His Hiding Place Is Darkness Francis X. Clooney S.J., 2013-12-04 His Hiding Place is Darkness explores the uncertainties of faith and love in a pluralistic age In keeping with his conviction that studying multiple religious traditions intensifies rather than attenuates religious devotion Francis Clooney's latest work of comparative theology seeks a way beyond today's religious and interreligious uncertainty by pairing a fresh reading of the absence of the beloved in the Biblical Song of Songs with a pioneering study of the same theme in the Holy Word of Mouth 9th century CE a classic of Hindu mystical poetry rarely studied in the West Remarkably the pairing of these texts is grounded not in a general theory of religion but in an engagement with two unexpected sources the theopoetics theodramatics and theology of the 20th century Catholic theologian Hans Urs von Balthasar and the intensely perceived and written poetry of Pulitzer Prize winner Jorie Graham How we read and write on religious matters is transformed by this rare combination of voices in what is surely a unique and important contribution to comparative studies and religious hermeneutics **The Evangelical**

Azusa Reimagined Keri Day, 2022-06-07 In *Azusa Reimagined* Keri Day explores how the Azusa Street Revival of 1906 out of which U S Pentecostalism emerged directly critiqued America s distorted capitalist values and practices at the start of the twentieth century Employing historical research theological analysis and critical theory Day demonstrates that Azusa s religious rituals and traditions rejected the racial norms and profit driven practices that many white Christian communities gladly embraced Through its sermons and social practices the Azusa community critiqued racialized conceptions of citizenship that guided early capitalist endeavors such as world fairs and expositions Azusa also envisioned deeper democratic practices of human belonging and care than the white nationalist loyalties early U S capitalism encouraged In this lucid work Day makes Azusa s challenge to this warped economic ecology visible showing how Azusa not only offered a radical critique of racial capitalism but also offers a way for contemporary religious communities to cultivate democratic practices of belonging against the backdrop of late capitalism s deep racial divisions and material inequalities

Hasidism Incarnate Shaul Magid, 2014-12-10 *Hasidism Incarnate* contends that much of modern Judaism in the West developed in reaction to Christianity and in defense of Judaism as a unique tradition Ironically enough this occurred even as modern Judaism increasingly dovetailed with Christianity with regard to its ethos aesthetics and attitude toward ritual and faith Shaul Magid argues that the Hasidic movement in Eastern Europe constitutes an alternative modernity one that opens a new window on Jewish theological history Unlike Judaism in German lands Hasidism did not develop under a Christian gaze and had no need to be apologetic of its positions Unburdened by an apologetic agenda at least toward Christianity it offered a particular reading of medieval Jewish Kabbalah filtered through a focus on the charismatic leader that resulted in a religious worldview that has much in common with Christianity It is not that Hasidic masters knew about Christianity rather the basic tenets of Christianity remained present albeit often in veiled form in much kabbalistic teaching that Hasidism took up in its portrayal of the charismatic figure of the zaddik whom it often described in supernatural terms

Whose Islam? Megan Brankley Abbas, 2021-06-08 In this incisive new book Megan Brankley Abbas argues that the Western university has emerged as a significant space for producing Islamic knowledge and Muslim religious authority For generations Indonesia s foremost Muslim leaders received their educations in Middle Eastern madrasas or the archipelago s own Islamic schools Starting in the mid twentieth century however growing numbers traveled to the West to study Islam before returning home to assume positions of political and religious influence *Whose Islam* examines the far reaching repercussions of this change for major Muslim communities as well as for Islamic studies as an academic discipline As Abbas details this entanglement between Western academia and Indonesian Islam has not only forged powerful new transnational networks but also disrupted prevailing modes of authority in both spheres For Muslim intellectuals studying Islam in Western universities provides opportunities to experiment with academic disciplines and to reimagine the faith but it also raises troubling questions about

whether and how to protect the Islamic tradition from Western encroachment For Western academics these connections raise pressing ethical questions about their own roles in the global politics of development and Islamic religious reform Drawing on extensive archival research from around the globe Whose Islam provides a unique perspective on the perennial tensions between insiders and outsiders in religious studies *Mankind encountering Angels in Poetry of Iqbal* Khurram Ellahi, 2019-07-26 Quran highlights how Angels inquired criticized the existence of Man and Allah answered Language is the greatest gift I have given to mankind This book will leap into poetry of Iqbal to see how Iqbal puts thesis of Man in front of world in comparison to Angels Iqbal used this ability to forward the narrative on the actual goal of humanity being God's caliph

International Law and Muslim States Dawood Hamzah, 2021-08-12 This book analyses the general interaction between international law and Islamic law in the Muslim world today It interrogates factors that often form the root of the tension between the two legal regimes Literalist interpretations of Islamic law and the modern international law's disposition that does not give due consideration to differences among cultures and civilizations are some of these factors This work examines the Saudi Arabia textualist approach to the two primary sources of law in Islam the Qur'an and Sunnah and argues that a liberal approach of interpretation has become sine qua non especially now that myriad issues are confronting the Muslim world generally and Saudi Arabia in particular Similarly globalization has generated an unprecedented multi culturalism legal pluralism and trans border interactions in socio economic and political relations Therefore Saudi Arabia as the bastion of Islam and Islamic nations is faced with the imperative of adopting a liberal approach to interpretation of Islamic law with a view to accommodating a wide spectrum of other laws and cultures The book provides a timely examination of the issue of modern Saudi Arabia Islamic legal order vis vis the contemporary concept of international law and international relations in specific areas such as international human rights law and trans national economic matters As such it will be of interest to academics and researchers working in Islamic law international and comparative law human rights law and law and religion

Christian Flesh Paul J Griffiths, 2018-09-25 A brilliant and provocative work demonstrating the centrality of the flesh to the mysteries and doctrines of the Christian faith Carol Zaleski Smith College A sustained and systematic theological reflection on the idea that being a Christian is first and last a matter of the flesh Christian Flesh shows us what being a Christian means for fleshly existence Depicting and analyzing what the Christian tradition has to say about the flesh of Christians in relation to that of Christ the book shows that some kinds of fleshly activity conform well to being a Christian while others are in tension with it But to lead a Christian life is to be unconstrained by ordinary ethical norms Arguing that no particular case of fleshly activity is forbidden Paul J Griffiths illustrates his message through extended case studies of what it is for Christians to eat to clothe themselves and to engage in physical intimacy In this trenchant and careful theological treatment of our embodiment Paul Griffiths puts the stress exactly where it should be put on the possibility of transfigured touch By focusing on the varieties of touch he is able to untangle several unfortunate

renewal Image and Presence Natalie Carnes, 2017-12-12 Images increasingly saturate our world making present to us what is distant or obscure Yet the power of images also arises from what they do not make present from a type of absence they do not dispel Joining a growing multidisciplinary conversation that rejects an understanding of images as lifeless objects this book offers a theological meditation on the ways images convey presence into our world Just as Christ negates himself in order to manifest the invisible God images Natalie Carnes contends negate themselves to give more than they literally or materially are Her Christological reflections bring iconoclasm and iconophilia into productive relation suggesting that they need not oppose one another Investigating such images as the biblical golden calf and paintings of the Virgin Mary Carnes explores how to distinguish between iconoclasms that maintain fidelity to their theological intentions and those that lead to visual temptation Offering ecumenical reflections on issues that have long divided Protestant Catholic and Orthodox traditions Image and Presence provokes a fundamental reconsideration of images and of the global image crises of our time

Religions in the Making John B. Cobb Jr., 2012-11-06 Whitehead had a place for God in his comprehensive cosmological vision and his theism has long attracted interest from some Christian theologians But Whitehead's ideas have much wider use Some Buddhists have found help in articulating their nontheistic vision and relating it to the current world of thought and action In this book religious writers in seven different traditions articulate how they can benefit from Whitehead's work So this volume demonstrates that various features of his thought can contribute to many communities According to his followers Whitehead shows that the deepest convictions and commitments of the major religious communities can be complementary rather than in conflict Readers of this book will see how that plays out in some detail A Whiteheadian Hindu can recognize the truth in a Whiteheadian Judaism and both can appreciate the insights of Chinese Whiteheadians committed to their classical thinking Perhaps a new day in interreligious understanding has come Iqbal's Poetic Vision, Metaphysics, and Evolution Logan David Siler, 2025-06-24 This book explores Muhammad Iqbal's poetic vision of a universe in a state of becoming and by putting this vision in conversation with contemporary metaphysical models articulates the contribution Iqbal's vision makes to discussions about Islamic theology philosophy and science To do so the book articulates Iqbal's critique of the Islamic tradition and distinguishes his system from classical Islamic thought while also highlighting his positive influences in this regard Al Biruni Suhrawardi etc It explores features of Iqbal's vision in light of contemporary metaphysical models by emphasizing three key elements of his thought metaphysics of becoming panentheism and panpsychism While locating Iqbal within the spectrum of these particular schools of thought Logan David Siler discusses the strengths of his position and reveals the relevance of his thought to the religion and science conversation particularly in the realm of evolutionary biology It is these realms of thought that articulate the most formidable challenges to the theistic view Yet Iqbal offers a vision which provides a means to challenge the more metaphysical claims of scientism Additionally Siler critiques the shortcomings of Iqbal's vision and offers suggestions for how to improve it
