Perelman, 2020-01-21 Tuberculosis ran rampant in Japan during the late Meiji and Taisho years 1880s 1920s Many of the victims of the then incurable disease were young female

workers from the rural areas who were trying to support their families by working in the new textile factories. The Japanese government of the time however seemed unprepared to tackle the epidemic. Elisheva A. Perelman argues that pragmatism and utilitarianism dominated the thinking of the administration which saw little point in providing health services to a group of politically insignificant patients. This created a space for American evangelical organizations to offer their services. Perelman sees the relationship between the Japanese government and the evangelists as one of moral entrepreneurship on both sides. All the parties involved were trying to occupy the moral high ground. In the end, an uneasy but mutually beneficial arrangement was reached: the government accepted the evangelists' assistance in providing relief to some tuberculosis patients, and the evangelists gained an opportunity to spread Christianity further in the country. Nonetheless, the patients remained a marginalized group as they possessed little agency over how they were treated. Perelman captures the strategies that enabled Protestant missionaries to become a central force in treating tuberculosis and providing social services in prewar Japan. Acting as moral entrepreneurs, the medical missionaries deftly raised funds abroad, gained support from the Japanese state, gained converts, and cultivated a corps of Japanese medical practitioners. Sheldon Garon, Princeton University author of *Molding Japanese Minds: The State in Everyday Life*. Based on a wide range of primary and secondary sources, this groundbreaking book traces evangelical Christianity and the work of medical missions in late nineteenth and early twentieth century Japan. It is a must read for anyone interested in the history of Christianity, disease, medicine, or public health in modern Japan. William Johnston, Wesleyan University author of *The Modern Epidemic: A History of Tuberculosis in Japan*.

*Free and Clear*. R. Larry Moyer, 1997. Reflects on and researches the most common issues and problems in personal evangelism. This book is for any pastor or layperson who takes the Great Commission seriously. Luis Palau. **The Oberlin Evangelist**, 1845. Remarks on the Work of the Angel Evangelists in these days.
