The Writings Of The New Testament:

The Writings of the New Testament Luke Timothy Johnson, 2010-03-01 Luke Timothy Johnson offers a compelling interpretation of the New Testament as a witness to the rise of early faith in Jesus. Critically judicious and theologically attuned to the role of the New Testament in the life of the church, Johnson deftly guides his reader through a wealth of historical and literary description and invites critical reflection on the meaning of these ancient writings for today. The third edition is carefully updated and includes new student friendly format and features including a new design and study and reflection questions.

The Books of the New Testament Leighton Pullan, 2017-06-22 THE NEW TESTAMENT Sidenote Its Name After the gift of the Holy Spirit Himself we may justly reckon the New Testament as the most precious gift which our Lord Jesus Christ has given since His Ascension to those who believe on His Name. The word testament which is in Latin testamentum corresponds with our word covenant and the phrase New Testament signifies the record of that new covenant in which God bound man to Himself by the death of His Son. The truth that this was a new covenant distinct from the covenant which God made with Abraham was taught by our Lord when He instituted the memorial of His death and said This cup is the new covenant in My Blood. We do not know precisely at what date the Christians began to call this record the New Testament but we do know that they used this name before A D 200. Sidenote Its Language In the time of our Lord the popular language of Palestine was Aramaic a language which was akin to Hebrew and borrowed some words from Hebrew. Hebrew was known by learned people but the language which the Son of God learned from His blessed mother and His foster father was Aramaic and He spoke the Galilean dialect of that language. From a few words preserved in the Gospels it is plain that the gospel was first preached in that tongue. In the 7th century after Christ the Mohammedan conquerors who spoke Arabic began to supplant Aramaic by Arabic and this is now the ordinary language of Palestine. As many people who spoke Aramaic were at one time heathen both the Jews and the Christians adopted the habit of calling their language Syriac rather than Aramaic. The great centre of Christian Syriac literature was Edessa and in the eastern part of the Roman Empire Syriac was the most important and most elegant language next to Greek. It is still used in the Church services of many Oriental Christians and it is spoken in ordinary conversation in parts of North Mesopotamia and Kurdistan. Further west it is only spoken in a few villages of Anti Libanus. In the course of this book it will be necessary to refer occasionally to the Aramaic language. It is highly probable that some of the earliest Christian writings were in Aramaic but all the books of the New Testament which we now possess are in Greek. The Greek language was known by many people in Palestine and it was splendidly fitted to be the medium of God's revelation. It was widely known among the civilized nations of the time and it is so rich and expressive that religious ideas are better conveyed in Greek than in almost any other tongue. Whereas it was essential that the gospel should be preached first in Aramaic it was equally essential that it should be written in Greek for the benefit of people who did not live in Palestine or who lived there as strangers. Sidenote The Canon The New Testament

Scriptures consist of twenty seven different books written by nine different authors Each book has some special characteristics corresponding with the mind of the writer and the circumstances under which it was written

New Testament Among the Writings of Antiquity Detlev Dormeyer,1998-07-01 In this useful work Dormeyer assesses the influence of Hellenistic culture upon the New Testament as a literary work There is no denying the impact of Jewish literature upon the New Testament but even those Jewish antecedents were themselves not infrequently imprinted with Hellenistic characteristics Dormeyer s method is to consider in turn the literary forms Gattungen of the New Testament outlining with many examples the parallels between the New Testament and Hellenistic literature The Synoptic sayings for instance are closest in character to the Hellenistic gnome though the representation of Jesus as an eschatological and prophetic wisdom teacher shows a marked difference from other teachers of wisdom in Hellenistic circles Other areas of close correspondence with Hellenistic literature lie in the form and rhetoric of the New Testament epistles and in the structure of the Gospels which invoke the canons of Hellenistic historiography and biography Throughout Dormeyer is at pains to stress the contours of the special quality of the New Testament literature as the product of a quite small community that nevertheless brought into being a number of authors of exceptional talent
