The Routledge Handbook On Crime And International Migration Routledge International Handbooks:

The Routledge Handbook on Crime and International Migration Sharon Pickering, Julie Ham, 2017-07-14 The Routledge Handbook on Crime and International Migration is concerned with the various relationships between migration crime and victimization that have informed a wide criminological scholarship often driven by some of the original lines of inquiry of the Chicago School. Historically migration and crime came to be the device by which Criminology and cognate fields sought to tackle issues of race and ethnicity often in highly problematic ways. However in the contemporary period this body of scholarship is inspiring scholars to produce significant evidence that speaks to some of the biggest public policy questions and debunks many dominant mythologies around the criminality of migrants. The Routledge Handbook on Crime and International Migration is also concerned with the theoretical, empirical and policy knots found in the relationship between regular and irregular migration, offending and victimization, the processes and impact of criminalization and the changing role of criminal justice systems in the regulation and enforcement of international mobility and borders. The Handbook is focused on the migratory fault lines between the Global North and Global South which have produced new or accelerated sites of state control, constructed irregular migration as a crime and security problem and mobilized ideological and coercive powers usually reserved for criminal or military threats. Offering a strong international focus and comprehensive coverage of a wide range of border, criminal justice and migration related issues, this book is an important contribution to criminology and migration studies and will be essential reading for academics, students and practitioners interested in this field.

Research Handbook of Comparative Criminal Justice Nelken, David, Hamilton, Claire, 2022-09-15 With contributions from leading experts in the field, this timely Research Handbook reconsiders the theories, assumptions, values and methods of comparative criminal justice in light of the challenges and opportunities posed by globalisation, deglobalisation and transnationalisation.

Sex Trafficking and Modern Slavery Marie Segrave, Sanja Milivojevic, Sharon Pickering, 2017-09-13 The second volume of *Sex Trafficking International* context and response. Human trafficking and modern slavery have captured the imagination and attention of the international community. This book builds on the authors' first volume, *Sex Trafficking International* context and response. Much has changed since the first volume was published, not least the shift away from sex trafficking to modern slavery as the dominant focus in policy and advocacy. Yet as the authors argue, little has changed with regards to how nations respond. This volume re-examines the international counter-trafficking scholarship and policy response to offer an analysis based on original and new data. This book lays the ground for specific forms of research and inquiry that are necessary to better understand and respond to the range of exploitative practices and conditions that give rise to human trafficking. This book offers a detailed analysis of the dominant response to human trafficking which is framed by the criminal justice process. Examining the identification of victims, the investigation of cases, victim support, prosecutorial decisions and repatriation practices, the authors draw upon original research from Australia, Serbia and Thailand, three diverse nations that

like nations across the globe have invested heavily in criminalisation as the dominant response to counter trafficking. They argue that exploitation sits at the nexus of global migration patterns and emphasise the importance of speaking to those directly affected by counter trafficking policies and those directly involved in their implementation in order to produce empirical data to inform how we make sense of the numbers that are produced, the outcome of the policies and how we ought to determine success in this context. An empirical criminologically informed opportunity to reconsider the dominant ways of understanding and strategies of responding to human trafficking, this multi disciplinary book will be of interest to those engaged in criminology, sociology, law, political science, public policy and gender studies. *Routledge Handbook on*

Immigration and Crime Holly Ventura Miller, Anthony Peguero, 2018-02-13. The perception of the immigrant as criminal or deviant has a long history in the United States with many groups e.g. Irish, Italians, Latinos having been associated with perceived increases in crime and other social problems, although data suggest this is not necessarily the case. This Handbook examines the relationship between immigration and crime by presenting chapters reflecting key issues from both historical and current perspectives. The volume includes a range of topics related to immigration and crime such as the links between immigration rates and crime rates, nativity and crime and the social construction of the criminal immigrant as well as historical and current immigration policy vis-à-vis perceptions of the criminal immigrant. Other topics covered in this volume include theoretical perspectives on immigration and assimilation, sanctuary cities and immigration in the context of the war on terror. The Routledge Handbook on Immigration and Crime fills the gap in the literature by offering a volume that includes original empirical work as well as review essays that deliver a complete overview of immigration and crime relying on both historical and contemporary perspectives. It is a key collection for students in immigration courses, scholars and researchers in diverse disciplines including criminal justice, criminology, sociology, demography, law, psychology and urban studies and policy makers dealing with immigration and border security concerns. **Causes and Consequences of Migrant**

Criminalization Neža Kogovšek Šalamon, 2020-07-01. The book illustrates how the trend of associating migrants and refugees with criminality is on the rise. In political discourses and popular media alike, migrants and refugees are frequently portrayed as being dangerous, while cultures intent on welcoming newcomers are increasingly seen as being naïve and providing assistance to migrants is more and more frequently subject to administrative or criminal penalties. At the same time, nondemocratic trends and practices that violate human rights and equality are gaining momentum in Europe, the US and Australia. Racism, xenophobia and anti Islamism are simultaneously becoming more open and public; they are no longer restricted to clandestine platforms but are increasingly being mainstreamed into the political programs of parties that are entering both the EU parliaments and member state legislatures. Similar developments can be seen in the US and Australia. Such transformations in societies, governments and institutions seem to reflect a growing amnesia regarding the lessons of the two World Wars of the 20th century and the role that Europe, the US and Australia played in developing a post war legal

framework based on a shared if imperfect commitment to human rights The book presents individual national analyses to reveal an emerging trend of crimmigration regardless of the peculiarities of national legislatures and internal political dynamics By collecting original contributions from scholars based in and focused on each of these regions it addresses above all the causes and impacts of the criminalization of migration in the early 21st century It tackles the direct causes of these trends and encourages readers to rethink their broader political and socio historic context Importantly the book does so by highlighting the ties between the criminalization of migration and equality racism and xenophobia As the politics of migration become more perilous for political alliances like the EU as well for individual migrants it is more important than ever to critically examine the cause and consequences of migrant criminalization This collection does so from a variety of disciplinary perspectives and political traditions seeking to overcome the distractions of charismatic politicians and the peculiar factions of national political systems in order to reveal the underlying trends and disturbing patterns that are of interest to a broad internationally focused audience

Tolerating State Violence Elizabeth Stanley, 2025-11-04 Why do we tolerate state violence despite it being disagreeable painful and often harmful for our societies Drawing on three liberal democratic countries Aotearoa New Zealand Australia and the United Kingdom this book exposes how states perpetuate tolerance for their violence through representations the management of experiences and testimonies bureaucratic and technological architectures and ritualistic reforms Using contemporary case examples including in relation to borders welfare surveillance incarceration slavery and climate crimes the book provides an analysis of how state institutions organize and facilitate politics laws bureaucracies economies technologies and social experiences such that violence is normalized It spells out how state harms can be known and made tolerable with the resulting pain and trauma becoming part of everyday governance social relations institutional policies and personal experiences In exploring the many state structures strategies and techniques that facilitate and sustain violence this book also maps out what we must challenge and where our resistance efforts and demands for transformation must be directed In short the book questions How do state institutions create the conditions for the toleration of state violence and harms And from this knowledge how might we make the violence and harms intolerable **Tolerating State Violence** is indispensable reading for students and scholars of criminology and criminal justice sociology and political science The book will also appeal to policymakers legal professionals and social justice advocates concerned with institutional reform and addressing systemic violence

Crimmigration in Australia Peter Billings, 2019-10-10 This multidisciplinary book introduces readers to original perspectives on crimmigration that foster holistic contextual and critical appreciation of the concept in Australia and its individual consequences and broader effects This collection draws together contributions from nationally and internationally respected legal scholars and social scientists united by common and overlapping interests who identify critique and reimagine crimmigration law and practice in Australia and thereby advance understanding of this important field of inquiry Specifically crimmigration is addressed and analysed

from a variety of standpoints including criminal law justice administrative law justice immigration law international law sociology of law legal history feminist theory settler colonialism and political sociology The book aims to explore the historical antecedents of contemporary crimmigration and continuities with the past in Australia reveal the forces driving crimmigration and explain its relationship to border securitisation in Australia identify and examine the different facets of crimmigration comprising the substantive overlaps between criminal and immigration law crimmigration processes investigative techniques surveillance strategies and law enforcement agents institutions and practices uncover the impacts of crimmigration law and practice upon the human rights and interests of non citizens and their families analyse crimmigration from assorted critical standpoints including settler colonialism race and feminist perspectives By focusing upon these issues the book provides an interconnected collection of chapters with a cohesive narrative notwithstanding that contributors approach the themes and specific issues from different theoretical and critical standpoints and employ a range of research methods

Crimmigration under International Protection Rottem Rosenberg-Rubins, 2023-03-23 By exploring crimmigration at its intersection with international refugee law this book exposes crimmigration as a system focused on the governance of territorially present migrants which internalizes the impracticability of removal and replaces expulsion with domestic policing The convergence of criminal law and immigration law known as crimmigration has become perhaps the paradigmatic model for governing migration in the age of globalization This book offers a unique way of understanding crimmigration as a system of governmentality the primary target of which is the population its principal form of knowledge being political economy and its essential mechanism being the apparatus of security It does so by characterizing a particular model of crimmigration termed crimmigration under international protection which targets refugees and asylum seekers who are principally undeportable under international law The book draws on comparative research of such models implemented worldwide combined with a detailed case study of the immigration detention system instigated in Israel for coping with asylum seekers specifically and exclusively These models demonstrate that at its core crimmigration is not a system of outright social exclusion focused on the expulsion of undesirable migrants but rather one focused on the management classification and policing of domestic populations It is argued that under crimmigration regimes criminal law becomes instrumental in the facilitation of gradual assimilation by shifting immigration enforcement from the margins of the state to the daily supervision of territorially present migrants The book illustrates this point by focusing on three main themes crimmigration as domestication crimmigration as civic stratification and crimmigration as a mechanism coined by Foucault as the apparatus of security and by Deleuze as the society of control By exploring these themes the book offers a comprehensive framework for understanding the rise of crimmigration and the particular ways in which it targets resident migrants The book will be of interest to researchers and academics working in the areas of criminal law and criminology immigration law citizenship studies globalization studies border studies and critical refugee studies **Manitoba Law**

Women's Criminalisation and Offending in Australia and New Zealand Victoria M. Nagy,Georgina Rychner,2023-12-22 Women's Criminalisation and Offending in Australia and New Zealand offers new research and analysis of women's offending and criminalisation in Australia and New Zealand from British settlement through to the late twentieth early twenty first centuries Drawing attention to women as offenders as understood in a multitude of ways this collection highlights how women have been involved with crime and criminal behaviour their treatment inside and outside of courts and prisons and how women's deviation from societal norms have attracted negative attention throughout the decades For Aboriginal and Māori women especially the responses were harsher than what they could be for non indigenous women The chapters cover a broad range of transgressions that women have been actively involved with including theft drug and alcohol abuse and offences organised crime and homicide as well as how

women's behaviour and their bodies have been criminalised and responded to by authorities. What this collection demonstrates is that women have often chosen to be involved with crime and criminality while on other occasions their behaviour innocent as it was not considered acceptable by contemporaries resulting in confusion and misapprehension of women who refused to fit a mould. *Women's Criminalisation and Offending in Australia and New Zealand* brings together historical and criminological methods, theories and scholars to shed light on how Australia and New Zealand's colonial, later state and national governments have sought to understand, control and punish women. This collection will be of interest and value to scholars, students and everyone with an interest in criminology, history, law, sociology, Indigenous studies and Australian and New Zealand studies.

Rethinking Utopia David M. Bell, 2017-01-20. Over five hundred years since it was named, utopia remains a vital concept for understanding and challenging the world we inhabit even in or rather because of the condition of post-utopianism that supposedly permeates them. In *Rethinking Utopia*, David M. Bell offers a diagnosis of the present through the lens of utopia and then by rethinking the concept through engagement with utopian studies, a variety of radical theories and the need for decolonizing praxis shows how utopianism might work within, against and beyond that which exists in order to provide us with hope for a better future. He proposes paying a subversive fidelity to utopia in which its three constituent terms: *good*, *eu*, *place*, *topos* and *no ou* are rethought to assert the importance of immanent affective relations. The volume engages with a variety of practices and forms to articulate such a utopianism including popular education, critical pedagogy, musical improvisation and utopian literature. The problems as well as the possibilities of this utopianism are explored although the problems are often revealed to be possibilities provided they are subject to material challenge. *Rethinking Utopia* offers a way of thinking about and perhaps realising utopia that helps overcome some of the binary oppositions structuring much thinking about the topic. It allows utopia to be thought in terms of place and process, affirmation and negation and the real and the not yet. It engages with the spatial and affective turns in the social sciences without ever uncritically being subsumed by them and seeks to make connections to indigenous cosmologies. It is a cautious, careful critical work punctuated by both pessimism and hope and a refusal to accept the finality of this or any world.

Refugees and the violence of welfare bureaucracies in Northern Europe Dalia Abdelhady, Nina Gren, Martin Joormann, 2020-10-06. This electronic version has been made available under a Creative Commons BY-NC-ND open access license. Refugees have moved into the spotlight of public debate in Europe and North America where they are targeted by multiple welfare state interventions. This volume analyses the tensions that emerge within the strong welfare states of Northern Europe when faced with an increased immigration of protection-seeking people. Examining the encounter between refugees and the welfare states, this book explores the daily strategies and experiences of newly settled groups and the role of media discourses and welfare policies in shaping those experiences. Building on both textual analyses and ethnographic fieldwork in welfare institutions, asylum centres and refugee communities, this volume provides an in-depth understanding of
