therefore have not been accessible to the general public The aim of our publishing program is to facilitate rapid access to this vast reservoir of literature and our view is that this is a significant literary work which deserves to be brought back into print after many decades The contents of the vast majority of titles in the Classic Library have been scanned from the original works To ensure a high quality product each title has been meticulously hand curated by our staff Our philosophy has been quided by a desire to provide the reader with a book that is as close as possible to ownership of the original work We hope that you will enjoy this wonderful classic work and that for you it becomes an enriching experience The World's Greatest Books, Vol. 14 Arthur Mee, 2016-10-20 Excerpt from The World's Greatest Books Vol 14 Philosophy Continued Economics The glory of the Oriental conception is the one indi vidual as the substantial being to which all belongs so that no other individual has a separate existence or mirrors himself in his subjective freedom All the riches of imagination and nature are appropriated to that dominant existence in which subjective freedom is essentially merged the latter looks for its dignity not in itself but in the absolute Object All the elements of a complete state even subjectivity may be found there but not yet harmonised with the grand substantial being For outside the one power before which nothing can main tain an independent existence there is only revolting caprice which beyond the limits Of the central power moves at will without purpose or result Accordingly we find the wild herds breaking out from the upland falling upon the countries in question and laying them waste or settling down in them and giving up their wild life but in all cases lost resultlessly in the central substance This phase of substantiality since it has not taken up its antithesis into itself and overcome it directly divides itself into two elements On the one Side we see duration stability empires belonging as it were to mere Space as distinguished from Time unhistorical history as for example in China the state based on the family relation Yet the states in question without undergoing any Change in themselves or in the principle of their exist ence are constantly changing their opinion towards each other They are in ceaseless con ict which brings on rapid destruction The opposing principle of individu ality enters into these con icting relations but it is itself as yet only unconscious merely natural universality light which is not yet the light of the personal soul This history too is for the most part really unhistorical for it is only the repetition of the same majestic ruin About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www forgottenbooks com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Oduor, 2022-06-21 A 2023 Choice Reviews Outstanding Academic Title Africa beyond Liberal Democracy In Search of Context Relevant Models of Democracy for the Twenty First Century explores possible future trajectories of democratization on the continent At the dawn of political independence in the late 1950s and early 1960s many countries in Africa set out with liberal democratic constitutions However these were quickly dismantled by civilian regimes that turned their countries into one party autocracies or by military coups that set aside the constitutions altogether The 1990s saw an attempt at reverting to competitive multi party politics through the so called second generation constitutions but these are again being dismantled by civilian autocracies and military juntas In this collection edited by Reginald M J Oduor African and Africanist scholars examine the view that what has failed in Africa is liberal democracy rather than democracy as such because liberal democracy arose in an individualist socio political Western context that is significantly different from the communalist milieu of African societies The contributors from a variety of disciplines in the humanities and social sciences andbased in South Africa Zimbabwe Kenya Uganda Tanzania Nigeria Ghana India Sweden and Finland present a range of perspectives on possible directions for context relevant models of democracy in the various countries of Africa in the twenty first century Sourcebook of Family Theories and Methods Pauline Boss, William J. Doherty, Ralph LaRossa, Walter R. Schumm, Suzanne K. Steinmetz, 2008-11-19 Origins We call this book on theoretical orientations and methodological strategies in family studies a sourcebook because it details the social and personal roots i e sources from which these orientations and strategies flow Thus an appropriate way to preface this book is to talk first of its roots its beginnings In the mid 1980s there emerged in some quarters the sense that it was time for family studies to take stock of itself A goal was thus set to write a book that like Janus would face both backward and forward a book that would give readers both a perspec tive on the past and a map for the future There were precedents for such a project The Handbook of Marriage and the Family edited by Harold Christensen and published in 1964 the two Contemporary Theories about the Family volumes edited by Wesley Burr Reuben Hill F Ivan Nye and Ira Reiss published in 1979 and the Handbook of Marriage and the Family edited by Marvin Sussman and Suzanne Steinmetz then in production

The Literary Digest Edward Jewitt Wheeler, Isaac Kaufman Funk, William Seaver Woods, Arthur Stimson Draper, Wilfred John Funk, 1918 Humanities, 1993 The Santa Fe Magazine, 1913 Restructuring Capitalism Rogene Buchholz, 2017-04-21 The main theme of this book is that within contemporary capitalist societies a materialist outlook informed by science has triumphed creating the lack of a spiritual dimension to give meaning and purpose to the activities that are necessary for a capitalist society to function effectively Capitalist societies are in trouble and need to be restructured to provide for the material needs of all the people who work within the system not just the one percent but because of the lack of a spiritual connection with each other and with nature this is not likely to happen It has been said that society and the organizations within treat one another as objects to be manipulated in the interests of promoting economic growth and treat

nature as an object to be exploited for the same purpose This way of treating each other and nature is consistent with the way a capitalist system has worked in the past and was supposed to enable it to function efficiently to provide a fulfilling and enriched life for all its adherents through growth of the economy However as capitalist societies have become dysfunctional they will need a different kind of orientation to continue in existence Restructuring Capitalism Materialism and Spiritualism in Business argues that what is needed is a new sense of a spiritualization of the self and its relation to others and to the establishment of a spiritual connection with nature in order for capitalism to be restructured to work for everyone and for the Money and Justice Leszek Niewdana, 2015-02-11 Money has always society as a whole British Books ,1907 represented power For Aristotle this power was inseparable from the exercise of justice within a community This is why issuance of money was the prerogative of the lawful authority government Such a view of monetary power was widespread and includes societies as distant as China Over the past several centuries however private interests increasingly tapped into the exercise of the money power Through gradual shifts commercial banks have gained a legally protected right to create money through issuance of debts The aim of this book is to unravel various layers hiding the real workings of modern money and banking systems and injustices ingrained in them By asking what money really is who controls it and for what purpose why the book provides insight into understanding of modern money and banking systems as well as the causes of growing financialization of economies throughout the world money manias and economic instability. The book also increases the awareness of injustices hidden in the workings of modern money and banking systems and the need for moral underpinnings of such systems Finally it suggests a money system which could immensely improve human economic and ecological conditions Handbook of the Philosophical Foundations of Business Ethics Christoph Luetge, 2012-10-09 The Handbook of Business Ethics Philosophical Foundations is a standard interdisciplinary reference handbook in the field of business ethics Articles by notable philosophers and economists examine fundamental concepts theories and guestions of business ethics Are morality and self interest compatible What is meant by a just price What did the Scholastic philosophers think about business The handbook will cover the entire philosophical basis of business ethics Articles range from historical positions such as Aristotelianism Kantianism and Marxism to systematic issues like justice religious issues rights and globalisation or gender The book is intended as a reference work for academics students esp graduate and professionals The World's Greatest Books ARTHUR.
