Theories Of Authorship:

Theories of Authorship John Caughie, 2013-10-08 The film director or auteur has been central in film theory and criticism over the past thirty years Theories of Authorship documents the major stages in the debate about film authorship and introduces recent writing on film to suggest important ways in which the debate might be reconsidered **Theories of Authorship**, 1981 **Theories of Authorship** John Caughie, British Film Institute, 1981-01-01 The Work of Authorship Mireille Eechoud, 2025-10-01 What fresh perspectives can viewing copyright law through a humanities looking glass bring to key notions of tomorrow's copyright law Technological and economic concerns have long been the drivers of debate about copyright But diverse disciplines in the humanities including literary studies aesthetics film studies and the philosophy of art have a great deal to offer if we wish to establish a more nuanced and useful conception of copyright and authorship This volume brings together scholars from a range of disciplines to explore the challenges inherent in translating aesthetics and creativity studies to concepts of copyright especially as longstanding approaches are troubled by the rise of the digital

Lukan Authorship of Hebrews David L. Allen, 2010 The fifth volume in the popular NEW AMERICAN COMMENTARY STUDIES IN BIBLE THEOLOGY series argues that gospel writer Luke is also the author of Hebrews **Theories of authorship** J. Caughie, 1981 **Theories of Informetrics and Scholarly Communication** Cassidy R. Sugimoto, 2016-02-22 Scientometrics have become an essential element in the practice and evaluation of science and research including both the evaluation of individuals and national assessment exercises Yet researchers and practitioners in this field have lacked clear theories to guide their work As early as 1981 then doctoral student Blaise Cronin published The need for a theory of citing a call to arms for the fledgling scientometric community to produce foundational theories upon which the work of the field could be based More than three decades later the time has come to reach out the field again and ask how they have responded to this call This book compiles the foundational theories that guide informetrics and scholarly communication research It is a much needed compilation by leading scholars in the field that gathers together the theories that guide our understanding of authorship citing and impact *Authors, Copyright, and Publishing in the Digital Era* Cantatore, Francina, 2014-02-28 Basic copyright laws and enforcements have been in effect for hundreds of years However laws with such extensive histories can often make understanding them complicated As publishing moves into a digital arena copyright laws have become increasingly complex Authors Copyright and Publishing in the Digital Era not only addresses the current complexities that arises with authors and copyright laws when publishing digitally but it also sheds light on the current processes and procedures in place concerning copyright options for digital publishers This publication addresses a global audience in the manner in which it discusses traditional methods used in publishing before segueing into new model and strategies for both a business and an author in this ever expanding digital world **The Epistle of James** Peter H. Davids, 1982-08-26 Peter David's study on the Epistle of James is a contribution to The New International Greek Testament

Commentary a series based on the UBS Greek New Testament which attempts to provide thorough exegesis of the text that is sensitive to theological themes as well as to the details of the historical linguistic and textual context A Companion to the Gawain-poet Derek Brewer,Jonathan Gibson,1997 It ends with a discussion of the reception of the Morte Darthur from the sixteenth to the twentieth centuries and a select bibliography Development and Assessment of Self-Authorship Marcia B. Baxter Magolda,Peggy S. Meszaros,Elizabeth G. Creamer,2023-07-03 This book brings together new scholarship that expands and refines the concept of self authorship across cultures It adopts a constructive developmental approach to self evolution that emphasizes the interaction of personal characteristics and contextual influences on individuals construction of knowledge identities and relationships Individual chapters cover subjects from populations as varied as Dutch students male and female Bedouin and Jewish adolescents African American male and female adolescents in economically depressed areas of the US Latino a college students grappling with ethnic identity and dissonance Australian college females preparing to be childcare workers and finally a comparative study of Japanese and U S college students epistemic beliefs The book concludes by addressing questions about the challenges and opportunities involved in developing a valid measure of self authorship that is less time and expertise intensive than the in depth one on one interview employed until now and offering an outline of future theoretical and methodological research needed to further our understanding of self evolution in general and self authorship in particular Authorship's Wake Philip Sayers,2020-12-10 Authorship s Wake examines the aftermath of the 1960s critique of the author epitomized by Roland Barthes s essay The Death of the Author This critique has given rise to a body of writing that confounds generic distinctions separating the literary and the theoretical Its archive consists of texts by writers who either directly participated in this critique as Barthes did or whose intellectual formation took place in its immediate aftermath These writers include some who are known primarily as theorists Judith Butler others known primarily as novelists Zadie Smith David Foster Wallace and yet others whose texts are difficult to categorize the autofiction of Chris Kraus Sheila Heti and Ben Lerner the autotheory of Maggie Nelson These writers share not only a central motivating question how to move beyond the critique of the author subject but also a way of answering it by writing texts that merge theoretical concerns with literary discourse Authorship s Wake traces the responses their work offers in relation to four themes communication intention agency and labor Literary Theory and Criticism Patricia Waugh,2006 This volume offers a comprehensive account of modern literary criticism presenting the field as part of an ongoing historical and intellectual tradition Featuring thirty nine specially commissioned chapters from an international team of esteemed contributors it fills a large gap in the market by combining the accessibility of single authored selections with a wide range of critical perspectives The volume is divided into four parts Part One covers the key philosophical and aesthetic origins of literary theory while Part Two discusses the foundational movements and thinkers in the first half of the twentieth century Part Three offers introductory overviews of the most important movements and thinkers in modern literary theory and Part Four looks at

domain therefore copyright works should not be regarded as exclusive private property The study takes its organizing principle from John Locke defining and proving the fatal flaw inherent in debates on copyright on the one hand the copyright community is eager to arm authors with a robust property right over their creation while on the other this community totally ignores the fact that the exposure of the individual to externalities is what makes him or her capable of creating material that is copyrightable Just as Locke was against the absolute authority of kings the expressed view of the study is against the exclusive right an author can claim *Case Studies for Student Development Theory* Jason C.
