Strathern,2021-08-24 Ritual Studies have achieved prominence since the 1980s when interest in ritual as an object of inquiry was established bridging over a number of humanities and social science disciplines Both connected with religious studies and independent of it overlapping with social and cultural anthropology but also with history related to science and health practices and ranging across the life course to education Ritual Studies has come to encompass studies of change and dynamism in social life Rituals are determinate in form but not static They enunciate distinctive social values within specific contexts that frame them and they relate to the wider concerns and issues of their practitioners Due to this broad and wide ranging scope it is often difficult to find a single resource on Ritual Studies and even more so to find one which moves beyond the beginnings of anthropological theorizing to grapple with the present day contexts of ritual Bringing together recent ethnographies of ritual practice and ritualization from across the globe this Handbook provides case study of ritual in the light of Emotion and Cognition Identity Religious Power Performance and Literature Ecology and Ecological Disaster Media and other topics While each chapter provides a deep ethnography of a specific society ritual or ritualized practice each also engages with current theoretical and substantive approaches to the relevant topic The scholars collected here provide original synoptic and indicative pieces as guideposts and pathways through the complex varied and cross disciplinary and vast landscape of scholarship that constitutes Ritual Studies today and points to developments in the future **When**

**Rituals Go Wrong** Ute Hüsken,2007 This volume investigates the implications of breaking ritual rules of failed performances and of the extinction of ritual systems The essays thus break new ground in the comparative analysis of rituals and introduce new perspectives to ritual studies **Vedic Practice, Ritual Studies and Jaimini's Mīmāṃsāsūtras**

Samuel G. Ngaihte,2019-06-27 Drawing on insights from Indian intellectual tradition this book examines the conception of dharma by Jaimini in his M m s s tras assessing its contemporary relevance particularly within ritual scholarship Presenting a hermeneutical re reading of the text it investigates the theme of the relationship between subjectivity and tradition in the discussion of dharma bringing it into conversation with contemporary discourses on ritual The primary argument offered is that Jaimini s conception of dharma can be read as a philosophy of Vedic practice centred on the enjoinderment of the subject whose stages of transformation possess the structure of a hermeneutic tradition Offering both substantive and methodological insights into the contentions within the contemporary study of ritual this book will be of interest to

researchers in the fields of Hindu studies ritual studies Asian religion and South Asian studies **Homo Ritualis** Axel Michaels,2015-11-03 Is the richness and diversity of rituals and celebrations in South Asia unique Are Indians or Hindus more involved in rituals than people of other faiths and other places If so what makes them special Can we speak of a homo ritualis when it comes to India or Hinduism Drawing on extensive textual studies and fieldwork in Nepal and India Axel Michaels demonstrates how the characteristic structure of Hindu rituals employs the Brahmanic Sanskritic sacrifice as a model and how this structure is one of the distinguishing features of Hinduism more generally Many religions tend over time

to develop less ritualized or more open forms of belief but Brahmanical Hinduism has internalized ritual behavior to the extent that it has become its most important and distinctive feature permeating social and personal life alike The religion can thus be seen as a particular case in the history of religions in which ritual form dominates belief and develops a sweeping autonomy of ritual behavior Homo Ritualis analyzes ritual through these cultural specific and religious contexts taking into account how indigenous terms and theories affect and contribute to current ritual theory It describes and investigates various forms of Hindu rituals and festivals such as life cycle rituals the Vedic sacrifice vows processions and the worship of deities puja It also examines various conceptual components of Hindu rituals such as framing formality modality and theories of meaning

**Negotiating Rites** Ute Hüsken, Frank Neubert, 2012 Ritual has been long viewed as an undisputed and indisputable part of especially religious tradition performed over and over in the same ways stable in form meaningless preconceived and with the aim of creating harmony and enabling a tradition's survival The authors represented in this collection argue however that this view can be seriously challenged and that ritual's embeddedness in negotiation processes is one of its central features

**Understanding the Social World of the New Testament** Dietmar Neufeld, Richard DeMaris, 2009-10-29 The New Testament is a book of great significance in Western culture yet is often inaccessible to students because the modern world differs so significantly from the ancient Mediterranean one in which it was written It is imperative to develop a cross cultural understanding of the values of the ancient Mediterranean society from which the New Testament arose in order to fully appreciate the documents and the communities that they represent Dietmar Neufeld and Richard E DeMaris bring together biblical scholars with expertise in the social sciences to develop interpretative models for understanding such values as collectivism kinship memory ethnicity and honour and to demonstrate how to apply these models to the New Testament texts Kinship is illuminated by analysis of the Holy Family as well as to early Christian organisations gender through a study of Paul's view of women and landscape and spatiality through a discussion of Jesus of Nazareth This book is the ideal companion to study of the New Testament

**Knowing Body, Moving Mind** Patricia Q Campbell, 2011-09-02 Knowing Body Moving Mind investigates ritualizing and learning in introductory meditation classes at two Buddhist centers in Toronto Canada Inspired by theories that suggest that rituals impart new knowledge or understanding Patricia Campbell examines how introductory meditation students learn through formal Buddhist practice

*Teaching Ritual* Catherine Bell, 2007-05-11 Many teachers share an interest in bringing a better appreciation of ritual into their religious studies classes but are uncertain how to do it Religious studies faculty know how to teach texts but they often have difficulty teaching something for which the meaning lies in the doing How do you teach such doing How much need be done How does the teacher talk about the religiosity that exists in personalized relationships not textual descriptions or prescriptions These practical issues also give rise to theoretical questions Giving more attention to ritual effectively suggests a reinterpretation of religion itself an understanding less focused on what people have thought and written and more focused

on how they engage their universe Many useful analyses of ritual derive from anthropological and sociological premises which may be foreign to religious studies faculty and even seen by some as theologically problematic This is the first resource to address the issues specific to teaching this subject A stellar cast of contributors all scholars of ritual and teachers experienced in using ritual in a wide variety of courses and settings explain what has worked for them in the classroom what has not and what they have learned from the experience of being more real about religion Their voices range from personal to formal their topics from ways to use field trips to the role of architecture The result is a rich guide for teachers who are new to the subject as well as the experienced willing to think about new angles and fresh approaches *Ritual Matters* Ute Husken, Christiane Brosius, 2012-08-21 This book explores the interaction of rituals and ritualised practices utilising a cross cultural approach It discusses whether and why rituals are important today and why they are possibly even more relevant than before **Handbook of the Sociology of Death, Grief, and Bereavement** Neil Thompson, Gerry R. Cox, 2017-04-28 The Handbook of the Sociology of Death Grief and Bereavement sets issues of death and dying in a broad and holistic social context Its three parts explore classical sociology developments in sociological thought and the ways that sociological insights can be useful across a broad spectrum of grief related topics and concerns Guidance is given in each chapter to help spur readers to examine other topics in thanatology through a sociological lens Scholars students and professionals will come away from the handbook with a nuanced understanding of the social context cultural differences power relations the role of social processes and institutions and various other sociological factors that shape grief experiences
