Niger River's historical geography reveals a complex interplay between natural resources and human development. The book delves into the river's hydrological system, highlighting its unique annual flood cycle akin to a life-giving pulse and its impact on the surrounding ecosystems, demonstrating how these environmental factors have molded economic and political structures. The book systematically builds its argument across chapters, starting with the geological formation of the Niger River basin and progressing through agricultural practices, trade dynamics, and the rise and fall of empires. By integrating historical accounts, archaeological findings, and ecological studies, the book offers an interdisciplinary perspective on the river's significance. Readers will gain insight into how the Niger River has not only facilitated the exchange of goods and ideas but also shaped cultural practices and belief systems, culminating in an exploration of contemporary challenges such as climate change and pollution, and suggesting pathways for sustainable management. Of an Alien Homecoming Charles Bambach, 2022-07-01 Few themes resonate as powerfully in Heidegger as those connected to homecoming, homeland, and Heimat. This emphasis plays out most powerfully in Heidegger's reading of Hölderlin and his turn towards language, art, and poetizing as a way of thinking through the poet's relevance in the epoch of homelessness and the abandonment of the gods. As the first book-length study in English of the Heidegger-Hölderlin relation, *Of an Alien Homecoming* addresses the tension within Heidegger's work between his disastrous political commitments during the era of National Socialism and his attempts to open a path to a German future nurtured on Hölderlin's ideal of poetic dwelling. Charles Bambach reads this work on Hölderlin from 1934-1948 in conversation with the *Black Notebooks* and Heidegger's metapolitics, even as he uncovers an ethical dimension within Heidegger that pervades his reading of poetry. Throughout all of these various stages on Heidegger's thought path, Hölderlin remains the poet who poetizes the possibility of finding our lost home amidst the homelessness brought about in the epoch of technological thinking.
