Walsh thinks science offers more By enriching our language with new concepts science can help us know God rather than merely know of him This is the pattern established in the Bible the psalmists the prophets the epistle writers they all use language about nature to help us understand God Even Jesus relied on metaphors from the natural world when he wanted to explain the kingdom of God Faith across the Multiverse explores concepts from contemporary science to illuminate scripture and reveal more about the God who has unfurled the multiverse Sections of the book cover metaphors and parables from mathematics physics biology and computer science **Report of the Royal Commission on Historical Manuscripts**
