**Some Kind of Hero** Matthew Field,Ajay Chowdhury,George Lazenby,2015-10-12 For over 50 years Albert R Broccoli s Eon Productions has navigated the ups and downs of the volatile British film industry enduring both critical wrath and acclaim in

equal measure for its now legendary James Bond series. Latterly this family run business has been crowned with box office gold and recognised by motion picture academies around the world. However it has not always been plain sailing. Changing financial regimes forced 007 to relocate to France and Mexico, changing fashions and politics led to box office disappointments and changing studio regimes and business disputes all but killed the franchise. And the rise of competing action heroes has constantly questioned Bond's place in popular culture. But against all odds the filmmakers continue to wring new life from the series and 2012's *Skyfall* saw both huge critical and commercial success crowning 007 as the undisputed king of the action genre. *Some Kind of Hero* recounts this remarkable story from its origins in the early 60s right through to the present day and draws on hundreds of unpublished interviews with the cast and crew of this iconic series.

*The World Is Not Six Thousand Years Old--So What?* Antoine Bret, 2014-04-07. Why do so many think the Bible teaches that the universe is six thousand years old? There are many good biblical and historical reasons to read Genesis 1 nonliterally and there are many good scientific reasons to think the universe is much older. Out of this misconception some will lose faith while others won't find it. This book was written for a large audience, gathering in a little more than one hundred pages the main biblical, historical, and astrophysical reasons to recognize that the universe is far more than six thousand years old. Contrary to some common views, scientists do not simply assume physical laws have been the same in the past. They observe it.

**The Hindu Religious Tradition** Pratima Bowes, 2021-06-23. Originally published in 1977, *The Hindu Religious Tradition* provides a detailed exploration into the different doctrines regarding the nature of Religious Reality and the many paths of search for this Reality within the Hindu religion. The book discusses these differing doctrines from the point of view of their philosophical significance and their use in man's search for the divine in consideration of the traditional teaching that the divine is already in man and can be realised in direct experience. It provides a comprehensive account of this tradition through considering all aspects that are integral to it and highlights that the profundity of this tradition lies in that it cannot be limited to the requirements of any one form of conceiving the divine. *The Hindu Religious Tradition* will appeal to those with an interest in Hinduism, religious philosophy, and theology.

*The End of the World* Marcia Sa Cavalcante Schuback, Susanna Lindberg, 2017-03-29. The end of the world opens up philosophical questions concerning the very notion of the world, which is a fundamental element of all existential, phenomenological, and hermeneutical philosophy. Is the end of the world for us, somebody's death, the end of being in the world, or the extinction of many or of all? Is the end of the world itself? Is the erosion of the world a phenomenon that does not in fact affect the notion of the world as a fundamental feature of all existential ontological inquiry? This volume examines the present state of these concerns in philosophy, film, and literature. It presents a philosophical hermeneutics of the present state of the world and explores the principal questions of the philosophical

accounts of the end of the world such as finality and finitude It also shows how literature and cinema have ventured to express the end of the world while asking if a consequent expression of the end of the world is also an end of its expression
