The Sacred Scrolls Comics On The Planet Of The Apes:

The Sacred Scrolls Rich Handley, 2015-07-25 Since the 1970s the Planet of the Apes franchise has frequently delved into the world of comic books. Some stories have made the Lawgiver proud while others have brought shame to Ape City. In the comics arena, not all apes are created equal, but for fans that's half the fun of reading them. More than 150 POTA comics have been published during the past four decades from Gold Key, Marvel Comics, Power Records, Brown Watson Books, Editorial Mo Pa Sa, Malibu Graphics, Dark Horse, Mr. Comics, and BOOM Studios. Writers have explored the settings, concepts, and characters from the films and occasionally the TV series while introducing an array of new characters and scenarios. Back stories have been revealed, plot holes filled in, and histories extrapolated upon. The comics have employed multiple genres and styles, taking readers to distant villages, ruined cities, and oceanic civilizations, and have even seen the apes battle alien invaders from War of the Worlds and Alien Nation. It's been quite the madhouse to be sure. But by and large, the Apes comics have remained true to novelist Pierre Boulle's simian spirit. Sacred Scrolls Comics on the Planet of the Apes will examine the entire history of POTA comic books from Gold Key to BOOM and everything in between. This anthology will feature insightful analytical essays about the franchise's four-color continuation from popular comic historians, novelists, bloggers, and subject matter experts. If you're eager to learn more about Apes lore, then you'll need to get your stinkin' paws on this volume.

Planet of the Apes as American Myth Eric Greene, 2024-05-15 How do political conflicts shape popular culture? This book explores that question by analyzing how the Planet of the Apes films functioned both as entertaining adventures and as apocalyptic political commentary. Informative and thought-provoking, the book demonstrates how this enormously popular series of secular myths used images of racial and ecological crisis to respond to events like the Cold War, the race riots of the 1960s, the Civil Rights movement, the Black Power movement, and the Vietnam War. The work utilizes interviews with key filmmakers and close readings of the five Apes films and two television series to trace the development of the series' theme of racial conflict in the context of the shifting ideologies of race during the sixties and seventies. The book also observes that today, amid growing concerns over race relations, the resurgent popularity of Apes and Twentieth Century Fox's upcoming film may again make Planet of the Apes a pop culture phenomenon that asks who we are and where we are going. Timeline Of The Planet Of The Apes

Rich Handley, 2008-11 The definitive unauthorized chronology. Cover **Planet of the Apes** Sean Egan, 2021-12-01 Planet of the Apes started life in 1963 as a quirky work by Pierre Boulle, the French literary novelist famous for *The Bridge over the River Kwai*. His concept of a world where humans are ruled over by apes proceeded to become one of the biggest multi-media sensations in history. The 1968 Charlton Heston motion picture adaptation of Boulle's book was celebrated and successful but was just the beginning. By 1973, said picture had spawned four sequels. It then spun off a live-action TV series which in turn spun off the animated TV show *Return to the Planet of the Apes*. With this comic book's novelizations and a tsunami of

merchandising the late 60s and first half of the 70s had a distinctly simian flavor A new generation was introduced to the concept when in 2001 Tim Burton's updating of the series appeared in cinemas This itself was rebooted a decade later in the form of Rise of the Planet of the Apes and its two sequels Yet despite all the fantasy and money chasing the series has always been marked by thoughtfulness exploring serious themes alien to most franchises Planet of the Apes The Complete History explores every aspect of this phenomenon from books to films comic books to television shows and video games to merchandise providing an overview that is truly definitive With the help of new and exclusive interviews with Planet of the Apes producers directors writers actors and makeup artists Sean Egan attempts to gain an understanding of how a media property changed the world *Star Trek Gold Key Archives, Vol. 3* Len Wein, 2015-04-15 Boldly going where it all started Presenting the first comic book adventures of the U S S Enterprise and her crew Fully re-mastered with new colors including stories such as Dark Traveler The Enterprise Mutiny The Hijacked Planet and more Collects issues 13 18 **Планета обезьян.
