Hayes Sr., 2021-04-23 The content of this manuscript is research investigated for the resilience and success of pastors in the Church of God in Christ a Pentecostal denomination that has over six million members to include over three thousand pastors. The research is a phenomenological study designed to provide a narrative interview of the participants to share their background role and day to day practices of the work of ministry as a senior pastor in this organization. The research will consist of seven to ten pastors selected from across the country all African American males age groups ranging from 42 years to 72 years of age. The information will be gathered by personal interviews conducted by asking each of them the same questions to gather all the facts and data for this research design. The instrument used will be a recording device that will record all conversations that will be transcribed in writing verbatim. As the human instrument conducting this research it will constitute travel lodging and scheduling of each participant that will give the researcher an intimate up and close contact with each participant. The information will be safeguarded names will be protected and all information will be useful as a model example of what constitutes success for ministry and the tools and resources needed to maintain a healthy and productive state of mind to be resilient in leading the charge as clergymen in the field of ministry. It is with great joy and a privilege to conduct this interview with pastors serving in the Church of God in Christ. *Gender* Linda Brannon, 2016-12-19 *Gender Psychological Perspectives* synthesizes the latest research on gender to help students think critically about the differences between research findings and stereotypes provoking them to examine and revise their own preconceptions. Ethics and Meaning at End of Life Richard George Boudreau, 2021-12-02 End of life issues including fear of dying have been recognized as a factor hindering psychosocial functioning in elderly populations As people age many focus with increasing intensity on the issues they face as elderly members of society and as people facing end of life decision making The inevitability of death does not detract from the onset of death anxiety An emerging strategy is the use of existential philosophical principles in the creation of an operational psychoanalytic praxis Because end of life issues often result in the desire by individuals to confront their existence existential philosophy the application of an existential psychotherapeutic approach has been introduced as a part of existing research This has led to the identification of death fear as a major development in the presence of end of life assessments An operational psychoanalytic model that addresses the issue of the fear of death is a major development The underlying belief shared by researchers is that fear is inherent for both doctors and patients and requires understanding and compassion on both sides of the equation This research study is designed to assess the models or psychoanalytical praxes introduced when addressing the needs of elderly individuals and to evaluate both the historical context in which they were formed and the support mechanisms for their continuation *The Alchemical Harry*

Potter Anne J. Mamary, 2021-01-05 When Harry Potter first boards the Hogwarts Express he journeys to a world which Rowling says has alchemy as its internal logic The Philosopher's Stone known for its power to transform base metals into gold and to give immortality to its maker is the subject of the conflict between Harry and Voldemort in the first book of the series But alchemy is not about money or eternal life it is much more about the transformations of desire of power and of people through love Harry's equally remarkable and ordinary power to love leads to his desire to find but not use the Philosopher's Stone at the start of the series and his wish to end the destructive power of the Elder Wand at the end This

collection of essays on alchemical symbolism and transformations in Rowling's series demonstrates how Harry's work with magical objects people and creatures transfigure desire power and identity As Harry's leaden existence on Privet Drive is transformed in the company of his friends and teachers the Harry Potter novels have transformed millions of readers inspiring us to find the gold in our ordinary lives

Parenting a Happy Child Peter Claver Ugo, 2018-10-19 A Latin adage says *Dat quod non habet* meaning No one gives what he does not have This wise saying makes sense in the business of parenting We are in an age where children are begetting children due to lack of knowledge which contributes to rampant teenage pregnancy It gets complicated when a teenager who should still need parental care becomes a parent This book examines some of the fundamental precautions that should be taken from the moment of conception such as the effects of toxins or teratogens that could affect the health of the baby in the womb Every parent who has the good of their baby in the womb in mind should know about these toxins and avoid putting them into their body The fundamentals to parenting with resilience and grace lies in the sacred nature of the human body as presented in this book Any form of physical and emotional abuse or addiction to alcohol and substances of abuse that can pose danger to the unborn baby or a child should be avoided The need for the parents to form a secure attachment with the baby cannot be underestimated as insecure attachment could result to lifelong emotional and psychological imbalance in the child if not properly addressed This book also seeks to emphasize that no two persons are ever the same not even identical twins Therefore the former idea in parenting that tends to say that one size fits all is untenable when it comes to raising a child who can live true to his or her nature I have in this book explored the various traits and energy movements that could inform the personality of your child and offer best practice tips to raise each child to be happy and successful Many behavioral warning signs that could show when the child is not properly being raised or abused are discussed Finally some measures that could be taken to arrest the effects of poor parenting and healing of a traumatized inner child are equally presented It is my sincere hope that many will find this book a good guide and reference book in raising their children

The Cambridge Handbook of Creativity and Personality Research Gregory J. Feist, Roni Reiter-Palmon, James C. Kaufman, 2017-03-06 As individual subjects creativity and personality have been the focus of much research and many publications This Cambridge Handbook is the first to bring together these two topics and explores how personality and behavior affects creativity Contributors from around the globe present cutting edge research about how personality traits and motives make creative behavior more likely Many aspects of personality and behavior are examined in the chapters including genius emotions psychopathology entrepreneurship and multiculturalism to analyse the impact of these on creativity The Cambridge Handbook of Creativity and Personality Research will be the definitive resource for researchers students and academics who study psychology personality and creativity
