The Cult of Saint Catherine of Siena Gerald Parsons, 2017-03-02 This book examines the origins development and history of the cult of Saint Catherine of Siena Gerald Parsons argues that the cult of Catherine of Siena constitutes a remarkable example of the cult of a particular saint which across more than six centuries has been the vehicle for an evolving sequence of civil religious rituals and meanings He shows how the cult of this particular saint developed firstly as an expression of Sienese civil religion secondly as a focus for Italian civil religion and finally into an expression of European civil religion Instead of the predominantly devotional and frequently essentially hagiographical approach of much of the literature on Catherine of Siena Parsons examines the significance of her cult from the perspective

Bowe, William Davies, 2018-04-18 Drawing on the diverse critical debates of the Beckett and Europe conference held in Reading UK in 2015 this volume brings together a selection of essays to offer an international response to the central question of what Europe might mean for our understandings of the work of Samuel Beckett Ranging from historical and archival work to the close interrogation of language and form from the influences of various national literary traditions on Beckett's writing to his influence on the work of other writers and thinkers this book examines the question of Europe from multiple vantage points so as to reflect the ways in which Beckett's oeuvre both challenges and enlivens his status as a European writer With a full introductory chapter examining the challenging implications of the term Europe in the contemporary period this volume treats Europe as a recognition of the multiple ways that Beckett's poetry criticism prose and drama invite new understandings of the role of history culture and tradition in one of the most significant bodies of writing of the twentieth century Butler's Lives of the Saints Alban Butler, Paul Burns, 1997-01-01 For more than two centuries Butler's has been one of the best known most widely consulted hagiographies In its brief and authoritative entries readers can find a wealth of knowledge on the lives and deeds of the saints as well as their ecclesiastical and historical importance since canonization American Folk Legend Wayland Debs Hand, 1979-01-01

Mediterranean Europe(s) Matthew D'Auria, Fernanda Gallo, 2022-09-26 This book investigates how ideas of and discourses about Europe have been affected by images of the Mediterranean Sea and its many worlds from the nineteenth century onwards Surprisingly modern scholars have often neglected such an influence and in fact in most histories of the

idea of Europe the Mediterranean is conspicuously absent This might partly be explained by the fact that historians have often identified Europe with modernity and the Atlantic world and therefore in opposition to the classical world centred around the Mediterranean This book will challenge such views showing that a plethora of thinkers from the early nineteenth century to the present have refused to relegate the Mediterranean to the past Importance is given to the idea of a distinct meridian thought a notion first set forth by Albert Camus and now reworked by French and Italian thinkers As most chapters argue this might represent an important tool for rethinking the Mediterranean and in turn it might help us challenge received notions about European identity and rethink Europe as the locus of modernity Mediterranean Europe s Rethinking Europe from its Southern Shores will appeal to researchers and students alike interested in European studies and Mediterranean history

"Death, Torture and the Broken Body in European Art, 1300?650 " John R. Decker, 2017-07-05 Bodies mangled limbs broken skin flayed blood spilled from paintings to prints to small sculptures the art of the late Middle Ages and early modern period gave rise to disturbing scenes of violence Many of these torture scenes recall Christ s Passion and its aftermath but the martyrdoms of saints stories of justice visited on the wicked and broadsheet reports of the atrocities of war provided fertile ground for scenes of the body s desecration Contributors to this volume interpret pain suffering and the desecration of the human form not simply as the passing fancies of a cadre of proto sadists but also as serving larger social functions within European society Taking advantage of the frameworks established by scholars such as Samuel Edgerton

Mitchell Merback and Elaine Scarry to name but a few *Death Torture and the Broken Body in European Art 1300 1650* provides an intriguing set of lenses through which to view such imagery and locate it within its wider social political and devotional contexts Though the art works discussed are centuries old the topics of the essays resonate today as twenty first century Western society is still absorbed in thorny debates about the ethics and consequences of the use of force coercion including torture and execution and about whether it is ever fully acceptable to write social norms on the bodies of those who will not conform

Butler's Lives of the Saints: September Alban Butler, Paul Burns, 1995-01-01 For more than two centuries Butler s has been one of the best known most widely consulted hagiographies In its brief and authoritative entries readers can find a wealth of knowledge on the lives and deeds of the saints as well as their ecclesiastical and historical importance since canonization

Butler's Saints of the Third Millennium Paul Burns, 2001-01-01 Pope John Paul II has proclaimed an unprecedented number of new saints and blessed in the 25 years of his pontificate and shows few signs of slowing the process despite the criticism from at least one cardinal that the altars are getting a little crowded The proclamations have been made in a large number of countries from which the new saints and blessed have come This reflects a deliberate policy of strengthening the faith of local churches against the threats from totalitarianism secularism Pentecostalism etc the Vatican tends to see most of the outside world as a threat

There has also been a deliberate policy to seek more examples of holiness from outside the ranks of clergy and religious. The twentieth century has been seen as the century of martyrs, largely those of Nazism and Communism, and they feature prominently. Those of nominally Catholic military regimes are less favoured. The Introduction will make such points. This volume proposes to cover a four year period in the Butler's style. Blessed's appearing in the 1995-2000 volumes who have since been canonized will have their entries updated and expanded as necessary. New blessed's will be featured with the information that is available, which in the case of some Third World figures is not very much. Entries will therefore range from around 3,000 words to 200, with an average of some 800. The number of entries will be approximately 80.
