### **The Politics of Historical Memory and Commemoration in Africa**

Cassandra Mark-Thiesen, Moritz Mihatsch, Michelle Sikes, 2021-12-06 Essays in Memory of Jan Georg Deutsch The volume observes some of the principles that drove Prof Jan Georg Deutsch's research highlighting present day politics for the way they shape historical remembrance learning from people on the ground through fieldwork and oral history and bringing various parts of the African continent into discussion with one another From Cape Town to Charlottesville many societies are grappling with historical consciousness and the production of public memory In particular how and why societies remember and forget what should serve as symbols of collective memory and whether there exists space for multiple memory cultures are questions being vigorously debated once again These discussions present particular challenges not only to official memory bound to ideological constructions of nationhood but also to the teaching of history and its links to social justice movements The volume re-centres Africa and African history in memory studies with each chapter drawing parallels to comparable cases in Africa and the world An underlying assumption is that what can be learned from the politics of historical memory in Africa will have relevance for contemporary politics globally and for understanding how memories can be mobilised for political ends

From Sin to Disease Jonathan K. Okinaga, 2022-09-23 Since Benjamin Rush first introduced the disease of wills as the cause of alcoholism a steady and slow infiltration of the disease model has infected how the church treats those who struggle with addictions The first organization that truly sought to remove the soul care of addicts from the church was Alcoholics Anonymous AA through their bestselling The Big Book of AA and the introduction of the 12 Steps AA's influence on how the church confronts addiction still reverberates today with many of the ministries that address addiction firmly rooted in what can be found in AA literature Addictions were once viewed as an issue caused by sin and best addressed through faith and prayer Currently addiction is seen through the lens of disease The ramifications are consequential as more church members are struggling with addictions than ever before Tracing the progression of addiction from sin to disease will reveal that the SBC and its churches have been negligent in understanding the underlying foundations of AA and the influence that the medicalization of substance abuse has had on how churches approach what should be classified as a sin issue

in the mid 1800s Americans hauled frozen pond water then glacial ice and then ice machines to Hawai i all in an effort to reshape the islands in the service of Western pleasure and profit Marketed as essential for white occupants of the nineteenth century Pacific ice quickly permeated the foodscape through advancements in freezing and refrigeration technologies In *Cooling the Tropics* Hi ilei Julia Kawehipuaakahaopulani Hobart charts the social history of ice in Hawai i to show how the interlinked concepts of freshness and refreshment mark colonial relationships to the tropics From chilled drinks and sweets to machinery she shows how ice and refrigeration underpinned settler colonial ideas about race environment and the senses By outlining how ice shaped Hawai i s food system in accordance with racial and environmental imaginaries Hobart demonstrates that thermal technologies can and must be attended to in struggles for food sovereignty and political self determination in Hawai i and beyond Duke University Press Scholars of Color First Book Award Recipient *Accounting and Food* Massimo Sargiacomo, Luciano D'Amico, Roberto Di Pietra, 2016-03-02 The interrelations between accounting and food have been hitherto neglected at an international level This regret is particularly meaningful with regards to Italy where Food besides being a physiological need to satisfy is one of the main pillars of the Made in Italy Industry and the so called Italian life style which has become a part of the popular culture *Accounting and Food* seeks to explore the accounting business and financial history of some of the most prestigious Italian food producers Moreover given that Food has been at the center of production and trade throughout the history of mankind food production and commerce will be investigated from the critical angles of accounting accountants and merchants Relatedly the interconnected history of the Food fairs and expositions of the major Italian trade centers will be also unveiled *Accounting and Food* examines the role of accounting accountants and merchants in food production and international trade e g grain wine etc as well as considering the history of food producers paying particular attention to the role played by women entrepreneurs over time Finally the book explores the interrelations of accounting food and state local authorities and social institutions in particular in so far these latter institutions were involved in the Political economy regulation allocation and distribution of food to populations and societies *Accounting and Food* will be of particular interest to researches and scholars in the field of accounting history but also to those working in the areas of regional development regional economics food and sociology and other related disciplines **The Licensed City** David Beckingham, 2017 In nineteenth century Britain few cities could rival Liverpool for recorded drunkenness *The Licensed City* examines the city s reputation the shifting definition and regulation of problem drinking and the pivotal role played by social reform targeted through alcohol licensing in reshaping Liverpool s dismal record **Comic Drunks, Crazy Cults, and Lovable Monsters** David Scott Diffrient, 2022-12-01 Contradictory to its core the sitcom an ostensibly conservative tranquilizing genre has a long track record in the United States of tackling controversial subjects with a fearlessness not often found in other types of programming But the sitcom also conceals as much as it reveals masking the rationale for socially deviant or deleterious behavior behind figures of ridicule whose motives are rarely disclosed fully over

the course of a thirty minute episode Examining a broad range of network and cable TV shows across the history of the medium from classic working class comedies such as *The Honeymooners* *All in the Family* and *Roseanne* to several contemporary cult series animated programs and online hits that have yet to attract much scholarly attention this book explores the ways in which social imaginaries related to bad behavior have been humorously exploited over the years The repeated appearance of socially wayward figures on the small screen from raging alcoholics to brainwashed cult members to actual monsters who are merely exaggerated versions of our own inner demons has the dual effect of reducing complex individuals to recognizable types while neutralizing the presumed threats that they pose Such representations not only provide strangely comforting reminders that badness is a cultural construct but also prompt audiences to reflect on their own unspoken proclivities for antisocial behavior if only in passing

**Globalization in a Glass** Malcolm F. Purinton, 2023-05-04 The spread of Pilsner beer from its inception in 1842 clearly shows the changes wrought by globalization in an age of empire Its rise was dependent not only on technological innovations and faster supply chains but also on the increased connectedness of the world and the political and economic structures of empire Drawing upon a wide range of archival sources from Europe the Americas and Sub Saharan Africa this study traces the spread of industrial beer brewing in Europe from the late 18th to the early 20th century to show how a single beer style became the global favourite through advances in science business and imperial power In highlighting the evolution of consumer tastes through changing hierarchical relationships between the British metropole and colonies as well as the evolution of business organizations and practices Globalization in a Glass contributes to ongoing debates about globalization empire and trade It argues that despite the might and power of the British Empire as a colonizing force the effects of globalization imperial trade networks and colonial migration led to the domination of the most popular Continental European style of beer the Pilsner over British style ales
