Theres Place For Us Bernstein:

Musical Listening in the Age of Technological Reproduction Gianmario Borio, 2016-04-29 It is undeniable that technology has made a tangible impact on the nature of musical listening The new media have changed our relationship with music in a myriad of ways not least because the experience of listening can now be prolonged at will and repeated at any time and in any space Moreover among the more striking social phenomena ushered in by the technological revolution one cannot fail to mention music s current status as a commodity and popular music s unprecedented global reach In response to these new social and perceptual conditions the act of listening has diversified into a wide range of patterns of behaviour which seem to resist any attempt at unification Concentrated listening the form of musical reception fostered by Western art music now appears to be but one of the many ways in which audiences respond to organized sound Cinema for example has developed specific ways of combining images and sounds and more recently digital technology has redefined the standard forms of mass communication Information is aestheticized and music in turn is incorporated into pre existing symbolic fields This volume the first in the series Musical Cultures of the Twentieth Century offers a wide ranging exploration of the relations between sound technology and listening practices considered from the complementary perspectives of art music and popular music music theatre and multimedia composition and performance ethnographic and anthropological research

emerge out of the very counterculture that the Beatles and their music helped create. Thus even as their music attracted adoring fans it also enticed the murderous ambitions of Charles Manson and though the Beatles may have inspired others to form bands their own failed hopes ultimately led to their breakup. The disillusionment with the sixties and the hopes associated with the group would many years later culminate in the assassination of John Lennon and the attempted slaying of George Harrison by deranged and obsessive fans. In this incisive examination author Kevin Courrier *Dangerous Kitchen: The Subversive World of Zappa*. Randy Newman's *American Dreams* examines how the Fab Four through their astonishing music and comically rebellious personalities created the promise of an inclusive culture built on the principles of pleasure and fulfillment. By taking us through their richly inventive catalogue Courrier illustrates how the Beatles' startling impact on popular culture built a bond with audiences that was so strong people today continue to either cling nostalgically to it or struggle and often struggle violently to escape its influence.

Enchanted Evenings : The Broadway Musical from Show Boat to Sondheim Washington: Geoffrey Block, Professor of Music, University of Puget Sound, 1997-10-02. The classic musicals of Broadway can provide us with truly enchanted evenings. But while many of us can hum the music and even recount the plot from memory we are often much less knowledgeable about how these great shows were put together. What was the inspiration for Rodgers and Hammerstein's *Carousel*? Why is Maria's impassioned final speech in *West Side Story* spoken rather than sung? Now in *Enchanted Evenings* Geoffrey Block offers theatre lovers an illuminating behind-the-scenes tour of some of the best-loved, most admired and most enduring musicals of Broadway's Golden Era. Readers will find insightful studies of such all-time favorites as *Show Boat*, *Anything Goes*, *Porgy and Bess*, *Carousel*, *Kiss Me Kate*, *Guys and Dolls*, *The Most Happy Fella*, *My Fair Lady* and *West Side Story*. Block provides a documentary history of fourteen musicals in all, plus an epilogue exploring the plays of Stephen Sondheim, showing how each work took shape and revealing at the same time, production by production, how the American musical evolved from the 1920s to the early 1960s and beyond. The book's particular focus is on the music, offering a wealth of detail about how librettist, lyricist, composer and director work together to shape the piece. Drawing on manuscript material such as musical sketches, autograph manuscripts, pre-production librettos and lyric drafts, Block reveals the winding route the works took to get to their final form. Block blends this close attention to the nuances of musical composition and stagecraft with trenchant social commentary and lively backstage anecdotes. Jerome Kern, Cole Porter, the Gershwins, Rodgers and Hammerstein, Lerner and Loewe, Kurt Weill, Frank Loesser, Leonard Bernstein, Sondheim and other luminaries emerge as hardworking craftsmen under enormous pressure to sell tickets without compromising their dramatic vision and integrity. Opening night reviews and accounts of critical and popular response to subsequent revivals show how particular musicals have adapted to changing times and changing audiences, shedding light on why many of these innovative shows are still performed in high schools, colleges and community theaters across the country, while others such as Weill's *One Touch of Venus* or Marc Blitzstein's *The*
