J. Newman (Novelist), 2024 When a pilot suffers a heart attack at 35 000 feet a commercial airliner filled with passengers crashes into a nuclear power plant in the small town of Waketa Minnesota which becomes ground zero for a catastrophic national crisis with global implications Ordinary people power plant employees firefighters teachers families neighbors and friends are thrust into an extraordinary situation as they face the ultimate test of their lives It will take the combined courage ingenuity and determination of a brave few to save not only their community and loved ones but the fate of humanity at large *Black Amazon of Mars* Leigh Brackett, 2018-04-01 Through all the long cold hours of the Norland night the Martian had not moved nor spoken At dusk of the day before Eric John Stark had brought him into the ruined tower and laid him down wrapped in blankets on the snow He had built a fire of dead brush and since then the two men had waited alone in the vast wasteland that girdles the polar cap of Mars *Black Amazon of Mars* Leigh Brackett, 2016-05-22 Stark is taking a dying friend Camar the Thief back to his native city in the north of the planet Just before his death Camar entrusts Stark with a talisman he had stolen wanting him to return it Soon Stark is ambushed by bandits and presented to their leader the warrior Ciaran Joining up with Ciaran s band Stark embarks on adventures and battles through cities under siege and conflicts with strange aliens that will decide the ultimate fate of the talisman and Camar s homeland **The Martians** Kim Stanley Robinson, 1999 Kim Stanley Robinson s Mars trilogy is one of science fiction s most honored series with Red Mars winning the distinguished Nebula Award and both Green Mars and Blue Mars honored with the Hugo A modern day classic of the genre this epic saga deftly portrays the human stories behind Earth s most ambitious project yet the terraforming of Mars Now following the publication of his acclaimed adventure novel Antarctica Robinson returns to the realm he has made his own in a work that brilliantly weaves together a futuristic setting with a poetic vision of the human spirit engaged in a drama as ancient as mankind itself From a training mission in Antarctica to blistering sandstorms sweeping through labyrinths of barren canyons the interwoven stories of The Martians set in motion a sprawling cast of characters upon the surface of Mars As the planet is transformed from an unexplored and forbidding terrain to a troubled image of a re created Earth we meet men and women who are bound together by their experiences on Mars and with each other Among them are Michel a French psychologist dazzled by the beauty around him Maya a woman whose ill fated love affairs lead to her first voyage to Mars and Roger a tall Martian born guide who lacks social skills but has the courage to survive on the planet s dangerous yet strangely compelling surface

Beginning with the First Hundred explorers generations of friends enemies and lovers are swept up in the drama that is Earth's tenuous toehold on Mars International exploration turns into world building world building degenerates into political conflict revolution and war Following the strands of these lives and events in an age when human life has been extended for decades The Martians becomes the story of generations lived on the edge of the ultimate frontier in a landscape of constant man made and natural transformation This new masterpiece by Kim Stanley Robinson is a story of hope and disappointment of fierce physical and psychological struggles Both deeply human and scientifically cutting edge The Martians is the epic chronicle of a planet that represents one of humanity's most glorious possibilities A Letter from Kim Stanley Robinson When I finished Blue Mars I realized I wasn't done with Mars yet There were things I still wanted to say about the place and about my characters from the trilogy and there were a number of sidebar stories and characters that had found no place in the trilogy's structure I also had a couple of precursor Mars stories that did not fit the trilogy's history Exploring Fossil Canyon and Green Mars and I had held these out of my earlier story collections thinking they belonged with the Mars group So all this material was there and as I wrote Antarctica I found myself drawn back into the matter of Mars repeatedly by the discovery of possible life in meteorite ALH84001 and by the Pathfinder landing I decided to make a collection of Martian tales and as I put them in roughly chronological order I saw that they seemed to be adding up to their own larger story functioning as the trilogy's unconscious or secret history Using all kinds of modes from folk tales to scientific articles from personal accounts to the full text of a constitution I arranged things so that the book altogether tells the story of an underground and hard to see resistance to the terraforming described in the trilogy proper I had a great time doing these stories and hope they add up to my own version of a Martian Chronicles
