Kierkegaard and His German Contemporaries: Literature and aesthetics Jon Bartley Stewart, 2007 This third tome is dedicated to the German literary sources that were significant for Kierkegaard in particular the work of authors from German Classicism and Romanticism Important forerunners for many of Kierkegaard's literary motifs and characters can be found in the German literature of the day His use of pseudonyms and his interest in irony were both profoundly influenced by German Romanticism This volume demonstrates the extent to which Kierkegaard's views of criticism and aesthetics were decisively shaped by the work of German authors **A Companion to the Works of Heinrich Heine** Roger F. Cook, 2002 As the most prominent German Jewish Romantic writer Heinrich Heine 1797-1856 became a focal point for much of the tension generated by the Jewish assimilation to German culture in a time marked by a growing emphasis on the shared ancestry of the German Volk As both an ingenious composer of Romantic verse and the originator of modernist German prose he defied nationalist Romantic concepts of creative genius that grounded German greatness in an idealist tradition of Dichter und Denker And as a brash often reckless champion of freedom and social justice he challenged not only the reactionary ruling powers of Restoration Germany but also the incipient nationalist ideology that would have fateful consequences for the new Germany consequences he often portended with a prophetic vision born of his own experience Reaching to the heart of the German question the controversies surrounding Heine have been as intense since his death as they were in his own lifetime often serving as an acid test for important questions of national and social consciousness This new volume of essays by scholars from Germany Britain Canada and the United States offers new critical insights on key recurring issues in his work the symbiosis of German and Jewish culture emerging nationalism among the European peoples critical views of Romanticism and modern philosophy European culture on the threshold to modernity irony wit and self critique as requisite elements of a modern aesthetic changing views on teleology and the dialectics of history and final thoughts and reconsiderations from his last prolonged years in a sickbed Contributors Michael Perraudin Paul Peters Roger F Cook Willi Goetschel Gerhard H hn Paul Reitter Robert C Holub Jeffrey Grossman Anthony Phelan Joseph A Kruse and George F Peters Roger F Cook is professor of German at the University of Missouri Columbia **Kafka's The Metamorphosis and Other**

Egon Schwarz, Hannelore Spence, 1990-08-01 The German Library is a new series of the major works of German literature and thought from medieval times to the present. The volumes have forewords by internationally known writers and introductions by prominent scholars. Here the English speaking reader can find the broadest possible collection of poetic and intellectual achievements in new as well as great classic translations **Early 20th Century German Fiction: A. Döblin, L. Feuchtwanger, A. Seghers, A. Zweig**

Alexander Stephan, 2003-03-17 This collection of High Modernism among Austrian and German writers includes *Pogrom* and a selection from *The Case of Sergeant Grischa* by Arnold Zweig *The Murder of a Buttercup* and a selection from *Berlin Alexanderplatz* recently cited as one of the 100 Most Meaningful Books of All Time in a survey that was reported in *The Guardian* and made into a landmark multipart television series by Rainer Werner Fassbinder by Alfred Döblin. Selections from *Jew Süss* and *The Oppermans* by Lion Feuchtwanger. A selection from *The Seventh Cross* and *Excursion of the Dead* by Anna Seghers *Embodying Ambiguity* Catriona MacLeod, 1998 *Embodying Ambiguity* traces the shifts in the representation of the androgyny myth in the literature and aesthetics of the late eighteenth century and nineteenth century. Catriona MacLeod examines important pedagogic implications of the androgyny ideal for Classical Romantic and Realist texts beginning with Aristophanes's narrative of the origin of human sexuality in Plato's *Symposium* and including the hermaphroditic androgyny proposed by Winckelmann and the heterosexual complementary model found in Schiller and Schlegel *The Critical Idyll* Peter Morgan, 1990-01-01 *The Critical Idyll* is a socio-literary re-evaluation of Goethe's idyllic verse epic *Hermann und Dorothea*. The revival of traditional German values as markers of national identity against the approaching revolutionary armies of the French in the early 1790s is analysed in the main figure, the archetypal German youth Hermann. Confronted by the misery of German refugees from the left bank territories in 1796, Hermann becomes the spokesman for a new sense of German identity. The refugee Dorothea and her first fiancé, the German Jacobin who died in Paris, provide a perspective on the themes of German identity and individual freedom at this time. The national feelings Hermann expresses are based on a language and community in the German small town rather than on earlier territorial or dynastic concepts of the German nation. The traditional literary form of the idyll is reformed through irony and parody into a modern critical and self-reflexive work in which central themes of post-revolutionary society are foregrounded.
