The Rule Of Freedom Liberalism And The Modern City:

The Rule of Freedom Patrick Joyce, 2020-05-05 The liberal governance of the nineteenth century state and city depended on the rule of freedom As a form of rule it relied on the production of certain kinds of citizens and patterns of social life which in turn depended on transforming both the material form of the city its layout architecture infrastructure and the ways it was inhabited and imagined by its leaders citizens and custodians Focusing mainly on London and Manchester but with reference also to Glasgow Dublin Paris Vienna colonial India and even contemporary Los Angeles Patrick Joyce creatively and originally develops Foucauldian approaches to historiography to reflect on the nature of modern liberal society His consideration of such artifacts as maps and censuses sewers and markets public libraries and parks and of civic governments and city planning are intertwined with theoretical interpretations to examine both the impersonal often invisible forms of social direction and control built into the infrastructure of modern life and the ways in which these mechanisms shape cultural and social life and engender popular resistance History and Cultural Theory Simon Gunn, 2014-05-22 In recent times there has been recognition of the growing influence of cultural theory on historical writing Foucault Bourdieu Butler and Spivak are just some of the thinkers whose ideas have been taken up and deployed by historians What are these ideas and where do they come from How have cultural theorists thought about history And how have historians applied theoretical insights to enhance their own understanding of events in the past This book provides a wide ranging and authoritative guide to the often vexed and controversial relationship between history and contemporary theory It analyses the concepts that concern both theorists and historians such as power identity modernity and postcolonialism and offers a critical evaluation of them from an historical standpoint Written in an accessible manner History and Cultural Theory gives historians and students an invaluable summary of the impact of cultural theory on historiography over the last twenty years and indicates the likely directions of the subject in the future *Police and the Empire City* Matthew Guariglia, 2023-10-13 During the years between the Civil War and World War II police in New York City struggled with how to control a diverse metropolis In *Police and the Empire City* Matthew Guariglia tells the history of the New York Police Department to show how its origins were built upon and inseparably entwined with the history of race ethnicity and whiteness in the United States Guariglia explores the New York City Police Department through its periods of experimentation and violence as police experts imported tactics from the US occupation of the Philippines and Cuba devised modern bureaucratic techniques to better suppress Black communities and infiltrated supposedly unknowable immigrant neighborhoods Innovations ranging from recruiting Chinese Italian and German police to form ethnic squads to the use of deportation and federal immigration restrictions to control local crime even the introduction of fingerprinting were motivated by attempts to govern a multiracial city Campaigns to remake the police department created an urban landscape where power gender sexuality race ethnicity crime and bodies collided and provided a foundation for the supposedly color blind

technocratic federally backed and surveillance based policing of today Spaces of Colonialism Stephen Legg,2008-09-15 Examines the residential policed and infrastructural landscapes of New and Old Delhi under British Rule The first book of its kind to present a comparative history of New and Old Delhi Draws on the governmentality theories and methodologies presented in Michel Foucault's lecture courses Looks at problems of social and racial segregation the policing of the cities and biopolitical needs in urban settings Undertakes a critique of colonial governmentality on the basis of the lived spaces of everyday life *Newspaper City* Phillip Gordon Mackintosh,2017-01-01 In *Newspaper City* Phillip Gordon Mackintosh scrutinizes the reluctance of early Torontonians to pave their streets Consequently Mackintosh's study reveals the contradictory nature of newspapers and the historiographical complexities of newspaper research *Ecologies of Urbanism in India* Anne M. Rademacher,K. Sivaramakrishnan,2013-03-01 Essays follow rapidly proliferating and resource intensive Indian urbanism in everyday environments Case studies on nature conservation in cities urban housing and slum development waste management urban planning and contestations over the quality of air water and sanitation in Delhi and Mumbai illuminate urban ecology perspectives throughout the twentieth century The collection highlights how struggles over the environment and one's quality of life in urban centers are increasingly framed in terms of their future place in a landscape of global sustainability The text brings historical particularity and ethnographic nuance to questions of urban ecology and offers novel insight into theoretical and practical debates on urbanism and sustainability **The State of Freedom** Patrick Joyce,2013-04-04 What is the state The *State of Freedom* offers an important new take on this classic question by exploring what exactly the state did and how it worked Patrick Joyce asks us to re-examine the ordinary things of the British state from dusty government files and post offices to well-thumbed primers in ancient Greek and Latin and the classrooms and dormitories of public schools and Oxbridge colleges This is also a history of the who and the where of the state of the people who ran the state the government offices they sat in and the college halls they dined in Patrick Joyce argues that only by considering these things people and places can we really understand the nature of the modern state This is both a pioneering new approach to political history in which social and material factors are centre stage and a highly original history of modern Britain London John Broich,2013-05-03 As people crowded into British cities in the nineteenth century industrial and biological waste byproducts and then epidemic followed them Britons died by the thousands in recurring plagues Figures like Edwin Chadwick and John Snow pleaded for measures that could save lives and preserve the social fabric The solution that prevailed was the novel idea that British towns must build public water supplies replacing private companies But the idea was not an obvious or inevitable one Those who promoted new waterworks argued that they could use water to realize a new kind of British society a productive social machine a new moral community and a modern civilization They did not merely cite the dangers of epidemic or scarcity Despite many debates and conflicts this vision won out in town after town from Birmingham to Liverpool to Edinburgh authorities gained new powers to execute municipal

water systems But in London local government responded to environmental pressures with a plan intended to help remake the metropolis into a collectivist society The Conservative national government in turn sought to impose a water administration over the region that would achieve its own competing political and social goals The contestants over London's water supply matched divergent strategies for administering London's water with contending visions of modern society And the matter was never pedestrian The struggle over these visions was joined by some of the most colorful figures of the late Victorian period including John Burns Lord Salisbury Bernard Shaw and Sidney and Beatrice Webb As Broich demonstrates the debate over how to supply London with water came to a head when the climate itself forced the endgame near the end of the nineteenth century At that decisive moment the Conservative party succeeded in dictating the relationship between water power and society in London for many decades to come

Security in the Bubble Christine Hentschel, 2015-08-08 Focusing on the South African city of Durban Security in the Bubble looks at spatialized security practices engaging with strategies and dilemmas of urban security governance in cities around the world While apartheid was spatial governance at its most brutal postapartheid South African cities have tried to reinvent space using it as a positive technique of governance Christine Hentschel traces the contours of two emerging urban regimes of governing security in contemporary Durban handsome space and instant space Handsome space is about aesthetic and affective communication as means to making places safe Instant space on the other hand addresses the crime related personal navigation systems employed by urban residents whenever they circulate through the city While handsome space embraces the powers of attraction instant space operates through the powers of fleeing In both regimes security is conceived not as a public good but as a situational experience that can no longer be reduced to the afterpains of racial apartheid this city's fragmentation is now better conceptualized according to Hentschel as a heterogeneous ensemble of bubbles of imagined safety

Crime Control and Everyday Life in the Victorian City David Churchill, 2017-12-29 The history of modern crime control is usually presented as a narrative of how the state wrested control over the governance of crime from the civilian public Most accounts trace the decline of a participatory discretionary culture of crime control in the early modern era and its replacement by a centralized bureaucratic system of responding to offending The formation of the new professional police forces in the nineteenth century is central to this narrative henceforth it is claimed the priorities of criminal justice were to be set by the state as ordinary people lost what authority they had once exercised over dealing with offenders This book challenges this established view and presents a fundamental reinterpretation of changes to crime control in the age of the new police It breaks new ground by providing a highly detailed empirical analysis of everyday crime control in Victorian provincial cities revealing the tremendous activity which ordinary people displayed in responding to crime alongside a rich survey of police organization and policing in practice With unique conceptual clarity it seeks to reorient modern criminal justice history away from its established preoccupation with state systems of policing and punishment and move towards a more nuanced analysis of the

governance of crime More widely the book provides a unique and valuable vantage point from which to rethink the role of civil society and the state in modern governance the nature of agency and authority in Victorian England and the historical antecedents of pluralized modes of crime control which characterize contemporary society

Data Action Sarah Williams, 2022-09-20 How to use data as a tool for empowerment rather than oppression Big data can be used for good from tracking disease to exposing human rights violations and for bad implementing surveillance and control Data inevitably represents the ideologies of those who control its use data analytics and algorithms too often exclude women the poor and ethnic groups In Data Action Sarah Williams provides a guide for working with data in more ethical and responsible ways Williams outlines a method that emphasizes collaboration among data scientists policy experts data designers and the public The approach generates policy debates influences civic decisions and informs design to help ensure that the voices of people represented in the data are neither marginalized nor left unheard

Cities, Mountains and Being Modern in fin-de-siècle England and Germany Ben Anderson, 2020-01-02 This book is the first transnational history of rambling and mountaineering Focussing on the critical turn of the century era it offers new insights into alpine development attitudes to danger cultures of time internationalism and domesticity in the outdoors It charts an emerging group of mass tourist activities and argues that these thousands of walkers and climbers can only be understood within the context of the urban cultures from which most of them came In doing so it offers a fresh perspective on the relationship of alpinists and countryside enthusiasts to the modern world Instead of an escape from or rejection of modernity it finds that upland trampers and climbers contested what it meant to be modern used those modern identities to make political claims on rural space and rural people and sought to define what a more modern future society should be like

City Fictions of the New India Alex Tickell, 2025-04-24 How does Indian fiction imagine urban transformation India's cities were once maligned as places of economic stasis and deprivation but in the era of the so called New India 2000 present centres like Delhi and Mumbai have been recast as engines of economic growth and reshaped by prestige infrastructure Yet the provision of core infrastructures for all remains a major challenge for urban governance City Fictions is the first study of its kind to read anglophone Indian writing infrastructurally by taking account of the centrality of water utilities waste processing residential architecture and road rail and telephonic networks in contemporary representations of urban citizenship In a detailed historicized account of India's changing cities City Fictions analyses selected literary works in relation to key governmental and political discourses from early nationalist ideas of command economy infrastructure and mid century town planning to futuristic visions of the Heritage Cities Smart Cities and new urban satellite developments It also plots changing ideas about civic identity shaped by the rise of a consumerist middle class and the consolidation of a popular Hindu majoritarian politics In the process City Fictions develops an interdisciplinary literary critical approach that draws on eco criticism urbanism and new materialism Covering key fictions by Arundhati Roy Aravind Adiga Vikram Chandra Raj Kamal Jha and Githa Hariharan

as well as literary journalism by Katherine Boo and Saumya Roy graphic fiction by Sarnath Banerjee and television drama by Richie Mehta this book shows how fiction discloses vital issues of collective rights equality and resourcing that are immanent in the infrastructure of India's cities

A Modern History of European Cities Rosemary Wakeman, 2020-01-23 Rosemary Wakeman's original survey text comprehensively explores modern European urban history from 1815 to the present day. It provides a journey to cities and towns across the continent in search of the patterns of development that have shaped the urban landscape as indelibly European. The focus is on the built environment, the social and cultural transformations that mark the patterns of continuity and change and the transition to modern urban society. Including over 60 images that serve to illuminate the analysis, the book examines whether there is a European city and if so what are its characteristics. Wakeman offers an interdisciplinary approach that incorporates concepts from cultural and postcolonial studies as well as urban geography and provides full coverage of urban society not only in western Europe but also in eastern and southern Europe using various cities and city types to inform the discussion. The book provides detailed coverage of the often neglected urbanization post 1945 which allows us to more clearly understand the modernizing arc Europe has followed over the last two centuries.

Fragments of the City Colin McFarlane, 2021-10-05 Cities are becoming increasingly fragmented materially, socially and spatially. From broken toilets and everyday things to art and forms of writing, fragments are signatures of urban worlds and provocations for change. In *Fragments of the City*, Colin McFarlane examines such fragments: what they are and how they come to matter in the experience, politics and expression of cities. How does the city appear when we look at it through its fragments? For those living on the economic margins, the city is often experienced as a set of fragments. Much of what low-income residents deal with on a daily basis is fragments of stuff made and remade with and through urban density, social infrastructure and political practice. In this book, McFarlane explores infrastructure in Mumbai, Kampala and Cape Town; artistic montages in Los Angeles and Dakar; refugee struggles in Berlin; and the repurposing of fragments in Hong Kong and New York. Fragments surface as material things, as forms of knowledge, as writing strategies. They are used in efforts to politicize the city and in urban writing to capture life and change in the world's major cities. *Fragments of the City* surveys the role of fragments in how urban worlds are understood, revealed, written and changed.

Memory and Modern British Politics Matthew Roberts, 2023-12-14 This edited collection explores absence, presence and remembrance in British political culture and memory studies. Comprehensive in its scope, it covers the entire modern period, bringing together the 19th and 20th centuries as well as Britain, Ireland and the Atlantic World. As the first comparative and in-depth study to explore the central and contested place of memory and the invention of tradition in modern British politics, chapters include memorialisation, statue mania, anniversaries and on the wider impact and invoking of dead generations. In doing so, this book provides a new, exciting and accessible way of engaging with the history of British political culture.

Making the Modern Slum Sheetal Chhabria, 2019-12-06 In the late nineteenth and early twentieth centuries, Bombay was beset by crises such as

famine and plague Yet rather than halting the flow of capital these crises served to secure it In colonial Bombay capitalists and governors Indian and British alike used moments of crisis to justify interventions that delimited the city as a distinct object and progressively excluded laborers and migrants from it Town planners financiers and property developers joined forces to secure the city as a space for commerce and encoded shelter types as legitimate or illegitimate By the early twentieth century the slum emerged as a particularly useful category of stigmatization that would animate city making projects in subsequent decades Sheetal Chhabria locates the origins of Bombay's now infamous slum problem in the broader histories of colonialism and capitalism She not only challenges assumptions about colonial urbanization and cities in the global south but also provides a new analytical approach to urban history *Making the Modern Slum* shows how the wellbeing of the city rather than of its people became an increasingly urgent goal of government positioning agrarian distress famished migrants and the laboring poor as threats to be contained or excluded

The Making of an Indian Metropolis Prashant Kidambi, 2007-01-01 This book investigates the social history of colonial Bombay in the late Victorian and Edwardian eras Drawing together strands that have hitherto been treated separately and based on a wide range of untapped archival sources this book offers the first systematic analytical account of historical change in a modernizing colonial city In highlighting the colonial experience of historical processes that have attracted considerable attention in recent scholarship it restores the much neglected global dimension to a comparative discussion of these themes At the same time the volume demonstrates the manner in which the globalizing forces unleashed by European imperialism were appropriated and transformed in the colonial context

Meat, Commerce and the City Robyn S Metcalfe, 2015-10-06 This study examines the struggle between Smithfield market's supporters and detractors and argues that this demonstrates a major shift in the way the urban landscape came to be used

Cultures of Power in Europe during the Long Eighteenth Century Hamish Scott, Brendan Simms, 2007-07-05 This volume seeks to get behind the surface of political events and to identify the forces which shaped politics and culture from 1680 to 1840 in Germany France and Great Britain The contributors all leading specialists in the field explore critically how culture defined in the widest sense was exploited during the long eighteenth century to buttress authority in all its forms and how politics infused culture Individual essays explore topics ranging from the military culture of Central Europe through the political culture of Germany France and Great Britain music court intrigue and diplomatic practice religious conflict and political ideas the role of the Enlightenment to the very new dispensations which prevailed during and after the French Revolution and the Napoleonic watershed The book will be essential reading for all scholars of eighteenth century European history
