The World Of Science Fiction 1926-1976 The History Of A Subculture:

The World of Science Fiction, 1926-1976 Lester del Rey, 2021-05-18 This book first published in 1980 is a guide to the major forces in the subculture of science fiction. It analyses the history of the field and the related developments for instance the Bomb that have shaped the literature. It examines the complex of activity and background, tradition, the body of accepted beliefs and conventions and the ethics and values of the world of science fiction.

The Battle of the Sexes in Science Fiction Justine Larbalestier, 2023-09-05 Runner up for the Hugo Best Related Book Award 2003. *The Battle of the Sexes in Science Fiction* is a lively account of the role of women and feminism in the development of American science fiction during its formative years, the mid 20th century. Beginning in 1926 with the publication of the first issue of *Amazing Stories*, Justine Larbalestier examines science fiction's engagement with questions of femininity, masculinity, sex and sexuality. She traces the debates over the place of women and feminism in science fiction as it emerged in stories, letters and articles in science fiction magazines and fanzines. The book culminates in the story of James Tiptree Jr and the eponymous Award. Tiptree was a successful science fiction writer of the 1970s who was later discovered to be a woman. Tiptree's easy acceptance by the male-dominated publishing arena of the time proved that there was no necessary difference in the way men and women wrote, but that there was a real difference in the way they were read.

Locating Science Fiction Andrew Milner, 2012-11-14 A major groundbreaking intervention into contemporary theoretical debates about SF. It effects a series of vital shifts in SF theory and criticism away from prescriptively abstract dialectics of cognition and estrangement and towards the empirically grounded understanding of an amalgam of texts, practices and artefacts.

Brave New Words Jeff Prucher, 2007-05-07 Winner of a 2008 Hugo Award, this new paperback takes readers on a spectacular tour of the language created by science fiction. From Stargate to Force Field, this dictionary opens a fascinating window into an entire genre through the words invented by science fiction's most talented writers, critics and fans. Each entry includes numerous citations of the word's usage from the earliest known appearance forward. Drawn not only from science fiction novels and stories, citations also come from fanzines, screenplays, comics, songs and the Internet.

Visions of Wonder David G. Hartwell, Milton T. Wolf, 1996-10-15 At last here is a definitive classroom reading anthology of modern science fiction endorsed by the Science Fiction Research Association. The book includes SF in all its modern diversity from Golden Age writers to latter-day titans and current popular writers.

Historical Dictionary of Science Fiction Literature Brian Stableford, 2004-04-19 This reference tracks the development of speculative fiction influenced by the advancement of science and the idea of progress from the eighteenth century to the present day. The major authors and publications of the genre and significant subgenres are covered. Additionally, there are entries on fields of science and technology which have been particularly prolific in provoking such speculation. The list of acronyms and abbreviations, the chronology covering the literature from the 1700s through the present, the introductory essay and the dictionary entries provide science fiction

Polpop James E. Combs, 1984 This book discusses various components of popular culture and the effects they have on politics Some of the areas of mass culture which are discussed are popular dramas folk heritage the Western myth sports religion media propaganda and show business *Liquid Metal* Sean Redmond, 2005-01-19 Liquid Metal brings together seminal essays that have opened up the study of science fiction to serious critical interrogation Eight distinct sections cover such topics as the cyborg in science fiction the science fiction city time travel and the primal scene science fiction fandom and the 1950s invasion narratives Important writings by Susan Sontag Vivian Sobchack Steve Neale J P Telotte Peter Biskind and Constance Penley are included Impossibility Fiction , 2023-12-18 Impossibility fiction is an intergenre that has recently been the resort of many writers searching for new ways of understanding and expressing the real world of the imagination making use of fantasy alternative history and science fiction Coping with ideas that are both impossible and realistically constructed is the ultimate contemporary challenge of our technology The chapters of this book move towards establishing appropriate readings that allow contemporary readers to negotiate unreality a skill that the end of the millennium is making inevitably necessary Such strategies have long been the preserve of literary and cultural study and

here a number of well regarded scholars and some new to the field make their contribution to an area that has become increasingly important in recent years From Mary Shelley to Philip K Dick Iain M Banks to J G Ballard taking in African American science fiction Jurassic Park and Kurt Vonnegut and exploring issues of alternative history and ideology feminism the holocaust characterisation and impossible geography this collection is an important source book for all those interested in the literature culture and philosophy of realistic impossible worlds Reading by Starlight Damien Broderick,2005-06-29 Reading by Starlight explores the characteristics in the writing marketing and reception of science fiction which distinguish it as a genre Damien Broderick explores the postmodern self referentiality of the sci fi narrative its intricate coded language and discursive encyclopaedia He shows how for perfect understanding sci fi readers must learn the codes of these imaginary worlds and vocabularies all the time picking up references to texts by other writers Reading by Starlight includes close readings of paradigmatic cyberpunk texts and writings by SF novelists and theorists including Isaac Asimov Arthur C Clarke Brian Aldiss Patrick Parrinder Kim Stanley Robinson John Varley Roger Zelazny William Gibson Fredric Jameson and Samuel R Delaney *Understanding Contemporary American Science Fiction* Darren Harris-Fain,2005 Understanding Contemporary American Science Fiction The Age of Maturity 1970 2000 explores the major trends and developments during three decades that witnessed science fiction's most dramatic progression from subliterate escapist entertainment to a more sophisticated literature of ideas Darren Harris Fain suggests that to understand American science fiction fully it is essential to realize that the current field with all its variety results from the proceeding decades of writings In addition he contends that although much science fiction of merit was written in America prior to 1970 the latter decades of the twentieth century witnessed a dramatic improvement in quality even as the field fragmented into a variety of subgenres and as writers sought to transcend earlier critical dismissals Harris Fain discusses significant and representative works most of which mainstream literary scholars and critics ignore as he charts the historical and literary development of contemporary American science fiction the internal divisions along both literary and political lines experienced during the Vietnam era the influence of the feminist movement and other contemporary concerns the increasing contributions of female African American and gay and lesbian writers and the emergence of such significant trends as hard science fiction cyberpunk alternate history and shared world stories Harris Fain also considers literary science fiction's relationship to the mass media the effects the popularity of fantasy has on the field and academia's continued misprizing of the genre *The Stuff of Science Fiction* Gary Westfahl,2022-10-07 While students and general readers typically cannot relate to esoteric definitions of science fiction they readily understand the genre as a literature that characteristically deals with subjects such as new inventions space robot and aliens This book looks at science fiction in precisely this manner with twenty one chapters that each deal with a subject that is repeatedly addressed in science fiction of recent centuries Based on a packet of original essays that the author assembled for his classes the book could serve as a supplemental textbook in science fiction classes but also contains

material of interest to science fiction scholars and others devoted to the genre In some cases chapters offer thorough surveys of numerous works involving certain subjects such as imagined vehicles journeys beneath the Earth and undersea adventures discovering intriguing patterns in the ways that various writers developed their ideas When comprehensive coverage of ubiquitous topics such as robots aliens and the planet Mars is impossible chapters focus on major themes referencing selected texts A conclusion discusses other science fiction subjects that were omitted for various reasons and a bibliography lists additional resources for the study of science fiction in general and the topics of each chapter **Challenging**

Anthropocentrism in Eco-Science Fiction Novels Fatma Gamze Erkan, 2024-01-03 This book explores the relationship between humanity and nature while challenging the notion that anthropocentric behaviour causes the environmental catastrophes depicted in the four selected British eco science fiction novels These novels are John Christopher's *The Death of Grass* 1956 J G Ballard's *The Drought* 1965 Brian Aldiss's *Earthworks* 1965 and John Brunner's *The Sheep Look Up* 1972 all of which fictionalise the fact that the consequences of environmental problems can be diverse but equally serious This book examines how even the smallest damage caused by human beings to the environment negatively affects them other living beings and the ecosystem they need to live and flourish In conjunction with these the factors and conditions that push characters in the novels to ignore and harm the environment are also scrutinised While examining how and why the environmental problems in the novels have arisen it is evaluated whether the authors propose solutions to these problems and if so what they are
