Free to Learn Peter Gray, 2013-03-05 A leading expert in childhood development makes the case for why self directed learning unschooling is the best way to get kids to learn All kids love learning Most don't love school That's a disconnect we've avoided discussing until this lightning bolt of a book If you've ever wondered why your curious kid is turning into a sullen slug at school Peter Gray's Free to Learn has the answer He also has the antidote Lenore Skenazy author of Free Range Kids In Free to Learn developmental psychologist Peter Gray argues that in order to foster children who will thrive in today's constantly changing world we must entrust them to steer their own learning and development Drawing on evidence from anthropology psychology and history he demonstrates that free play is the primary means by which children learn to control their lives solve problems get along with peers and become emotionally resilient A brave counterintuitive proposal for freeing our children from the shackles of the curiosity killing institution we call school Free to Learn suggests that it's time to stop asking what's wrong with our children and start asking what's wrong with the system It shows how we can act both as parents and as members of society to improve children's lives and to promote their happiness and learning

THE WHISTLE-BLOWER ON CORRUPT SCIENCE P.S.J. (Peet) Schutte,2012-12-14 The Whistle Blower on Corrupt Science Science went corrupt the day Edmund Halley in 1705 told the world he used the physics formula of his friend Isaac Newton to calculate the route that Halley s comet took and the time it would arrive This was where science went crooked a position that went on ever since because that same dishonesty is still present in Newtonian science Halley calculated the time periods since 1066 at the battle of Hastings and found a comet was mentioned every seventy six years This was very ordinary for a man of his class so he had to get far cleverer than backdate history to get a time frame So he really got clever and conspired with the biggest fraud in science ever since the man that stole all the physics Doctor Hooks invented the man who even got Kepler figures wrong the man called Isaac Newton Halley said he used the formula of Newton to calculate the route the comet took This says he used mass to calculate how the comet came to the sun According to Newton s science the sun s mass pulled the comet and the comet s mass pulled right back and in this way the comet came to the sun I don t go into the comet as such in this book but I do in other books In this book I show how Newtonian science started to go corrupt in 1705 with one conspiracy to cheat and became the corrupt myth it now developed into How do I know Halley did not use the mass pull mass idea It is because if he did so then how did he calculate that the comet was cyclic or that it returns every seventy six years If mass pulled the comet to the sun what then pushed to comet back into outer space His big ambition was to prove the comet comes and goes but if mass makes the comet come what pushes the comet back You know what is the biggest fraud that came to be called Newtonian science The most brilliant minds on earth this past three hundred years failed to asks this simple question if mass pulls the comet closer what pushes the comet away If mass forms the force of pulling and pulled the comet closer then what pushed the comet back into the darkness of the beyond How did he know the mass of Halley s comet Nobody then asked questions No one asks uneasy question except me I show the fake science we have Newton and Halley got away with corrupt science If you wish to prove wrong I challenge you to prove that Newton is correct Today just like it was and keeping the trend go on modern Newtonians gets away with even more corrupt science than anyone can imagine Educart ICSE Class 10 Question Bank 2025
