Standing on the Premises of God Fritz Detwiler, 1999-12 The Christian Right is arguably the most significant social movement in the United States today In recent years these religious

conservatives have loudly protested a public education system they believe no longer represents their interests or values. Educators often dismiss critiques based on religious values as irrational or flimsy, failing to appreciate the coherence of these criticisms from the Christian Right's own perspective. While the Christian Right has become ever more sophisticated in its lobbying and powerful in its influence, educators and parents find themselves lacking the background knowledge necessary to respond effectively to its efforts. *Standing on the Premises of God* speaks directly to this dilemma, explaining current incarnations of the Christian Right, its leadership, its intellectual and theological foundations, and its tactics so that those interested in the debates over education will be better prepared to engage them constructively. Taking the novel approach of framing the Christian Right as a revitalization movement, Detwiler shows how it seeks to effect cultural transformation in order to bring public education and our society more generally in line with its worldview. His theoretical model provides insights into why education is so pivotal to the Christian Right and also assesses the religious viability of the Christian Right as a social movement.

The Washington, D.C. of Fiction, James A. Kaser, 2006. In *The Washington D.C. of Fiction: A Research Guide*, James A. Kaser provides detailed synopses for nearly four hundred works published between 1822 and 1976 and bibliographic information for hundreds more published since. Plot summaries, names of major characters, and location lists are also presented. Although this book was written to assist researchers in locating works of fiction for analysis, the plot summaries have enough detail for general readers so they can develop an understanding of the way attitudes toward Washington and what the city symbolizes have changed over the years. Similarly, the biographical section demonstrates the wide range of journalists, politicians, society women, and freelance writers who were motivated to write about the city.
