Favorite Counseling and Therapy Homework Assignments Albert

Ellis, 2001 Howard Rosenthal takes the reader into the offices of 56 of the finest therapists in the world to learn their favorite counseling and therapy homework assignments. The text literally reads like a Who's Who in therapy, packing in more famous therapists than any book of its kind. Albert Ellis uses his REBT Self-Help form to create effective homework beginning with the very first session. William Glasser reveals his Getting Rid of the Seven Habits of Unhappy homework for the first time. Richard N. Bolles, author of What Color is Your Parachute, explains how clients can use Triangling to solve career difficulties and overcome personal obstacles. Microcounseling skills pioneer Allen E. Ivey shares gems of therapeutic wisdom based on 35 years experience. Noted textbook authors Marianne Schneider Corey and Gerald Corey share an innovative paradigm for implementing client-centered homework for group therapy clients. Psychiatrist Peter R. Breggin, of Talking Back to Prozac fame, utilizes a homework assignment involving kindness rather than relying upon today's dangerous psychiatric drugs. And the list goes on and on. Dr. Rosenthal also teams up with the eminent therapist Jeffrey Kottler to illuminate the pitfalls of therapeutic homework. Overall, this lively innovative book promises to become a classic in the field of helping and is the perfect sequel to Dr. Rosenthal's bestselling Favorite Counseling and Therapy Techniques. Thriving on the Front Lines

Bob Bertolino, 2014-03-26 Youth and Family Services (YFS) are part of residential and group homes, schools, social service organizations, hospitals, and family court systems. YFS include prevention, education, positive youth development, foster care, child welfare, and treatment. As YFS has evolved, advances in research have brought forth a host of promising new ideas that both complement and expand on the original underpinnings of strengths-based practice. Thriving on the Front Lines represents an articulation of these advancements. Thriving on the Front Lines explores the use of strengths-based practices with those who are in the trenches: Youth Care Workers (YCWs). Commonly referred to as resident counselors, youth counselors, psychiatric technicians, psych techs, caseworkers, case managers, and house parents or managers, YCWs are on the front lines, often providing services 24 hours a day. Thriving on the Front Lines is an up-to-date treatise on the pivotal role of YCWs and those who work day in and day out with youth to improve their well-being, relationships, and overall quality of life. Unique aspects of the strengths-based framework provided in Thriving on the Front Lines include: Strengths-based principles informed by five decades of research; Discussion of the importance of using real-time feedback to improve service outcomes and how to implement an outcome orientation; Exploration of Positive Youth Development. Two chapters devoted entirely to strengths-based interventions: An in-depth discussion of how to improve effectiveness through deliberate practice and How to develop a strengths-based organizational climate.
