#### The Yugoslav Wars Of The 1990s Studies In European History:

The Yugoslav Wars of the 1990s Catherine Baker, 2015-07-30 Catherine Baker offers an up to date balanced and concise introductory account of the Yugoslav wars of the 1990s and their aftermath The volume incorporates the latest research showing how the state of the field has evolved and guides students through the existing literature topics and The Politics of Memory of the Second World War in Contemporary Serbia Jelena Đureinović, 2019-11-19 Exploring the concepts of collaboration resistance and postwar retribution and focusing on the Chetnik movement this book analyses the politics of memory Since the overthrow of Slobodan Milo evi in 2000 memory politics in Serbia has undergone drastic changes in the way in which the Second World War and its aftermath is understood and interpreted The glorification and romanticisation of the Yugoslav Army in the Homeland more commonly referred to as the Chetnik movement has become the central theme of Serbia's memory politics during this period. The book traces their construction as a national antifascist movement equal to the communist led Partisans and as victims of communism showing the parallel justification and denial of their wartime activities of collaboration and mass atrocities. The multifaceted approach of this book combines a diachronic perspective that illuminates the continuities and ruptures of narratives actors and practices with in depth analysis of contemporary Serbia rooted in ethnographic fieldwork and exploring multiple levels of memory work and their interactions It will appeal to students and academics working on contemporary history of the region memory studies sociology public history transitional justice human rights and Southeast and East European Studies **Liberalism and War** Andrew J. Williams, 2024-12-27 In this book leading scholar Andrew J Williams examines contemporary liberal thinking on the ending of wars and puts it into its historical context Using a vast range of archival material he examines the main strategies used by liberal states to consolidate their gains in the aftermath of war and prevent conflict re occurring Considering historical wars from the nineteenth century to the withdrawal from Afghanistan in 2021 and the war in Ukraine since 2022 Williams explores the continuities and changes within western liberalism in response to war and the encouragement of peace These include in recent times the emergence of neoliberalism a growing revulsion against humanitarian intervention and the evolution of legal attempts to control illiberal regimes He shows how liberalism and the articulation of international norms and institutions sprang out of historical traditions linked to colonialism but also out of a desire to promote liberty and justice He examines the attitudes and practices that have distorted liberalism's essentially emancipatory nature into one that has encouraged hubris in foreign policy and an increasingly divisive set of economic political and social policies He suggests that a new liberal impulse to encourage the spread of democracy and international justice is possible one that returns to a more realistic approach to intervention in international conflicts The book will appeal to scholars and students of war conflict and political theory interested in the historical perceptions at the heart of many of the mistakes made by liberalism in the ending of wars It will also give hope to those who still believe that liberalism can be the organising feature of a just and equitable world

Cold War framework Readers will find self contained state of the art analyses of major subjects each written by an acknowledged expert as well as stimulating and novel approaches to newer topics Combining empirical rigour and adventurous conceptual analysis this Handbook offers in one substantial volume a guide to the numerous ways in which historians are now rewriting the history of postwar Europe **History of the Literary Cultures of East-Central Europe** Marcel Cornis-Pope, John Neubauer, 2004-05-28 National literary histories based on internally homogeneous native traditions have significantly contributed to the construction of national identities especially in multicultural East Central Europe the region between the German and Russian hegemonic cultural powers stretching from the Baltic states to the Balkans History of the Literary Cultures of East Central Europe which covers the last two hundred years reconceptualizes these literary traditions by de emphasizing the national myths and by highlighting analogies and points of contact as well as hybrid and marginal phenomena that traditional national histories have ignored or deliberately suppressed The four volumes of the History configure the literatures from five angles 1 key political events 2 literary periods and genres 3 cities and regions 4 literary institutions and 5 real and imaginary figures The first volume which includes the first two of these dimensions is a collaborative effort of more than fifty contributors from Eastern and Western Europe the US and Canada The four volumes of the History comprise the first volume in the new subseries on Literary Cultures Nationalism in Europe since 1945 André Gerrits, 2015-11-23 An up to date empirical and historiographical overview of the actual political relevance of nationalism and internationalism in post war Europe Adopting a largely chronological approach Gerrits links the historiography of post war Europe and the major theoretical approaches to nationalism with analysis of key historical developments and events The Balkan Wars from Contemporary Perception to Historic Memory Katrin Boeckh, Sabine Rutar, 2017-01-10 This book explores the historial role of the Balkan Wars In Eastern Europe the two Balkan Wars of 1912 13 had greater importance than the First World War for the construction of nations and states This volume shows how these short wars profoundly changed the sociopolitical situation in the Balkans with consequences that are still felt today More than one hundred years later the successors of the belligerent states in Southeastern Europe memorialize the wars as heroic highlights of their respective pasts Furthermore the metaphor that the Balkans were Europe's powder keg perpetuated at the beginning of the twentieth century in the face of these wars was reactivated in both the West and the East up through the Yugoslav wars of the 1990s The authors entangle the hitherto exclusive national master narratives and analyse them cogently and trenchantly for an international readership They make an indispensable contribution to the proper integration of the Balkan Wars into the European historical memory of twentieth century warfare The EEC's Yugoslav Policy in Cold War Europe, 1968-1980 Benedetto Zaccaria, 2016-06-09 The disintegration of Yugoslavia in the early 1990s is often described as the starting point of the EEC EU involvement in Western Balkan politics as if no political relations had developed between the EEC and Yugoslavia during the Cold War era Instead this book shows that the origin of EEC Yugoslav relations must be

placed in the crucial decade of the 1970s Contrary to received opinion this work demonstrates that relations between the EEC and Yugoslavia were grounded on a strong political rationale which was closely linked to the evolution of the Cold War in Europe and the Mediterranean The main argument is that relations between the two parties were primarily influenced by the need to prevent the expansion of Soviet influence in the Balkans and to foster d tente in Europe Yugoslavia and its Aftermath Branislav Radeljić, Carlos González-Villa, 2021-06-14 In Researching Yugoslavia and its Aftermath a common thread is the authors path through the time and space context in which fieldwork has taken place Accordingly this collection tackles problems that have always existed but have not been dealt with in a single volume In particular it examines a range of methodological questions arising from the contributors shared concerns and thus the obstacles and solutions characterising the relationship between researchers and their objects of study Being an interdisciplinary project this book brings together highly regarded historians sociologists anthropologists political scientists cultural and social theorists as well as experts in architecture and communication studies They share a belief that the awareness of the researcher's own position in fieldwork is a precondition of utmost significance to comprehend the evolution of objects of study and hence to ensure transparency and ultimate credibility of the findings Moreover the contributors come from diverse backgrounds including authors from the former Yugoslavia and others who have made their way to the region after starting their research careers some from universities in the area others from institutions in the Global North Here they explore cross cutting issues such as the repercussions of gender nationality institutional affiliation and the consequences of their entry into the field This is examined in terms of the results of the research and the ethical aspect of the relationship with the object of study as well as the implications of the chosen time framework in the methodological design and the clash between this decision and the interests of the actors studied The Soviet Union and Cold War Neutrality and Nonalignment in Europe Mark Kramer, Aryo Makko, Peter Ruggenthaler, 2021-03-22 The Soviet Union and Cold War Neutrality and Nonalignment in Europe examines how the neutral European countries and the Soviet Union interacted after World War II Amid the Cold War division of Europe into Western and Eastern blocs several long time neutral countries abandoned neutrality and joined NATO Other countries remained neutral but were still perceived as a threat to the Soviet Union's sphere of influence Based on extensive archival research this volume offers state of the art essays about relations between Europe's neutral states and the Soviet Union during the Cold War and how these relations were perceived by other Women and Gender in International History Karen Garner, 2018-06-28 Most governments and global political powers organizations have been dominated by male leaders and structures that institutionalize male privilege As Women and Gender in International History reveals however women have participated in and influenced the traditional concerns of international history even as they have expanded those concerns in new directions Karen Garner provides a timely synthesis of key scholarship and establishes the influential roles that women and gender power relations have wielded in determining the

course of international history From the early 20th century onward women have participated in state to state relations and decisions about when to pursue diplomacy or when to go to war to settle international conflicts Particular women as well as masculine and feminine gender role constructs have also influenced the establishment and evolution of intergovernmental organizations and their political social and economic policy making regimes and agencies Additionally feminists have critiqued male dominated diplomatic establishment and intergovernmental organizations and have proposed alternative theories and practices This text integrates women and gender and feminist analyses into the study of international history in order to produce a broader understanding of processes of international change during the 20th and 21st centuries

Yugoslavia and the Soviet Union in the Early Cold War Svetozar Rajak, 2010-10-18 This book provides a comprehensive insight into one of the key episodes of the Cold War the process of reconciliation between Yugoslavia and the Soviet Union At the time this process had shocked the World as much as the violent break up of their relations did in 1948 This book provides an explanation for the collapse of the process of normalization of Yugoslav Soviet that occurred at the end of 1956 and the renewal of their ideological confrontation It also explain the motives that guided the two main protagonists Josip Broz Tito of Yugoslavia and the Soviet leader Nikita Sergeevich Khrushchev Based on Yugoslav and Soviet archival documents this book establishes several innovative theories about this period Firstly that the significance of the Yugoslav Soviet reconciliation went beyond their bilateral relationship It had ramifications for relations in the Eastern Bloc the global Communist movement and on the dynamics of the Cold War world at its crucial juncture Secondly that the Yugoslav Soviet reconciliation brought forward the process of de Stalinization in the USSR and in the Peoples Democracies Thirdly it enabled Khrushchev to win the post Stalin leadership contest Lastly the book argues that the process of Yugoslav Soviet reconciliation permitted Tito to embark together with Nehru of India and Nasser of Egypt upon creating the new entity in the bi polar Cold War world the Non aligned movement This book will be of interest to students of Cold War History diplomatic history European history and International Relations in general Svetozar Rajak is a lecturer at the London School of Economics and Political Science He is the Managing Director of the LSE Cold War Studies Centre and is a member of the Editorial Board of the journal Cold War History Confronting the Yugoslav Controversies Charles Ingrao, Thomas A. Emmert, 2012-12-15 It has been two decades since Yugoslavia fell apart The brutal conflicts that followed its dissolution are over but the legacy of the tragedy continues to unsettle the region Reconciliation is a long and difficult process that necessitates a willingness to work together openly and objectively in confronting the past Over the past ten years the Scholars Initiative has assembled an international consortium of historians social scientists and jurists to examine the salient controversies that still divide the peoples of former Yugoslavia The findings of its eleven research teams represent a direct assault on the proprietary narratives and interpretations that nationalist politicians and media have impressed on mass culture in each of the successor states Given gaps in the historical record and the existence of sometimes contradictory

evidence this volume does not pretend to resolve all of the outstanding issues Nevertheless this second edition incorporates new evidence and major developments that have taken place in the region since the first edition went to press At the heart of this project has always been the insistence of the authors that they would continue to reconsider their analyses and conclusions based on credible new evidence Thus in this second edition the work of the Scholars Initiative continues The broadly conceived synthesis will assist scholars public officials and the people they represent both in acknowledging inconvenient facts and in discrediting widely held myths that inform popular attitudes and the electoral success of nationalist politicians who profit from them Rather than rely on special pleading and appeals to patriotism that have no place in scholarship the volume vests its credibility in the scientific credentials of its investigators the transparent impartiality of its methodology and an absolute commitment to soliciting and examining evidence presented by all sides Diaital Horror Xavier Aldana Reyes, Linnie Blake, 2015-10-13 In recent years the ways in which digital technologies have come to shape our experience of the world has been an immensely popular subject in the horror film genre Contemporary horror cinema reflects and exploits the anxieties of our age in its increasing use of hand held techniques and in its motifs of surveillance found footage fictional films that appear real comprising discovered video recordings left behind by victims protagonists and digital haunting when ghosts inhabit digital technologies This book offers an exploration of the digital horror film phenomenon across different national cultures and historic periods examining the sub genres of CCTV horror technological haunting snuff films found footage and torture porn Digital horror it demonstrates is a product of the post 9 11 neo liberal world view characterised by security paranoia constant surveillance and social alienation Digital horror screens its subjects via the transnational technologies of our age such as the camcorder and CCTV and records them in secret footage that may one day be found Reader's Guide to Military History Charles Messenger, 2013-10-31 This book contains some 600 entries on a range of topics from ancient Chinese warfare to late 20th century intervention operations Designed for a wide variety of users it encompasses general reviews of aspects of military organization and science as well as specific wars and conflicts The book examines naval and air warfare as well as significant individuals including commanders theorists and war leaders Each entry includes a listing of additional publications on the topic accompanied by an article discussing these publications with reference to their particular emphases strengths and limitations Boundaries and Borders in the Post-Yugoslav Space Nenad Stefanov, Srdjan Radović, 2021-10-25 The disintegration of Yugoslavia accompanied by the emergence of new borders is paradigmatically highlighting the relevance of borders in processes of societal change crisis and conflict This is even more the case if we consider the violent practices that evolved out of populist discourse of ethnically homogenous bounded space in this process that happened in the wars in Yugoslavia in the 1990ies Exploring the boundaries of Yugoslavia is not just relevant in the context of Balkan area studies but the sketched phenomena acquire much wider importance and can be helpful in order to better understand the dynamics of b ordering societal space that are so characteristic for our present
