Feminist Theory Reader Carole McCann,Seung-kyung Kim,Emek Ergun,2020-09-16 The fifth edition of the Feminist Theory Reader assembles readings that present key aspects of the conversations within intersectional US and transnational feminisms and continues to challenge readers to rethink the ways in which gender and its multiple intersections are configured by complex overlapping and asymmetrical global local configurations of power The feminist theoretical debates in this anthology are anchored by five foundational concepts gender difference women s experiences the personal is political and especially intersectionality which are integral to contemporary feminist critiques The anthology continues to center the voices of transnational feminist scholars with new essays giving it a sharper focus on the materiality of gender injustices racisms ableisms colonialisms and especially global capitalisms Theoretical discussions of translation politics cross border solidarity building ecofeminism reproductive justice MeToo indigenous feminisms and disability studies have been incorporated throughout the volume With the new essays and the addition of a new editor the Feminist Theory Reader has been brought fully up to date and will continue to be a touchstone for women s and gender studies students as well as academics in the field for many years to come

Theorizing Feminisms Elizabeth Hackett,2006 Providing a survey of approaches to theoretical issues raised by the quest for gender justice this text is for use in interdisciplinary feminist theory courses With an aim to provide an overview of feminist responses to including a critique of these questions its organising questions are What is sexist oppression What must be done about it Pacifism, Politics, and Feminism ,2019-04-09

Pacifism Politics and Feminism Intersections and Innovations discusses a how feminist analyses allow for and encourage the re conceptualization of concepts and ideas once thought familiar from traditional ethical and political philosophy and b traditional political topics and issues through pacifist and feminist lenses The chapters that focus on the former explore the possibility of queering such concepts as autonomy violence resistance peace religion and politics while the chapters that focus on the latter bring feminist and pacifist sensibilities and arguments to bear on classic political questions such as when and how violence and war are justified the appropriateness of various responses to climate change and the correct way to engage with such topics and themes in educational institutional settings Contributors are David Boersema Barrett Emerick Tamara Fakhoury Jane Hall Fitz Gibbon William C Gay Jennifer Kling John Lawless Megan Mitchell and Harry van der Linden

Feminist Theory Reader Carole R. McCann,Seung-kyung Kim,2016-07-07 The fourth edition of the Feminist Theory Reader continues to challenge readers to rethink the complex meanings of difference outside of contemporary Western feminist contexts This new edition contains a new subsection on intersectionality New readings turn readers attention to current debates about violence against women sex work care work transfeminisms and postfeminism The fourth edition also continues to expand the diverse voices of transnational feminist scholars throughout with particular attention to questions of

class Introductory essays at the beginning of each section bring the readings together provide historical and intellectual context and point to critical additional readings Five core theoretical concepts gender difference women s experiences the personal is political and intersectionality anchor the anthology s organizational framework New to this edition text boxes in the introductory essays add excerpts from the writings of foundational theorists that help define important theoretical concepts and content by Dorothy Sue Cobble Cathy Cohen Emi Koyama Na Young Lee Angela McRobbie Viviane Namaste Vrushali Patil and Jasbir Puar

Autonomy, Oppression, and Gender Andrea Veltman, Mark Piper, 2014-07-14 This collection of new essays examines philosophical issues at the intersection of feminism and autonomy studies Are autonomy and independence useful goals for women and subordinate persons Is autonomy possible in contexts of social subordination Is the pursuit of desires that issue from patriarchal norms consistent with autonomous agency How do emotions and caring relate to autonomous deliberation Contributors to this collection answer these questions and others advancing central debates in autonomy theory by examining basic components normative commitments and applications of conceptions of autonomy Several chapters look at the conditions necessary for autonomous agency and at the role that values and norms such as independence equality inclusivity self respect care and femininity play in feminist theories of autonomy Whereas some contributing authors focus on dimensions of autonomy that are internal to the mind such as deliberative reflection desires cares emotions self identities and feelings of self worth several authors address social conditions and practices that support or stifle autonomous agency often answering questions of practical import These include such questions as What type of gender socialization best supports autonomous agency and feminist goals When does adapting to severely oppressive circumstances such as those in human trafficking turn into a loss of autonomy How are ideals of autonomy affected by capitalism and How do conceptions of autonomy inform issues in bioethics such as end of life decisions or rights to bodily self determination

Sexing the Look in Popular Visual Culture Kathy Justice Gentile, 2020-05-15 With dramatic advances in media technology the practice of sexing or erotically enhancing images has become an increasingly widespread phenomenon The eroticized look as both noun and verb the thing or image that draws our look and the look that we bestow on images that elicit our visual physiological and emotional attention is the focus of the essays in this volume Every day whether we are out in the world or in the workplace or in the privacy of our homes we enter visual fields that heighten and distort reality distortions that often emphasize sexuality and erotic promise The contributors for this collection look at the sexualization of visual culture from a range of disciplinary perspectives including literature film studies history philosophy art history and media studies with gender and sexuality studies providing the encompassing critical framework that binds these essays into a coherent analytical project The essays in this collection offer new theoretical conceptions of perception and representation as well as rigorous reconsiderations of the polarized feminist debates over pornographic images Essays on literature and film range from an interrogation of Baudrillard s theory of seduction that posits femininity as a strategy of illusion and subversion

to Bridget Jones's challenge to the prevailing disciplinary regime that prescribes rigid standards for feminine beauty to a reevaluation of the subversive potential of sexy female robots Other contributors consider the history of nudist images in US periodicals the proliferation of eroticized images of girls in new digital technologies gentlemanly masculinity in men's fashion in late Victorian England and a rape prevention campaign's unintentional reinforcement of persistent heterosexist misconceptions about rape

Resisting Reality Sally Anne Haslanger, 2012-10-25 In this collection of previously published essays Sally Haslanger draws on insights from feminist and critical race theory and on the resources of contemporary analytic philosophy to develop the idea that gender and race are positions within a structure of social relations Explicating the workings of these interlocking structures provides tools for understanding and combatting social injustice **The Black**

Book Richard A. Jones, 2013-11-26 The Black Book Wittgenstein and Race attempts to highlight the importance of Ludwig Wittgenstein's work for contemporary African American and Africana philosophy Richard A Jones argues that Wittgenstein's early Tractarian views on logical atomism and his later more holistic views from his work Philosophical Investigations are exceedingly relevant to African American philosophy The Black Book investigates the epistemic linguistic and political grounds from which inspiration might be drawn Ultimately as philosophy attempts to redefine itself in a postmodern discourse where it has been deigned concluded it is the awe for the ordinary that Wittgenstein inspires and that should re inspire the creative imaginary in Africana thought The Black Book is an attempt to show that Wittgenstein's work continues to be important not only for African American philosophers but for all philosophers **'Tikkun Olam' —To Mend the**

World Jason Goroncy, 2013-12-04 Tikkun Olam To Mend the World is premised on the conviction that artists and theologians have things to learn from one another things about the complex interrelationality of life and about a coherence of things given and sustained by God The ten essays compiled in this volume seek to attend to the lives burdens and hopes that characterize human life in a world broken but unforgotten in travail but moving towards the freedom promised by a faithful Creator They reflect on whether the world wounded as it is by war by hatred by exploitation by neglect by reason and by human imagination itself can be healed Can there be repair And can art and theology tell the truth of the world's woundedness and still speak of its hope Essential Breakthroughs: Conversations about Men, Mothers and Mothering

Fionna Joy Green, 2015-11-01 Essential Breakthroughs Conversations About Men Mothers and Mothering thinks from the nexus of gender essentialism and care The authors creatively blend the philosophical and the personal to collectively argue that while gender is essential to our social and theoretical definitions of care it is dangerously co opted into naturalized discourses which limit particular identities and negate certain forms of care The perspectives curated in Essential Breakthroughs illuminate how care as a respected and productive cultural ethic is neither inherent nor instinctual for any human but is learned and fostered The chapters are informed by feminist queer and trans politics wielding post structuralist methodologies of unlearning and deconstruction while maintaining the maternal lens as a credible feminist analytical tool

and not as a gender essentialist practice **Ain't I a Womanist, Too?** Monica A. Coleman, 2013-04-24 Third wave womanism is a new movement within religious studies with deep roots in the tradition of womanist religious thought while also departing from it in key ways After a helpful and orienting introduction this volume gathers essays from established and emerging scholars whose work is among the most lively and innovative scholarship today The result is a lively conversation in which to question is not to disavow to depart is not necessarily to reject and where questioning and departing are indications of the productive growth and expansion of an important academic and religious movement **Female Terrorism in America** Jonathan Matusitz, Elena Berisha, 2020-09-17 This book provides a comprehensive analysis of female terrorism in America both past and present The volume takes a fresh look at women's actions of left wing political violence right wing political violence and religious extremist violence among others It also examines the multitude of roles that women have played over the past few decades in such organizations including leadership positions and more passive roles not to mention the diverse methods of recruitment radicalization and propaganda The objective of this book is to examine using a wide range of case studies facts statistics and theoretical methodologies how collective or personal factors have influenced or reinforced the actions that these women take Government agencies continue to underestimate the ability of women to support and perpetrate terrorism As such the United States is facing a wholly inaccurate and incomplete picture of the complexities of domestic terrorism and this is contributing to a serious neglect of the issue at the national level This volume ultimately aims to offer policy relevant solutions to decrease the threat of domestic female political violence in the United States **Female Terrorism in America** will be of much interest to students of terrorism and political violence American politics gender studies and sociology ***Applied Ethics*** Larry May, 2017-07-05 This best selling text continues to fill an existing gap in the literature taught in applied ethics courses As a growing number of courses that include the perspectives of diverse cultures are being added to the university curriculum texts are needed that represent more multicultural and diverse histories and backgrounds This new edition enhances gender coverage as nearly half of the pieces are now authored by women The new edition also increases the percentage of pieces written by those who come from a non Western background It offers twelve up to date articles not found in previous editions on human rights environmental ethics poverty war and violence gender race euthanasia and abortion all of these topics are addressed from Western and non Western perspectives **Religion and Intimate Partner Violence** Nancy Nason-Clark, Barbara Fisher-Townsend, Catherine Holtmann, Stephen McMullin, 2017-10-23 Grounded in data and enriched with narratives of abused women abusive men and those who walk alongside them **Religion and Intimate Partner Violence** examines how lived religion both helps and hinders the journey towards justice accountability healing and wholeness for women and men caught in the web of abuse **Violence against Women under International Human Rights Law** Alice Edwards, 2010-12-23 Since the mid 1990s increasing international attention has been paid to the issue of violence against women However there is still no explicit international human rights

treaty prohibition on violence against women and the issue remains poorly defined and understood under international human rights law Drawing on feminist theories of international law and human rights this critical examination of the United Nations legal approaches to violence against women analyses the merits of strategies which incorporate women s concerns of violence within existing human rights norms such as equality norms the right to life and the prohibition against torture Although feminist strategies of inclusion have been necessary as well as symbolically powerful for women the book argues that they also carry their own problems and limitations prevent a more radical transformation of the human rights system and ultimately reinforce the unequal position of women under international law

A Companion to Contemporary Political Philosophy Robert E. Goodin, Philip Pettit, Thomas W. Pogge, 2012-03-12 This new edition of *A Companion to Contemporary Political Philosophy* has been extended significantly to include 55 chapters across two volumes written by some of today s most distinguished scholars New contributors include some of today s most distinguished scholars among them Thomas Pogge Charles Beitz and Michael Doyle Provides in depth coverage of contemporary philosophical debate in all major related disciplines such as economics history law political science international relations and sociology Presents analysis of key political ideologies including new chapters on Cosmopolitanism and Fundamentalism Includes detailed discussions of major concepts in political philosophy including virtue power human rights and just war

Understanding Feminism Peta Bowden, Jane Mummery, 2014-12-05 *Understanding Feminism* provides an accessible guide to one of the most important and contested movements in progressive modern thought Presenting feminism as a dynamic multi faceted and adaptive movement that has evolved in response to the changing practical and theoretical problems faced by women the authors take a problem oriented approach that maps the complex strands of feminist thinking in relation to women s struggles for equal recognition and rights and freedom from oppressive constraints of sex self expression and autonomy Each chapter focuses on a different cluster of concerns demonstrating key moves in second wave feminist thought as well as some of the diversity in response strategies that encompass both socio economic and cultural symbolic concerns This approach not only shows how central feminist insights theories and strategies emerge and re emerge across different contexts but makes clear that far from being over feminism remains a vital response to the diverse issues that women and men find pressing and socially important

Feminism is Queer Mimi Marinucci, 2012-10-15 *Feminism is Queer* is an introduction to the intimately related disciplines of gender and queer theory Whilst guiding the reader through complex theory the author develops the original position of queer feminism which presents queer theory as continuous with feminist theory Whilst there have been significant conceptual tensions between second wave feminism and traditional lesbian and gay studies queer theory offers a paradigm for understanding gender sex and sexuality that avoids the conflict in order to develop solidarity among those interested in feminist theory and those interested in lesbian and gay rights An essential guide to anyone with an interest in gender or sexuality this accessible and comprehensive textbook carefully explains nuanced theoretical

terminology and provides extensive suggested further reading to provide the reader with full and thorough understanding of both disciplines
