cavalry searched for a way to be front and center in the conflict and found it in the new air forces being established on both sides of the Western Front Soon lances and sabres were replaced by silk scarves and machine guns Combat on horseback was replaced by dogfights in the air one on one and in great flying formations always between warriors No technology changed more in the five years of the war and none would have a bigger impact From Great Britain to Canada to Australia and New Zealand new heroes took the honour and dash of the cavalry to the air in flying machines which would change the face of war forever
