Theo Van Doesburg Theo van Doesburg, Marleen Blokhuis, 2000 Mondrian Nicholas Fox Weber, 2024-10-22 THE NEW YORK TIMES BOOK REVIEW EDITORS CHOICE The extraordinary and surprising life of Piet Mondrian whose unprecedented geometric art revolutionized modern painting architecture graphic art fashion design and more from acclaimed cultural historian Nicholas Fox Weber As fastidiously passionate as his subject s paintings How wonderful it is to read of Mondrian s gaiety and zest as well as his rigour and unrelenting commitment to his own absolutely his own view of art and the world John Banville national bestselling author of The Lock Up In the early 1920s surrounded by the roaring streets of avant garde Paris Piet Mondrian began creating what would become some of the most recognizable abstract paintings of the 20th century With rectangles of primary colors against a dazzling white background this was geometric abstraction in its purest form These revolutionary compositions exhilarated intoxicated confused and enraged the international public and changed the course of modern art forever Now for the first time Mondrian emerges alongside his thrilling art Here is the life of an elusive modern master from his youth in a religious household in the Netherlands where he first began painting Dutch farmhouses and sand dunes to his move to Paris where he embraced the work of Pablo Picasso Georges Seurat and C zanne to the 1920s and onward where surviving the turmoil of two world wars and embracing a rapidly shifting culture Mondrian challenged the concept of art and invented a new world of undiluted colors and rhythmic straight lines His work would go on to affect painting architecture fashion and design in decades to come Here is also an intimate portrait of a complex artist his solitude and avoidance of intimacy his eccentricities and his philosophy his passion for ballroom dancing and his unwavering belief in art as a vehicle to reveal universal truths *The Barcelona Pavilion by Mies van der Rohe* Dietrich Neumann, 2020-12-07 While Mies van der Rohe s pavilion at the International Exposition in Barcelona in 1929 went unnoticed by most of the visitors to the fairgrounds contemporary critics enthusiastically hailed it as the most convincing statement of the Modern Age This book presents 100 selected texts about this much discussed building written then and now from the opening speech by the Spanish king to newspaper articles and private letters voices of contemporary architects architecture critics and historians and even a text by artist Ai Weiwei who created an installation in the outdoor area of the pavilion in 2010 Thus the history of this building s reception depicts a dazzling picture and inconceivable breadth including statements by such eminent authors as Frank Lloyd Wright Leonardo Benevolo Rem Koolhaas Peter Eisenman

Neue Sachlichkeit and Avant-Garde Ralf Grüttemeier, Klaus Beekman, Ben Rebel, 2013 One of the aims of the book is to shed more light on the notion Neue Sachlichkeit in its appearance in a variety of fields as painting architecture music photography and literature in order to get a clearer idea of its scope Several contributions will do so by analysing the heterogeneity in the use of the term concerning its function in the fight for recognition in the art fields around 1930 in other words Neue Sachlichkeit will be analysed as a positioning strategy Especially its participation in the broader discourse on

modernity as well as its international and intermedial dimension will be highlighted often using the historical avant garde as point of reference From this perspective the present volume wants to be read as a plea for a differentiated description of the many shared aspects and some differences between the avant garde and Neue Sachlichkeit *Van Doesburg & the International Avant-Garde* Marc Dachy, 2009 Dutch artist Theo Van Doesburg 1883 1931 is perhaps best known as a prime mover in De Stijl the Dutch artistic movement that demanded an elemental abstract vocabulary in both Painting and Architecture Here revealed for the first time is the true extent of his involvement with Dada and Constructivist artists groups spread across the whole of Europe as far as Russia and beyond and the breadth of his creative practice in fields as diverse as Film Typography Graphic Design and Music A man of multiple talents and identities he was inspired by the catastrophe of the First World War to attempt nothing less than the reshaping of culture in its entirety and the construction of a new world

Avant-Garde / Neo-Avant-Garde ,2016-08-01 This collection of critical essays explores new approaches to the study of avant garde literature and art film and architecture It offers a theoretical framework that avoids narrowly defined notions of the avant garde It takes into account the diversity of artistic aims and directions of the various avant garde movements and encourages a wide and open exploration of the multifaceted and often contradictory nature of the great variety of avant gardist innovations Individual essays concentrate on cubist collage and dadaist photomontage on abstract painting by members of the Dutch group De Stijl on verbal chemistry and dadaist poetry and on body art from futurism to surrealism In addition the collection wishes to open up the discussion of the avant garde to a thorough investigation of neo avant garde activities in the 1950s and 1960s For decades the appreciation of neo avant garde art and literature film and architecture suffered from a general and all inclusive rebuke This volume is designed to contribute to a breakthrough towards a more competent and more precise investigation of this research field Contributions include a discussion of Warhol s multiples as well as Duchamp s editioned readymades forms of concrete and digital poetry as well as the architectural Non Plan The main body of the volume is based on presentations and discussions of a three day research seminar held at the University of Edinburgh in September 2002 The research group formed around the Avant Garde Project at Edinburgh will continue with its efforts to elaborate a new theory of the avant garde in the coming years De Stijl and Dutch Modernism Michael White, 2003-09-20 The name De Stijl title of a magazine founded in the Netherlands in 1917 is now used to identify the abstract art and functional architecture of its major contributors Mondrian Van Doesburg Van der Leek Oud Wils and Rietveld De Stijl achieved international acclaim by the end of the 1920s and its paintings buildings and furniture made fundamental contributions to the modern movement This book is the first to emphasize the local context of De Stijl and explore its relationship to the distinctive character of Dutch modernism It examines how the debates concerning abstraction in painting and spatiality in architecture were intimately connected to contemporary developments in the fields of urban planning advertising interior design and exhibition design The book describes the interaction between the world of mass

culture and the fine arts *Rethinking Frank Lloyd Wright* Neil Levine, Richard Longstreth, 2023-03-03 Among the general public Frank Lloyd Wright remains the best known American architect of the twentieth century And yet his larger than life profile in the popular realm contrasts sharply with his near invisibility in academic and professional circles In *Rethinking Frank Lloyd Wright* Neil Levine and Richard Longstreth have assembled a group of eminent scholars to address this most puzzling paradox of the great architect's career In a series of engaging and well illustrated essays the contributors draw on their wide ranging understanding of modern architecture to reveal the ways in which Wright continues to play an instrumental role in domestic and international spheres making the case for reevaluating his popular and professional reputations Prompted by the transfer of the architect's archive from its home at Taliesin West in Scottsdale Arizona to the Avery Library at Columbia University and the Museum of Modern Art this volume revisits Wright's relevance for a contemporary audience Contributors Barry Bergdoll Columbia University Daniel Bluestone Boston University Jean Louis Cohen New York University Cammie McAtee independent scholar Neil Levine Harvard University Dietrich Neumann Brown University Timothy M Rohan University of Massachusetts Amherst Richard Longstreth George Washington University Jack Quinan University at Buffalo Alice Thomine Berrada cole des Beaux Arts *Decentring the Avant-Garde* Per

Bäckström, Benedikt Hjartarson, 2014-01-15 *Decentring the Avant Garde* presents a collection of articles dealing with the topography of the avant garde The focus is on different responses to avant garde aesthetics in regions traditionally depicted as cultural geographical and linguistic peripheries Avant garde activities in the periphery have to date mostly been described in terms of a passive reception of new artistic trends and currents originating in cultural centres such as Paris or Berlin Contesting this traditional view *Decentring the Avant Garde* highlights the importance of analysing the avant garde in the periphery in terms of an active appropriation of avant garde aesthetics within different cultural ideological and historical settings A broad collection of case studies discusses the activities of movements and artists in various regions in Europe and beyond The result is a new topographical model of the international avant garde and its cultural practices **The**

Architectural Model Matthew Mindrup, 2019-10-08 An investigation of different uses for the architectural model through history as sign souvenir funerary object didactic tool medium for design and architect's muse For more than five hundred years architects have employed three dimensional models as tools to test refine and illustrate their ideas But as Matthew Mindrup shows the uses of physical architectural models extend beyond mere representation An architectural model can also simulate instruct inspire and generate architectural designs It can be among other things sign souvenir toy funerary object didactic tool medium or muse In this book Mindrup surveys the history of architectural models by investigating their uses both theoretical and practical Tracing the architectural model's development from antiquity to the present Mindrup also offers an interpretive framework for understanding each of its applications in the context of time and place He first examines models meant to portray extant fantastic or proposed structures describing their use in ancient funerary or dedicatory

practices in which models are endowed with magical power as a medium for architectural reverie and inspiration and as prototypes for twentieth century experimental designs Mindrup then considers models that exemplify certain architectural uses exploring the influence of Leon Battista Alberti's dictum that models be simple lest they distract from the architect's ideas analyzing the model as a generative tool and investigating allegorical analogical and anagogical interpretations of models Mindrup's histories show how the model can be a surrogate for the architectural structure itself or for the experience of its formal tactile and sensory complexity and beyond that that the manipulation play experimentation and dreaming enabled by models allow us to imagine architecture in new ways

Utopian Reality Christina Lodder, Maria Kokkori, Maria Mileeva, 2013-10-24 This collection of essays deals broadly with the visual and cultural manifestation of utopian aspirations in Russia of the 1920s and 1930s while examining the before and after life of such ideas both geographically and chronologically The studies document the pluralism of Russian and Soviet culture at this time as well as illuminating various cultural strategies adopted by officialdom The result serves to complicate the excessively simplistic narrative that avant garde dreams were suddenly and brutally crushed by Soviet repression and to contest the notion of the avant garde's complicity in Stalinism Naturally some essays document episodes in the defeat and dismantling of utopian projects but others trace the persistence of avant garde ideas and the astonishing tenacity of creative individuals who managed to retain their personal integrity while continuing to serve the cause of Soviet power Contributors include John E Bowlt Natalia Budanova David Crowley Evgeny Dobrenko Maria Kokkori Christina Lodder Muireann Maguire Nicholas Bueno de Mesquita Maria Mileeva John Milner Nicoletta Misler Maria Starkova Vindman Brandon Taylor and Maria Tsantsanoglou
