 1914 the Netherlands went through a double transition Its economy which in the words of Adam Smith was approaching a stationary state in the eighteenth century entered a process of modern economic growth during the middle decades of the nineteenth At the same time the country's sociopolitical structure was undergoing radical transformation as the decentralized polity of the republic gave way to a unitary state As the authors show the dramatic transformation of the Dutch political structure was intertwined with equally radical changes in the institutional structure of the economy The outcome of this dual transition was a rapidly industrializing economy on one side and on the other the neocorporatist sociopolitical structure that would characterize the Netherlands in the twentieth century Analyzing both processes with a focus on institutional change this book argues that the economic and political development of the Netherlands can be understood only in tandem *Jaarboek voor Middeleeuwse Geschiedenis* ,

Antoon Marie Geurts, F. A. M. Messing, 1979 Bergh in de jaren dertig Paul van Dun, 2023-11-15 Deze studie gaat over de manier waarop de slachtoffers van de Grote Depressie arbeiders boeren en middenstanders uit de aan de Duitse grens gelegen Gelderse katholieke plattelandsgemeente Bergh deze crisis beleefden en overleefden De Berghse crisisslachtoffers van toen komen zelf aan het woord Paul van Dun Tilburg 1959 startte zijn onderzoek in 2008 toen Nederland met een recessie te maken kreeg Deze riep een herinnering aan de crisis van de jaren dertig op Tijdens het onderzoek verdween de recessie maar toch zal het onderwerp relevant blijven en telkens weer actueel worden omdat crises en werkloosheid onlosmakelijk aan de kapitalistische vrijemarkteconomie verbonden zijn In het welvarende Nederland van de 21e eeuw staan opnieuw rijen bij de voedselbanken *Het vette, het zoete en het wederzijdse profijt* Marlou Schrover, 1991

Geschiedenis in onderzoek, onderwijs, samenleving Raf de Keyser, 1991 **Sporen van moderniteit** Jan B. Smit, 2010 Dit boek geeft de weerslag van een onderzoek naar de economische ontwikkeling van de Liemers Het onderzoek start aan het begin van de negentiende eeuw toen een deel van de Liemers van Pruisisch tot Nederlands gebied werd In feite speelde er zich dus een tweedimensionaal integratieproces af een proces van regiovorming terwijl die regio op haar beurt zich moest voegen in de eenwording van Nederland Als eindpunt van deze studie is 1940 genomen omdat in de oorlog maar ook de periode erna een sterkere economische sturing van overheidswege optrad die er in de wederopbouwperiode ook op gericht was de achterstanden van regio's weg te werken *The Construction of an Urban Past* Harry Jansen, 2001-09 This book offers a new theoretical basis for urban studies and for historical studies in general by addressing one of the main problems that confronts contemporary historians How is it possible to process and synthesize an increasingly overwhelming amount of specialist research in the face of the theoretical deadlock caused by postmodernism How can we move beyond its claim that the past is unknowable Jansen's approach in which he claims there is a reality that is accessible to our cognitive capacities is based on Systems Theory which has already been applied so successfully in the fields of management and organization While focusing his attention on urban historiography Jansen argues that an integrative systems approach can be used in any field of historical enquiry to create a meaningful picture of the past He illustrates the importance of structuring data in this way by looking at the profound complexity of the urban environment This book is therefore important reading not only for urban historians and geographers but also for all social scientists interested in the future study of the European city **De Geschiedenis van de Middeleeuwen aan de Groningse universiteit 1614-1939** Catrien Santing, 1997 Geschiedenis en nostalgie P.
