Outlaw Bikers and Ancient Warbands Carl Bradley,2021-10-13 This book is the first to compare the shared cultural tenets of ancient warbands and outlaw biker gangs It argues that the values of hyper masculinity can be traced from the former into the contemporary environment of the latter codes of honour loyalty and bravery have prioritised small groups of males over women and other men creating a history of hyper masculinity that shows little sign of stopping Indeed Outlaw Bikers and Ancient Warbands Hyper Masculinity and Cultural Continuity argues that such hyper masculine culture can be found in many male groups such as the police military and sports and that if we want to understand hyper masculinity and face it as a society then we need to recognize that outlaw bikers are a reflection of behavior that has a very long tradition This pioneering work explores these issues from ancient times and into the future
