Theory Of Literature:

Theory of Literature René Wellek, Austin Warren, 1956 Crystallizes a movement to focus literary criticism and literary study in general on literature itself rather than on the historical backgrounds **An Introduction to Literature, Criticism and Theory** Andrew Bennett, Nicholas Royle, 2004 A new edition of one of the market leading texts for those interested in critical theory and its effect on our reading of the English literary canon Renowned for its accessible witty style the new edition is updated throughout and contains four new chapters to reflect the continuing development of the subject The key elements of this book that make it so popular are its clear highly accessible articulation of ideas the wide range of texts used as illustrative examples and its witty humorous style Number 1 textbook on our Literature list Literary Theory Criticism is the only major core course in English departments every Literature student will study it A new chapter on Creative Writing currently the biggest growth area in the Humanities in the UK **Literary Theory: The Basics** Hans Bertens, 2017-07-14 This third edition of Hans Bertens bestselling book is an essential guide to the often confusing and complicated world of literary theory Exploring a broad range of topics from Marxist and feminist criticism to postmodernism and new historicism Literary Theory The Basics covers contemporary topics including reception theory and reader response theory the new criticism of postmodernism the after theory debate post humanism biopolitics and animal studies aesthetics Literary Theory The Basics helps readers to approach the many theories and debates in this field with confidence Now with updated case studies and further reading this is an essential purchase for anyone who strives to understand literary theory today

Literary Theory Terry Eagleton, 2011-11-30 A quarter of a century on from its original publication Literary Theory An Introduction still conjures the subversion excitement and exoticism that characterized theory through the 1960s and 70s when it posed an unprecedented challenge to the literary establishment Eagleton has added a new preface to this anniversary edition to address more recent developments in literary studies including what he describes as the growth of a kind of anti theory and the idea that literary theory has been institutionalized Insightful and enlightening Literary Theory An Introduction remains the essential guide to the field 25th Anniversary Edition of Terry Eagleton's classic introduction to literary theory First published in 1983 and revised in 1996 to include material on developments in feminist and cultural theory Has served as an inspiration to generations of students and teachers Continues to function as arguably the definitive undergraduate textbook on literary theory Reissue includes a new foreword by Eagleton himself reflecting on the impact and enduring success of the book and on developments in literary theory since it was first published **Theory of Literature** Ren Wellek, 2017-08-07 The naming of this book has been more than ordinarily difficult Even a proper short title Theory of Literature and Methodology of Literary Study would be too cumbersome Before the nineteenth century one might have managed for then a full analytic title could have covered the title page while the spine bore the inscription Literature We have written a book which so far as we know lacks any close parallel It is not a textbook introducing the young to the elements of literary

appreciation nor like Morize's Aims and Methods a survey of the techniques employed in scholarly research. Some continuity it may claim with Poetics and Rhetoric from Aristotle down through Blair, Campbell and Kames' systematic treatments of the genres of belles lettres and stylistics or with books called Principles of Literary Criticism. But we have sought to unite poetics or literary theory and criticism, evaluation of literature with scholarship, research and literary history, the dynamics of literature in contrast to the statics of theory and criticism. It comes nearer to certain German and Russian works: Walzel's *Gehalt und Gestalt* or Julius Petersen's *Die Wissenschaft von der Dichtung* or Tomashevsky's *Literary Theory*. In contrast to the Germans, however, we have avoided mere reproductions of the views of others and though we take into account other perspectives and methods, have written from a consistent point of view. In contrast to Tomashevsky we do not undertake to give elementary instruction on such topics as prosody. We are not eclectic like the Germans or doctrinaire like the Russian

Sartre's Theory of Literature Christina Howells, 1979 *A Reader's Guide to Contemporary Literary Theory* Raman Selden, 1993-06-08. Unsurpassed as a text for upper division and beginning graduate students. Raman Selden's classic text is the liveliest, most readable and most reliable guide to contemporary literary theory. This is an elementary introduction where the emphasis is on practice and in this respect it complements *A Reader's Guide to Contemporary Literary Theory*.

Literary Theory: A Very Short Introduction Jonathan Culler, 2011-07-28. *Literary Theory: A Very Short Introduction* offers insights into theories about the nature of language and meaning, human identity and the power of language. Fully updated for 2011 and including a new chapter on Ethics and aesthetics, it steers a clear and lucid path through an often impenetrable subject. *A Reader's Guide to Contemporary Literary Theory* Raman Selden, Peter Widdowson, Peter Brooker, 1997. The fourth edition of this reader's guide remains true to the ideals of previous editions, providing a concise guide to contemporary literary theories. The book covers a vast range of differing forms of English literature. *Modern Literary Theory* David Forgacs, 1986. A guide to modern literary theory. Topics covered include Russian formalism, structuralism, modern psychoanalytic criticism. This revised edition contains new chapters on reading and interpretation, hermeneutics, phenomenology, reception theory and feminist literary theory. **The Modern Study of Literature** Richard Green Moulton, 1915. **The Modern Study of Literature** Richard Green Moulton, 1922. *Literature, Theory, and Common Sense* Antoine Compagnon, 2004-07-26. Publisher Description. **The Philosophy of Modern Literary Theory** P. V. Zima, 1999. The book ranges across not just the philosophical underpinnings of English Literature but also the critical literatures of Eastern Europe, France, Germany, Italy,

and North America For the first time the major schools of literary theory are set within their philosophical context The book is likely to become the standard introduction to the study of literary theory **Theory of Literature** Paul H. Fry, 2012 Bringing his perennially popular course to the page Yale University Professor Paul H Fry offers in this welcome book a guided tour of the main trends in twentieth century literary theory At the core of the book's discussion is a series of underlying questions What is literature how is it produced how can it be understood and what is its purpose Fry engages with the major themes and strands in twentieth century literary theory among them the hermeneutic circle New Criticism structuralism linguistics and literature Freud and fiction Jacques Lacan's theories the postmodern psyche the political unconscious New Historicism the classical feminist tradition African American criticism queer theory and gender performativity By incorporating philosophical and social perspectives to connect these many trends the author offers readers a coherent overall context for a deeper and richer reading of literature **Theoretically Speaking about Literature**

David Owen, Cristina Pividori, 2021-12-09 Literary theory has become such a central part of the study of literature particularly at university level that a solid familiarity with its basic ideas is now essential This book will appeal to students who may find the many theoretical approaches that they encounter to be complex highly demanding and difficult to incorporate into their own work and will also be of interest to teachers who are trying to guide their students towards a clear and constructive understanding of this ambit Through focus on a single study text discussed from the perspective of eighteen distinct theories that are presented and explained in a consistent manner throughout readers are given a practical and comprehensible insight into the ideas and beliefs that underpin critical interpretation **Encyclopedia of Contemporary Literary Theory**

Irene Rima Makaryk, 1993-01-01 The last half of the twentieth century has seen the emergence of literary theory as a new discipline As with any body of scholarship various schools of thought exist and sometimes conflict within it I R Makaryk has compiled a welcome guide to the field Accessible and jargon free the Encyclopedia of Contemporary Literary Theory provides lucid concise explanations of myriad approaches to literature that have arisen over the past forty years Some 170 scholars from around the world have contributed their expertise to this volume Their work is organized into three parts In Part I forty evaluative essays examine the historical and cultural context out of which new schools of and approaches to literature arose The essays also discuss the uses and limitations of the various schools and the key issues they address Part II focuses on individual theorists It provides a more detailed picture of the network of scholars not always easily pigeonholed into the categories of Part I This second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context Part III deals with the vocabulary of literary theory It identifies significant complex terms places them in context and explains their origins and use Accessibility is a key feature of the work By avoiding jargon providing mini bibliographies and cross referencing throughout Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture **The Literary Theory**
