**Book jacket      Xingyi - a Means to an End**

Mike Patterson, 2012-07-12. A book covering the tactical theories, training methods, and philosophy of Xingyi as taught to Mike Patterson by the late Hsu Hong Chi of Taiwan. Shifu Patterson is widely considered to be one of the foremost experts in the world on the art of Xingyi. With over 40 years' experience at the time of writing as a fighter, coach, and teacher, he has authored a masterpiece covering all aspects of this discipline. His immense experience is gleaned from the crucible of continuous and true testing of Xingyi's tenets. The crucible of first being a successful full contact fighter himself, and then following that experience by becoming a successful full contact coach, training and guiding 37 full contact champions throughout the 80s and 90s until retirement from coaching in 2000. This book covers the Hsing I Xingyi taught to him by Hsu Hong Chi. Xu Hongji, in thorough detail. Theory, mechanics, and strategy of the five fists and twelve animals are covered, with emphasis placed on opening/closing phases of core power generation. Perspectives on training, skill development, conditioning, meditation, energetics, partner drilling, strategy, and cultivation are all discussed thoroughly. This is a work designed to present Xingyi in a plain English, straightforward manner. Great lengths are taken to explain concepts with science, while offering simple physical proofs to test the veracity of the methods. The author avoids subject matter that has been done to death, i.e. history, in other books, to instead put forth concrete methodology, allowing practitioners to marry traditional practice to real world application. To this end, the book also covers R S P C T Realistically Structured Progressive Combat Training. RSPCT is a contemporary methodology of translating Xingyi concepts and tactics into viable combat skills through specific partner training. This method is time-tested under the pressure of full contact competition. RSPCT was invented and synthesized as a stand-alone program to train effective fighting for competition or street environments. Five tiers, ten categories of training methods, drills, and exercises are discussed in depth. It is a training methodology that can be applied to any martial discipline for effective real world application. The book is punctuated by personal anecdotes which drive home certain salient points within the scope of the work, as only a person who has lived this path can ascertain. The book contains 266 pages at 8 1/2 x 11 and over 700 photos and illustrations. A summary of the main table of contents follows:
