**Reading the Red Book** Sanford L. Drob, 2023-03-28 The long awaited publication of C G Jung's Red Book in October 2009 was a signal event in the history of analytical psychology Hailed as the most important work in Jung's entire corpus it is as enigmatic as it is profound Reading The Red Book by Sanford L Drob provides a clear and comprehensive guide to The Red Book's narrative and thematic content and details The Red Book's significance not only for psychology but for the history of ideas

The Red Book of C.G. Jung Walter Boechat, 2018-05-08 This book focuses on some of the main aspects and importance of The Red Book for the understanding of the work of C G Jung It sheds light on the great mysteries of human nature and the new dimension uncovered by Jung and Freud the universe of the unconscious and the possible ways to approach it

**The Red Book: Reflections on C.G. Jung's Liber Novus** Thomas Kirsch, George Hogenson, 2017-09-19 In 2009 WW Norton published The Red Book a book written by Jung in 1913 1914 but not previously published Snippets of information about the likely contents of the Red Book had been in circulation for years and there was much debate and eager anticipation of its publication within the Jungian field and the larger reading public In 2010 a conference was held at the San Francisco Jungian Institute which brought together an international group of distinguished scholars in analytical psychology to explore and address critical contextual aspects of The Red Book and to debate its importance for current and future Jungian theory and practice The Red Book Reflections on C G Jung's Liber Novus is based on that conference the individual papers have been thoroughly revised and updated for this book and address some of the important questions and issues that were raised at that conference in response to the presentation of these papers As yet there has been very little published about The Red Book The Red Book Reflections on C G Jung's Liber Novus will contribute to setting the agenda for further research both scholarly and clinical in response to Jung's account of his experiences between 1913 1914 when arguably the future course of his entire project was set in motion This book will be essential reading for any Jungian interested in the importance of The Red Book analytical psychologists trainee analysts those with an interest in the history of ideas and historians

**The Red Book** Carl G. Jung, 2012-12-17 In The Red Book compiled between 1914 and 1930 Jung develops his principal theories of archetypes the collective unconscious the process of individuation

The Red Book C. G. Jung, 2013-10-21 A portable edition of the famous Red Book text and essay The Red Book published to wide acclaim in 2009 contains the nucleus of C G Jung's later works It was here that he developed his principal theories of the archetypes the collective unconscious and the process of individuation that would transform psychotherapy from treatment of the sick into a means for the higher development of the personality As Sara Corbett wrote in the New York Times The creation of one of modern history's true visionaries The Red Book is a singular work outside of categorization As an inquiry into what it means to be human it transcends the history of psychoanalysis and underscores Jung's place among revolutionary thinkers like Marx Orwell and of course Freud The Red Book A Reader's Edition features Sonu Shamdasani's introductory essay and the full

translation of Jung's vital work in one volume      Jung, Dante, and the Making of the Red Book: Of Fire and Form Tommaso Priviero, 2023-08-04 This book explores the genesis of the Red Book or Liber Novus through the lens of Jung's lifelong confrontation with Dante and in doing so provides the first ever thorough comparative analysis of the intertextual and symbolical correspondences between Liber Novus and the Commedia Starting from Jung's multifaceted fascination with Dante and his pivotal role in the former's visionary material at historical hermeneutical and psychological levels the book challengingly envisions Liber Novus as Jung's Divine Comedy This work finds a new way of approaching Jung's understanding of concepts such as visionary works and visionary mind and considers how this approach can enhance our vision of depth psychology Through various thematics such as the metanoia and the symbolism of animals as well as the transformative role of the feminine and the erotic and spiritual imagery of the soul this work revolves around the Jung-Dante correlation Offering an original perspective within the field of Jungian and Dante scholarship this book will be of great interest to academics and postgraduate students studying in the areas of Jung-Dante analytical psychology depth psychology hermeneutics and Western esoteric currents and practices The book will also appeal to Jungian analysts and psychoanalysts more broadly      Jung's Red Book For Our Time Murray Stein, Thomas Arzt, 2021-09-25 Edited by Murray Stein and Thomas Arzt the essays in the series Jung's Red Book for Our Time Searching for Soul under Postmodern Conditions are geared to the recognition that the posthumous publication of The Red Book Liber Novus by C.G. Jung in 2009 was a meaningful gift to our contemporary world The Red Book can be considered as a contribution to the Golden Chain aurea catena of the world's imaginative literature reaching back to the ancient Sumerian Epic of Gilgamesh As Jung describes this tradition in a letter to Max Rychner Faust is the most recent pillar in that bridge of the spirit which spans the morass of world history beginning with the Gilgamesh epic the I Ching the Upanishads the Tao te Ching the fragments of Heraclitus and continuing in the Gospel of St John the letters of St Paul in Meister Eckhart and in Dante The Red Book extends the Golden Chain into our era Each of the 18 essays in this third volume of the series Jung's Red Book for Our Time is unique and all of them converge on the central theme of the relevance of The Red Book for people today in search of soul under postmodern conditions This is the third volume of a multi-volume series set up on a global and multicultural level and includes essays from the following distinguished Jungian analysts and scholars      Answer to Jung Lynn Brunet, 2018-11-08 The Red Book is C.G. Jung's record of a period of deep penetration into his unconscious mind in a process that he called active imagination undertaken during his mid-life period Answer to Jung Making Sense of The Red Book provides a close reading of this magnificent yet perplexing text and its fascinating images and demonstrates that the fantasies in The Red Book are not entirely original but that their plots characters and symbolism are remarkably similar to some of the higher degree rituals of Continental Freemasonry It argues that the fantasies may be memories of a series of terrifying initiatory ordeals possibly undergone in childhood using altered or spurious versions of these Masonic rites It then compares these initiatory scenarios with accounts of ritual trauma

that have been reported since the 1980s This is the first full length study of The Red Book to focus on the fantasies themselves and provide such an external explanation for them Sonu Shamdasani describes The Red Book as an incomplete task that Jung left to posterity as a message in a bottle that would someday come ashore Answer to Jung brings its message to shore providing a coherent but disturbing interpretation of each of the fantasies and their accompanying images Chapters Chapter 4 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

**The Alchemical Mercurius** Mathew Mather, 2014-03-05 The figure of the alchemical Mercurius features ubiquitously and radically in Jung's later works but despite this there has been little research concerning Mercurius in Jungian studies to date In this book Mathew Mather explores the figure of the alchemical Mercurius and contextualises and clarifies its significance in Jung's life and works Placing the alchemical Mercurius as a central concern reveals a Jungian interpretation in which the grail legend alchemy and precessional astrology as three thematic threads converge In such a treatment Jung's belief in the dawning of a new platonic month emerges as a central consideration and an esoteric perspective on Jung's life and works is brought more fully to light constructing a life myth interpretation The book is comprised of three parts Aurea Catena locating the figure of the alchemical Mercurius within the Western esoteric tradition Daimonic Encounter the relevance of this figure in Jung's personal life Magnum Opus Jung's portrayal of this figure in key texts such as Synchronicity Aion Mysterium Coniunctionis and Emma Jung and von Franz's The Grail Legend The Alchemical Mercurius is a unique contribution to analytical psychology substantially revealing esoteric Jung and providing valuable perspectives on the theme of his myth for our times The book will appeal to researchers and academics in the field of analytical psychology as well as postgraduate students
